1 For tax years 1991 & 1992, was considered an exceptional Type C hospital; since tax year 1993, is a type A or B hospital.

2 MDs, DOs, DPMs and CRNAs on the active medical staff or on contract are not eligible because hospital is located in a Metropolitan Statistical Area and is less than 30 miles from a major population center.

3 Eligible as of 1991 tax year.

4 Considered an exceptional Type C hospital for purposes of the tax credit effective with tax year 2001.

5 Located in a Metropolitan Statistical Area less than 30 miles from a major population center, but eligible for the tax credit effective with tax year 1999 because of CAH status.

6 Located in a Metropolitan Statistical Area less than 30 miles from a major population center, but eligible for the tax credit effective with tax year 2002 because of CAH status.

7 Formerly St. Elizabeth Medical Center

8 Formerly Holy Rosary Medical Center

9 Formerly Mountain View Hospital

In order for medical staff members of a Type C hospital to be eligible for the tax credit, the hospital must be designated by the Office of Rural Health as “exceptional,” according to ORS 316.146

To attain this designation, the hospital must make application and meet the following criteria:

1. Hospital must be geographically isolated;

2. Hospital must be in an area considered “medically underserved” by the Office of Rural Health; and

3. Hospital must be able to demonstrate a history of difficulty recruiting and retaining physicians.
