New biosafety cabinet web site and updated annual renewal form

An updated version of the [IBC Annual Renewal/Project Modification Form](#) has been added to the Forms and Policy page. The renewal form now asks researchers to provide biosafety cabinet certification dates. View the new [biosafety cabinet page](#) for help with determining the information needed on this form, as well as other important information about the proper use of biosafety cabinets.

Older versions of the renewal/modification form will not be accepted after January 3, 2012.

Need something produced by an OHSU Viral Vector Core?

The IBC has created a new [Core Services Recombinant DNA Research Questionnaire](#) to be used when obtaining a stock vector system from one of the Viral Vector Cores. A review flowchart to assist with understanding the IBC review process for customers of the viral vector cores is also available on the [IBC Forms and Policy page](#).

Other form updates

We posted an updated version of the [IBC Questionnaire for Human Subject Studies](#). Always remember to visit the [IBC website](#) to download the *most current version* of all forms.

Please email the [Research Integrity Office](#) or call us (503-494-7887 option 1) with any questions about the updated forms.
