

Earlier this year, OHSU purchased SciVal Funding, a powerful new database that makes it easier to find grants tailored to your research. Find opportunities based on your publication history, search for previously awarded grants, and even set up personalized alerts. [Access SciVal Funding](#).

If you have any questions or would like us to demonstrate this tool for your department, contact [funding@ohsu.edu](mailto:funding@ohsu.edu).

## WEEKLY FUNDING ALERTS Week of 2.9.12

### Featured Funding Opportunity

#### [Oregon Clinical and Translational Research Institute \(OCTRI\) KL2 – Career Development](#)

**Description:** The Oregon Clinical and Translational Research Institute (OCTRI) KL2 supports research training and career development of clinical and translational investigators to conduct interdisciplinary research with scientists from diverse disciplines. In addition to salary support and funds for research activities, scholars are able to utilize additional support services through OCTRI and the Human Investigations Program. The OCTRI KL2 program is funded through NIH.

**Deadline:** Letter of intent: February 27, 2012

**Amount:** \$75,000 per year or up to 75% of scholar's salary for up to two years. (It is anticipated that the scholar's department will provide salary support if necessary.) The award includes up to \$25,000 per year for research activities and travel.

**Eligibility:** Applicants must have a current or pending faculty appointment as assistant professor (or equivalent level) and have had no prior funding as principal investigator on an NIH research grant. At the end of the appointment, the scholar is expected to have received an independent career development award, such as a K award or R01 from NIH.

### Non-Federal, Foundation and Corporate Opportunities

*Applying to a corporation or foundation? Be sure to fill out a [Notice of Intent Form](#).*

Sponsor	Opportunity, Amount, Research Focus	Deadline	Eligibility
Northwest Regional Center of Excellence for Biodefense and Emerging Infectious Diseases Research	<a href="#">Career Development Projects</a> \$50,000 to \$100,000 for up to two years. Provides up to two years of support for postdoctoral or junior faculty investigators who wish to establish a new research direction in biodefense and emerging infectious diseases.	February 29, 2012	Investigators must be postdoctoral or junior faculty. Postdoctoral fellows must identify a sponsor/mentor.
Epilepsy Foundation	<a href="#">Targeted Research Initiative for Women with Epilepsy</a> \$50,000 maximum for one year. Supports research that generates initial data leading to more extensive projects that will have direct relevance to care of women with epilepsy. Research should focus on investigation of one of the many areas that preferentially affect women with epilepsy during the reproductive life cycle.	March 21, 2012	Applicants must hold a doctoral degree and have an academic appointment at the level of assistant professor or higher.
Epilepsy Foundation	<a href="#">Targeted Research Initiative for Youth</a> Up to \$50,000 for one year. Recognizes the increasing need for epilepsy and seizure research in populations from birth through the teen years. Research may involve pathophysiology, epidemiology, diagnosis, behavioral manifestations, medication therapy, and quality-of-life issues.	March 21, 2012	Applicants must hold a doctoral degree and have an academic appointment at the level of assistant professor or higher.

