Request for Proposals Information Session

OHSU Knight Cancer Institute Community Partnership Program,
January 2024-1

PRESENTED BY: BLANCA CISNEROS, B.A.

Agenda

- Program Overview
- 2024-1 Request for Proposals
- Applicant Resources
- Key Dates

Program Mission

The mission of the Community Partnership Program is to work hand in hand with Oregon communities as allies in the Knight Cancer Institute's efforts to end cancer as we know it. We will:

Support

- Oregon communities in understanding and addressing their most pressing cancer-related needs and cancer health disparities.

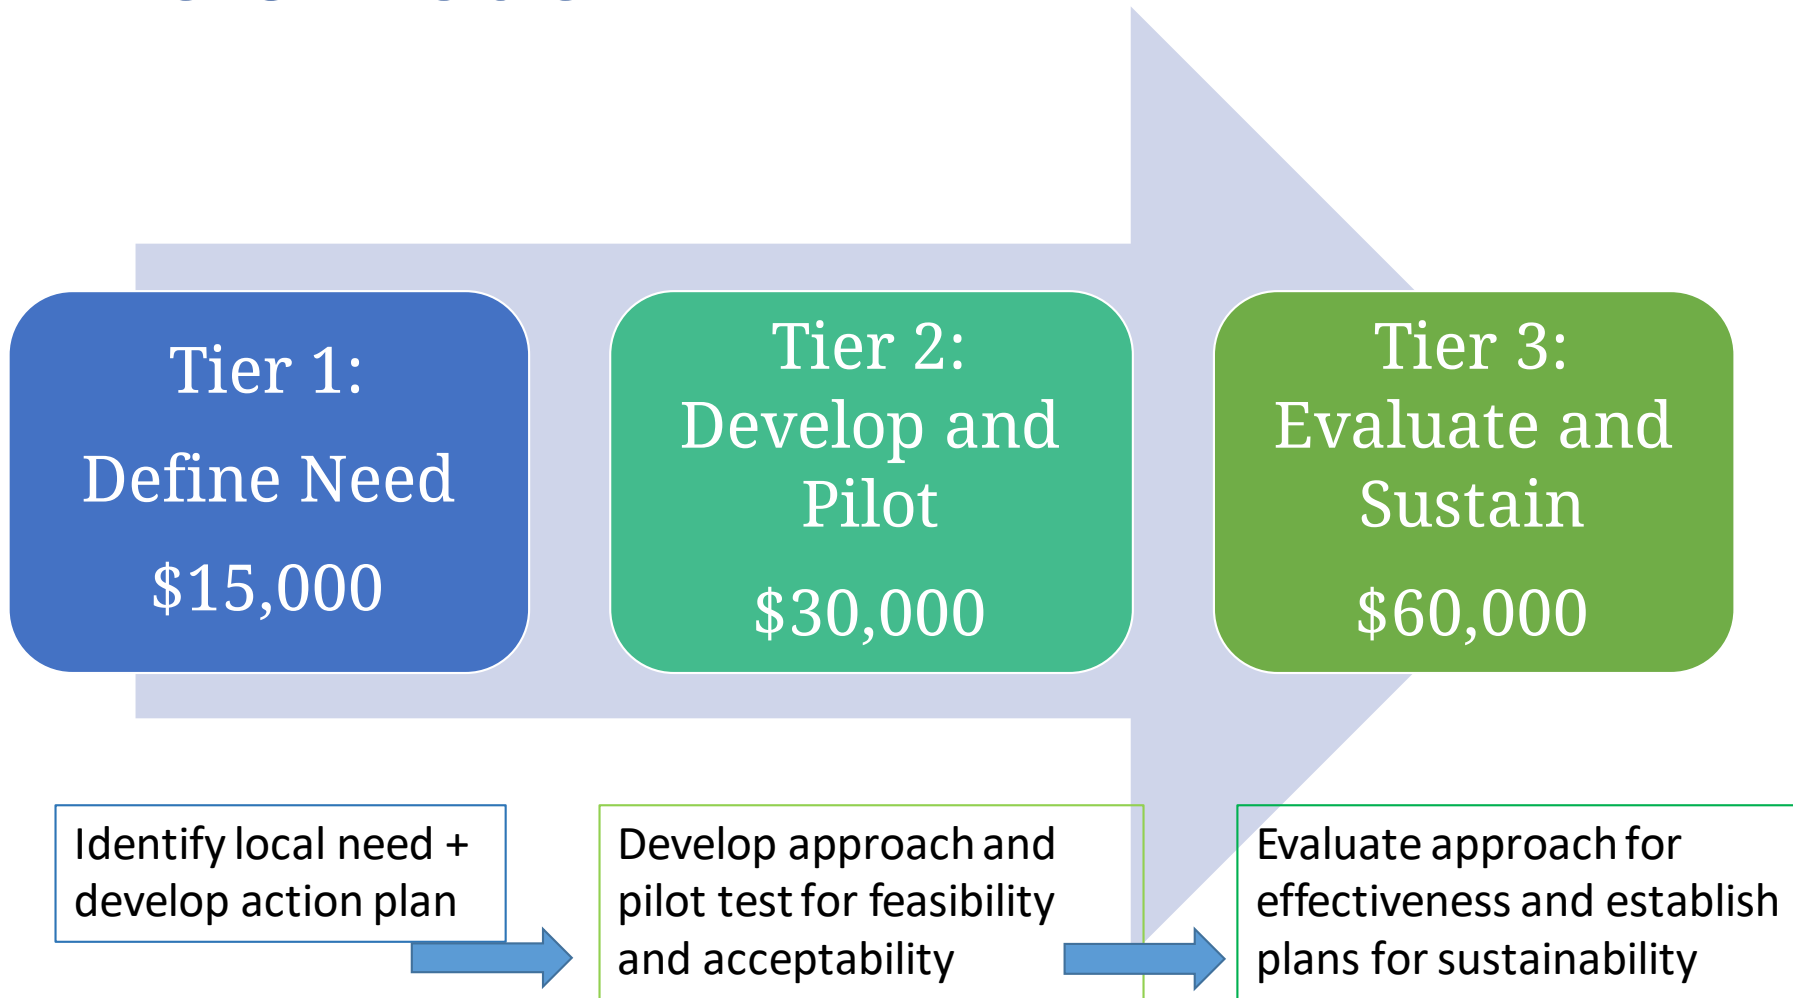

Enhance

- Collaboration between Oregon communities and OHSU to address cancer in Oregon.

Foster

- Skills and abilities of communities to enhance long-term sustainability.

Tiers Model

Project Scope

Grants are available for projects anywhere along the cancer continuum:

- Survivorship starts at point of diagnosis, therefore inclusive of support during treatment and/or end of life care

Program Impact

