External Client iLab

Lab Setup

1) Navigate to the iLab login page (https://ohsu.corefacilities.org/account/login)

2) Click on the Register link

![iLab login page screenshot]

3) Complete the registration process. Have all of your lab members who wish to use our service register as well. Make sure the billing information is 100% correct, as this is where we will send our invoice.

4) Navigate to the Gene Profiling/RNA and DNA Services Shared Resource page. (We recommend that you bookmark this page for future use.)

5) On the left hand side of the page click the “my labs” link and select your lab (#2 in screenshot below).

6) Click on the ‘Members’ tab. Once your lab members register their own iLab accounts you can manually bring them into your lab here using the “Add an existing user” feature (6).

7) You can customize your auto approval threshold (5) as well as designate one of your Lab members as a ‘manager’ by clicking on the pencil icon and selecting ‘manager’ from the dropdown (7). This manager will then have the

Ordering Oligo’s

1) Once you have finished setting up your lab you can navigate back to the Gene Profiling/RNA and DNA Services Shared Resource page.

2) Click on the “Request Services” tab (1), then scroll down and click on the “Oligo Synthesis” link (2). Click on the “Initiate Request” button to gain access to the submission form (3).

3) Once you have opened the order form, scroll down to the bottom type “invoice” into the text box (or a PO# if you have one). Then submit the form.

4) Once you have submitted the service request, navigate to the “View My Requests” tab, open the service request using the blue arrow and copy the IDT Portal URL into another tab in your web browser.
1) Once you have navigated to the IDT/OHSU portal, you will need to create an account before you are given access. Please set up an account and fill out the information using you're the same info as when you set up your iLab account.

2) Once logged in, make your order, checkout as you normally would, and it will be charged to our Core account. The core will add the cost of your order to your service request in iLab and bill you at the end of the month.

3) We ask that you create a new service request in iLab EACH TIME YOU MAKE AN OLIGO ORDER.