<b>Sponsor</b>	<b>Opportunity, Amount, Research Focus</b>	<b>Deadline</b>	<b>Eligibility</b>
Epilepsy Foundation	<a href="#">Behavioral Sciences Post-Doctoral Fellowship</a> Up to \$40,000 for one year. The fellowship develops behavioral scientists to teach the appropriate psychosocial intervention techniques used in working with people with epilepsy, and contributes to the body of behavioral research in epilepsy.	March 21, 2012	Individuals who will have received their doctoral degrees in a field of the social sciences by the time the fellowship commences, and desire additional postdoctoral research experience, may apply.
Epilepsy Foundation	<a href="#">Targeted Research Initiative for Cognitive and Psychiatric Aspects of Epilepsy</a> Up to \$50,000 for one year. Supports research leading to new insights into the diagnosis etiology, complications and treatment of persons with epilepsy and mood disorders including comorbid cognitive disorders; depression, anxiety, suicidality, other psychiatric symptoms; and psychogenic non-epileptic seizures.	March 21, 2012	Investigators must hold a degree relative to the research to be conducted (M.D., Ph.D., M.S., PharmD), and have completed the necessary research training appropriate to the project proposed.
Epilepsy Foundation	<a href="#">Targeted Research Initiative for Health Outcomes</a> Up to \$50,000 for one year. Supports research that generates initial data leading to projects that will generate knowledge that will ultimately improve the healthcare of persons with epilepsy. The focus includes methodological aspects of health and outcome measurement, health care needs assessment, nature and determinants of disparities in healthcare, access to care, quality of life, comparative effectiveness research, insurance and healthcare system issues, and methods of health care delivery.	March 21, 2012	Applicants must hold a doctoral degree and have an academic appointment at the level of assistant professor or higher.
Epilepsy Foundation	<a href="#">Targeted Research Initiative for Morbidity and Mortality</a> Up to \$50,000 for one year. The mortality portion of the program is focused upon potentially preventable causes of death in epilepsy. The morbidity portion of this program includes identification of somatic comorbidities in epilepsy that occur more than expected among controls and associations between somatic comorbidities in epilepsy and epilepsy outcomes.	March 21, 2012	Applicants must hold a doctoral degree and have an academic appointment at the level of assistant professor or higher.
Epilepsy Foundation	<a href="#">Targeted Research Initiative for Severe Symptomatic Epilepsies</a> Up to \$50,000 for one year. For research on all topics that affect patients with epilepsy and developmental disabilities.	March 21, 2012	Applicants must hold a doctoral degree and have an academic appointment at the level of assistant professor or higher.
Fondation Jérôme Lejeune	<a href="#">Grant Program</a> 20 to up to 40,000 Euros over two years, but can be higher for therapeutic projects. Funds fundamental or clinical research projects leading to the discovery of treatments improving abilities of patients suffering from genetic diseases with mental deficiency, especially trisomy 21 (Down syndrome).	March 25, 2012	Postdoctoral candidates and junior and senior faculty are eligible.

<b>Sponsor</b>	<b>Opportunity, Amount, Research Focus</b>	<b>Deadline</b>	<b>Eligibility</b>
American Italian Cancer Foundation	<a href="#">Post-doctoral Research Fellowships</a> \$35,000 stipend for one year, with ten fellowships renewable for a second year. Provides support for young scientists who pursue research and advanced training in collaboration with mentors at major cancer centers in the U.S. and Italy.	March 31, 2012	First-year applicants must have received an advanced degree—a Ph.D., M.D., D.Sc. or D.V.M.--no more than three years prior to the date of their applications.
Octapharma AG	<a href="#">Grants Program</a> Varies. The request for support must relate to clinical or pre-clinical research focusing on human protein therapies in one or more of the following therapeutic areas: immunotherapy, coagulation disorders, and Intensive care and emergency Medicine.	March 31, 2012	Applications must be submitted from U.S. institutions.
American Cancer Society	<a href="#">Mentored Research Scholar Grant in Applied and Clinical Research</a> \$135,000 per year for five years. The goal is for beginning investigators to become independent researchers in clinical, cancer control and prevention, epidemiologic, psychosocial, behavioral, health services and health policy research.	April 1, 2012 and October 15, 2012	Applicants are typically within the first four years of their first faculty appointment. Applicants must be U.S. citizens, noncitizen nationals, or permanent residents of the U.S. Grants will only be made to not-for-profit institutions.
American Cancer Society	<a href="#">Research Scholar Grants</a> \$200,000 per year for up to four years. Provides support for independent, self-directed researchers in the first six years of their independent research careers to conduct basic, preclinical, clinical, and epidemiology research projects.	April 1, 2012 and October 15, 2012	Investigators in the first six years of an independent research career or faculty appointment are eligible to apply.
American Cancer Society	<a href="#">Postdoctoral Fellowships</a> \$44,000-\$48,000 per year for three years. Supports the training of researchers to provide initial funding leading to an independent career in cancer research (including basic, preclinical, clinical, cancer control, psychosocial, behavioral, epidemiology, health services and health policy research).	April 1, 2012 and October 15, 2012	Applicants must have obtained their doctoral degree prior to activation of the fellowship and must be, at the time of the application, citizens, non-citizen nationals, or permanent residents of the U.S. Individuals who have held a Ph.D. or M.D. for more than four years at the time of application are not eligible for a fellowship.
McKnight Endowment Fund for Neuroscience	<a href="#">Memory and Cognitive Disorders Awards</a> \$100,000 per year for three years. Assists scientists working to apply the knowledge achieved through basic research to human brain disorders that affect memory or cognition. The Fund is specifically interested in proposals that address memory or cognition under normal and pathological conditions.	Letter of intent: April 1, 2012; Full application (invitation only) September 10, 2012	Investigators who are U.S. citizens or permanent residents. Applicants must be in tenured or tenure-track faculty positions.
British Council	<a href="#">Trilateral Research in Partnership (TRIP) Awards</a> \$75,000 over two years. Supports multidisciplinary research projects between United Kingdom, U.S. and Indian higher education institutions.	April 13, 2012	Higher education institutions.

