A Community-based Assessment of Skin Care, Allergies and Eczema (CASCADE)

**PI:** Elizabeth Waddell, PhD  
**Funder:** Oregon Health Authority  
**Setting:** Portland, Salem, Roseburg, Medford, The Dalles, Eugene, Grants Pass, Hillsboro  
**Topic:** Understand capacity and needs for integration of behavioral health and primary care across multiple settings with emphasis on reaching clinical quality measures.

Behavioral Health Home Learning Collaborative (BHH LC)

**PI:** Eric Simpson, MD, MCR  
**Funder:** National Institute of Arthritis and Musculoskeletal and Skin Diseases  
**Setting:** Wisconsin, North Carolina, Colorado, Oregon  
**Topic:** Pragmatic, community-based randomized trial to determine the effect of skin care education on the development of atopic dermatitis.

Connecting Research to Real Life (CR2RL)

**PI:** Melinda Davis, PhD  
**Funder:** PCORI  
**Setting:** The Dalles, Hood River  
**Topic:** Creation of regional network of service providers, health system leaders and community members who are committed to developing and implementing research that addresses the health care needs of the communities in the Columbia River Gorge.

CPCRN Colorectal Cancer Screening Microsimulation (Microsimulation)

**PI:** Stephanie Wheeler, PhD, Melinda Davis, PhD site PI  
**Funder:** Centers for Disease Control  
**Setting:** North Carolina, Oregon  
**Topic:** Explores regional patterns in colorectal cancer screening and uses a microsimulation model to determine which evidence-based interventions would have the greatest return on investment to implement.

Disparities in CRC Screening: A Mixed Methods Multi-level Study of Oregon's Medicaid Population (Disparities)

**PI:** Melinda Davis, PhD, Cynthia Mojica, PhD, OSU  
**Funder:** Knight Cancer Institute  
**Setting:** Statewide  
**Topic:** Mixed methods study to explore the association between practice-level screening rates for colorectal cancer and clinical workflows.

Enhancing Colorectal Cancer (CRC) Screening across Oregon’s Coordinated Care Organizations (CCOs)

**PI:** Melinda Davis, PhD  
**Funder:** Agency for Healthcare Research and Quality  
**Setting:** Statewide  
**Topic:** Mixed methods study to explore the association between practice-level screening rates for colorectal cancer and clinical workflows.

Disparities in CRC Screening: A Mixed Methods Multi-level Study of Oregon's Medicaid Population (Disparities)

**PI:** Melinda Davis, PhD, Cynthia Mojica, PhD, OSU  
**Funder:** Knight Cancer Institute  
**Setting:** Statewide  
**Topic:** Mixed methods study to explore the association between practice-level screening rates for colorectal cancer and clinical workflows.

Disparities in CRC Screening: A Mixed Methods Multi-level Study of Oregon's Medicaid Population (Disparities)

**PI:** Melinda Davis, PhD, Cynthia Mojica, PhD, OSU  
**Funder:** Knight Cancer Institute  
**Setting:** Statewide  
**Topic:** Mixed methods study to explore the association between practice-level screening rates for colorectal cancer and clinical workflows.

Disparities in CRC Screening: A Mixed Methods Multi-level Study of Oregon's Medicaid Population (Disparities)

**PI:** Melinda Davis, PhD, Cynthia Mojica, PhD, OSU  
**Funder:** Knight Cancer Institute  
**Setting:** Statewide  
**Topic:** Mixed methods study to explore the association between practice-level screening rates for colorectal cancer and clinical workflows.

Disparities in CRC Screening: A Mixed Methods Multi-level Study of Oregon's Medicaid Population (Disparities)

**PI:** Melinda Davis, PhD, Cynthia Mojica, PhD, OSU  
**Funder:** Knight Cancer Institute  
**Setting:** Statewide  
**Topic:** Mixed methods study to explore the association between practice-level screening rates for colorectal cancer and clinical workflows.

Disparities in CRC Screening: A Mixed Methods Multi-level Study of Oregon's Medicaid Population (Disparities)

**PI:** Melinda Davis, PhD, Cynthia Mojica, PhD, OSU  
**Funder:** Knight Cancer Institute  
**Setting:** Statewide  
**Topic:** Mixed methods study to explore the association between practice-level screening rates for colorectal cancer and clinical workflows.

Disparities in CRC Screening: A Mixed Methods Multi-level Study of Oregon's Medicaid Population (Disparities)

**PI:** Melinda Davis, PhD, Cynthia Mojica, PhD, OSU  
**Funder:** Knight Cancer Institute  
**Setting:** Statewide  
**Topic:** Mixed methods study to explore the association between practice-level screening rates for colorectal cancer and clinical workflows.
Research Studies 2016

**Healthy Hearts Northwest (H2N)**
**PI:** Michael Parchman, MD; Lyle Fagnan, MD Oregon PI
**Funder:** Agency for Healthcare Research and Quality
**Setting:** Washington, Idaho, Oregon
**Topic:** A three-year project for primary care practices that aims to improve the cardiovascular health of patients by expanding existing quality improvement capacity.

**Looking Beyond the Clinicians Visit: Sustaining Care Coordination in Eastern Oregon (EOCC)**
**PI:** Elizabeth Waddell, PhD
**Funder:** Moda Health Plan, Inc.
**Setting:** Pendleton, Hermiston
**Topic:** Utilizes a participatory design to learn how care coordination fits and is sustained within the PCPCH model. The group measures care coordination activities and describes a framework for a sustainable business model for care coordination.

**Meta-Network Learning and Research Center (Meta-LARC)**
**PI:** Lyle Fagnan, MD
**Funder:** Agency for Healthcare Research and Quality
**Setting:** Wisconsin, North Carolina, Colorado, Iowa, Quebec
**Topic:** Creation of research and learning consortium to accelerate the conduct of PBRN research through a common infrastructure enabling the efficient conduct of research. The consortium promotes continuous learnings across networks for evidence dissemination and knowledge transfer.

**Rural General Surgery Patients**
**PI:** Lyle Fagnan, MD, Liska Havel, MD
**Funder:** N/A
**Setting:** Statewide survey of hospital administrators
**Topic:** Mixed-methods approach to analyze statewide data on general surgery procedures and in-person interviews with hospital administrators to investigate the prevalence of general surgery procedures performed at urban care centers for rural Oregon patients.

**Rural Oregon Developmental Screening and Referral for Children at risk for Developmental Delay**
**PI:** Lyle Fagnan, MD
**Funder:** Ford Family Foundation
**Setting:** Coos, Douglas, Curry and Lincoln counties
**Topic:** Learning collaborative to rural CCOs and clinics to increase number of children screened for developmental delays and to increase referrals for children at risk.

**Western States Node of the National Drug Abuse Treatment Clinical Trials Network (CTN)**
**PI:** Dennis McCarty, PhD
**Funder:** National Institute on Drug Abuse
**Topic:** The Western States Node promotes drug abuse prevention and treatment services through design and implementation of clinical trials of evidence-based treatments and addiction through rapid recruitment of diverse study participants.
