Paid Summer Clinical Research Internship
Hosted by OHSU Vascular Surgery, General Surgery, and Innovation

We are recruiting motivated University and Medical Students to join our clinical research program for the summer of 2015. College and Medical students will work in teams to complete a chart review and a prospective study. This program runs from approximately the end of June until the end of August.

This Research Experience includes:

- Collaboration between a University and Medical Student
- An insight into the world of academic research with:
  - Weekly Vascular Surgery conferences
  - Workshops on data visualization, biostatistics, and researching resources
- Opportunities to:
  - Shadow in Vascular Surgery clinic, Vein clinic, the OR, and the Vascular Lab
  - Interact with patients in a prospective study “out in the field”
  - Support from the Principal Investigator to present completed work at local, regional, and/or national meetings

Requirements:

- Enthusiasm for clinical research
- Dedication to collaboration
- Proficiency with Microsoft Office
- Commitment of 40 hours per week
- US, Canadian, and International applicants are welcome!

Please e-mail a one page letter of intent and a CV to Ashley Price price@ohsu.edu