Sponsor	Opportunity, Amount, Research Focus	Deadline	Eligibility
Multiple Myeloma Research Foundation	<a href="#">Research Fellow Award</a> \$75,000 for one year. Helps support young investigators studying in the field of multiple myeloma while advancing the understanding of myeloma disease biology, treatment and drug resistance.	April 24, 2012	Eligible researchers will have less than five years experience (post highest degree obtained, doctorate or equivalent) working under the supervision of a research mentor in the multiple myeloma field.
Fulbright	<a href="#">Core Fulbright Scholar Program</a> Not specified. Offers broad cultural perspective on an academic discipline or professional field, and connects awardee with colleagues at institutions around the world. Most lecturing assignments are in English. For those conducting research, language capability is required depending on the area of the world and project.	August 1, 2012; Informational <a href="#">webinars</a> begin in February 2012	Requirements include: U.S. citizenship, a Ph.D. or equivalent professional/terminal degree, college or university teaching experience, foreign language proficiency, and sound physical and mental health.
Fulbright	<a href="#">Distinguished Chairs Program Awards</a> Not specified. Comprises approximately forty distinguished lecturing, distinguished research and distinguished lecturing/research awards ranging from three to 12 months. Awards in the Fulbright Distinguished Chairs Program are viewed as among the most prestigious appointments in the Fulbright Scholar Program.	Application available March 1, 2012. Deadline: August 1, 2012; Informational <a href="#">webinars</a> begin February 2012	Applicants must: have U.S. citizenship at the time of application; have a Ph.D. or equivalent professional terminal degree at the time of application; have college or university teaching experience. Candidates should be senior scholars with a significant publication and teaching record.
Fulbright	<a href="#">Specialist Program Grants</a> Not specified. Two to six weeks duration. The program promotes linkages between U.S. academics and professionals and their counterparts at host institutions overseas. It is designed to award grants to qualified U.S. faculty and professionals, in select disciplines, to engage in short-term collaborative two to six week projects at host institutions in over 100 countries worldwide.	Rolling deadline	See announcement for eligible disciplines: Applicants must be U.S. citizens at the time of application. For academics, a Ph.D. or equivalent professional/terminal degree at the time of application plus a minimum of five years of post-doctoral teaching or professional experience in the field in which you are applying is required.

### NIH Federal Opportunities

**NIH grants to be submitted to Research Grants and Contracts three business days prior to their due date:** You must submit your final NIH applications to [Research Grants and Contracts](#) (the pre-award office at OHSU) three business days before their due date. This enforcement is being implemented because the NIH, AHRQ, and NIOSH have eliminated their "error correction window" as of this date. View the [NIH notice](#) for more information.

Institute	Opportunity	Deadline	Amount
Common Fund	<a href="#">Resource Access for the Bridging Interventional Development Gaps Program (X01)</a>	April 3, 2012	n/a. Provides access to government-funded contract resources needed for preclinical development of therapeutic agents.

