

10 Gel Bands

Ref #: EX00002
Date: Apr 8th 2013
DUE

To:

The next analysis is identical to the first, but for 10 gel bands instead of one. There is an economy of scale that is worth considering when starting a project. Many of the costs can be minimized by submitting a batch of samples at one time, rather than spreading out the analyses.

While digesting a single gel band cost nearly \$400, the price for 10 bands is closer to \$110 each.

Item	Description	Unit Cost	Quantity	Cost
SETUP	Project Setup	131.12	1	131.12
DIGEST	In-gel digestion	65.56	3	196.68
PREP	Instrument Prep	65.56	1	65.56