<b>Institute</b>	<b>Opportunity</b>	<b>Deadline</b>	<b>Amount</b>
Multiple Institutes	<a href="#">Modeling Social Behavior (R01)</a>	April 3, 2012	Amount varies.
Multiple Institutes	<a href="#">Ancillary Domain Validation Patient-Reported Outcomes Measurement Information System (PROMIS®) Studies (R01)</a>	April 10, 2012	Up to \$250,000 per year for four years.
National Institute of Child Health and Human Development (NICHD)	<a href="#">Postdoctoral Research Training in Obstetric Fetal Pharmacology (T32)</a>	May 25, 2012; May 25, 2013	Not limited to set amount.
National Institute of Allergy and Infectious Diseases (NIAID)	<a href="#">HIV Vaccine Research and Design (HIVRAD) Program (P01)</a>	June 13, 2012; June 13, 2013; June 13, 2014	Amount varies.
National Cancer Institute (NCI)	<a href="#">Basic Cancer Research in Cancer Health Disparities (U01), Exploratory/Developmental Grants Program for Basic Cancer Research in Cancer Health Disparities (R21)</a>	June 20, 2012; November 20, 2012; June 30, 2013...	U01 - \$250,000 per year not to exceed five years. R21 - \$275,000 over two years. No more than \$200,000 in a single year.
National Cancer Institute (NCI)	<a href="#">Exploratory Grant Award to Promote Workforce Diversity in Basic Cancer Research (R21)</a>	June 20, 2012; November 20, 2012; June 20, 2013...	\$275,000 over two years. No more than \$200,000 in a single year.
National Institute of Allergy and Infectious Diseases (NIAID)	<a href="#">Partnerships for Development of Vaccine Technologies (R01)</a>	June 26, 2012	\$750,000 per year for five years.
National Eye Institute (NEI)	<a href="#">Stem Cell Approaches to Developing New Therapies for Ocular Diseases (R01)</a>	July 2, 2012	Up to \$250,000 per year over five years.
National Institute on Drug Abuse (NIDA)	<a href="#">Phased Services Research Studies of Drug Use Prevention, Addiction Treatment, and HIV in an Era of Health Care Reform (R21/R33)</a>	July 20, 2012	\$275,000 over two year period for R21. \$1,500,000 over five years for R33.
National Institute on Deafness and Other Communication Disorders (NIDCD)	<a href="#">Development of Measures to Determine Successful Hearing Health Care Outcomes (R01)</a>	October 3, 2012; June 3, 2013; February 3, 2014	Amount varies.
Multiple Institutes	<a href="#">New Technologies for Viral Hepatitis STTR (R41/R42)</a>	Standard dates apply.	Total funding support normally may not exceed \$150,000 for Phase I (one year) and \$1 million for Phase II (two years).
Multiple Institutes	<a href="#">Omnibus Solicitation of the NIH for Small Business Technology Transfer Grant Applications (Parent STTR [R41/R42])</a>	Standard dates apply.	Total funding support normally may not exceed \$150,000 for Phase I (one year) and \$1 million for Phase II (two years).

## Non-NIH Federal Opportunities

Sponsor	Title, Amount, Research focus	Deadline	Eligibility
Agency for Healthcare Research and Quality (AHRQ)	Re-Activation of AHRQ Individual Career Development (K) Awards for June 5, 2012 Receipt Date <ul style="list-style-type: none"> <li><a href="#">Mentored Clinical Scientist Research Career Development Award (K08)</a></li> <li><a href="#">Independent Scientist Award (K02)</a></li> <li><a href="#">Mentored Research Scientist Research Career Development Award (K01)</a></li> </ul>	June 5, 2012	See full announcements.
Department of Defense (DoD)	<a href="#">Broad Agency Announcement (BAA) for the Naval Medical Research and Development Center-Frederick</a> Amount varies. Solicits proposals for innovative approaches in infectious disease research, non-communicable disease research, and combat casualty care research. See announcement for a full list of areas of interest.	White papers accepted on a rolling basis. Select applicants will be invited to submit a full proposal within 90 days.	Applications will be accepted from both academia and industry. Teams are encouraged and may submit proposals. Some topics may cover export controlled technologies.

### Limited Submission Grants with Upcoming Deadlines

***The sponsors of these awards have limited the number of candidates that can apply from a single institution; thereby requiring internal coordination. Opportunities noted at Limited Submission Review require institutional review through the Office of the Vice President for Research. Opportunities noted as Limited Submission at School/Department level require coordination through your department chair, division head or dean. See each opportunity for specific details. Please direct any questions to [funding@ohsu.edu](mailto:funding@ohsu.edu).***

Sponsor	Title, Amount, Research focus	Deadline	Internal Coordination
Pfizer	<a href="#">Fellowship in Bioethics</a> \$50,000 per year for two years. Ethics in contemporary medicine	External: February 11, 2012	Limited Submission at the Department Level
NIH – National Institute of Environmental Health Sciences	<a href="#">Superfund Hazardous Substance Research and Training Program (P42)</a> Up to \$1.7 million per year for four years. Hazardous substances	Internal: February 17, 2012 External: April 10, 2012	Limited Submission Review
NIH – National Institute of Neurological Disorders and Stroke	<a href="#">NINDS Institutional Center Core Grants to Support Neuroscience Research (P30)</a> Neurology	Internal: February 17, 2012 Letter of intent: March 3, 2012	Limited Submission Review
Centers for Disease Control and Prevention (CDC)	<a href="#">Development and Testing of a Clinic-Based Intervention to Increase Dual Protection against Unintended Pregnancy and STDs among High Risk Female Teens</a> Amount varies.	Internal: February 17, 2012 External: March 26, 2012	Limited Submission Review
Avon Foundation for Women	<a href="#">Breast Cancer Research Program</a> \$150,000 for two years. Breast cancer.	Internal deadline: February 24, 2012 Letter of intent: April 2, 2012 Full proposal by invitation: May 15, 2012	Limited Submission Review
NIH – National Institute of Allergy and Infectious Diseases	<a href="#">Clinical Trials in Organ Transplantation in Children (U01)</a> Amount varies. Organ transplants	Internal: February 24, 2012 External: April 18, 2012	Limited Submission Review

Sponsor	Title, Amount, Research focus	Deadline	Internal Coordination
Orthopaedic Research and Education Foundation	<a href="#">Prospective Clinical Grants in Spine Care</a> \$50,000 to \$100,000 per year for three years. Spine trauma and disorder care	March 8, 2012	Limited Submission at the Department Level
NIH – National Institute of Allergy and Infectious Diseases	<a href="#">Asthma and Allergic Diseases Cooperative Research Centers (U19)</a> Up to \$1 million per year for five years. Basic and clinical research on asthma and allergic diseases	Internal: March 9, 2012 External: April 24, 2012	Limited Submission Review
NIH – National Eye Institute	<a href="#">Mentored Clinical Scientist Development Program (K12)</a> Up to \$1.125 million per year for five years. Clinical vision research	Internal: March 23, 2012 External: May 14, 2012	Limited Submission Review
Multiple institutes	<a href="#">Jointly Sponsored Ruth L. Kirschstein National Research Service Award Institutional Predoctoral Training Program in the Neurosciences (T32)</a> Varies. Careers in neuroscience.	Internal: March 30, 2012 Full application: May 25, 2012	Limited Submission Review
Collins Medical Trust	<a href="#">Seed Project Funding</a> Approximately \$25,000 to \$30,000 for one year. Cause, cure and treatment of disease	Three opportunities per year. First opportunity deadline: Internal – April 19, 2012; OHSU Foundation – April 22, 2012; External: May 1, 2012	Limited Submission Review
NIH - Multiple Institutes	<a href="#">Centers for AIDS Research and Developmental Centers for AIDS Research (P30)</a> Amount varies. Centers for AIDS research	Internal deadline: April 20, 2012 External deadline: June 14, 2012; June 14, 2013	Limited Submission Review