Funded projects have impacted all 36 Oregon counties

Map represents proposed impact by county

All funded grants:

205

Projects funded over 17 grant cycles

80%

40% of grants focus on cancer issues exclusively in rural Oregon, and an additional 40% address both rural and urban communities.

Reported by completed grants:

103,672

Number of Oregonians reached through CPP

660

Number of partnerships supported through CPP

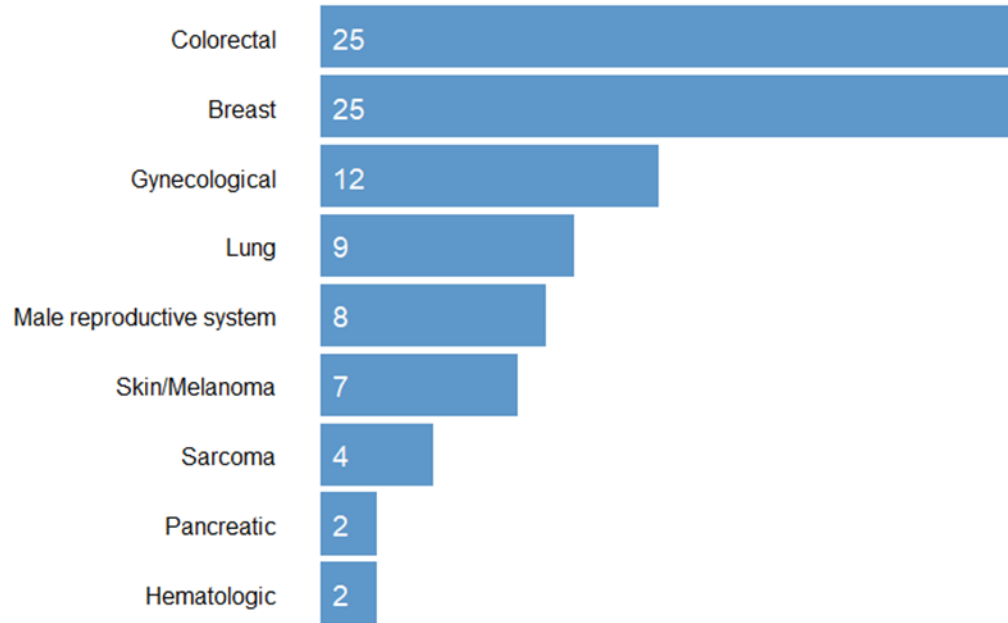

Continuum and Tier

Funded projects span the cancer continuum

Cancer Type

65 proposals focus on specific cancers

Cancer Topic

135 projects focus on one or more cancer-related topics

Race and/or Ethnicity

72 funded projects focus on a particular race and/or ethnicity

Request for Proposals

January 2024-1

Eligibility

- Individuals affiliated with community groups/organizations, schools, government bodies, health/medical clinics, health systems or businesses.
- An organization may receive a maximum of two Tier 2 or two Tier 3 grants for a single project/concept (i.e. three total in Tiers 2 and 3)
- Applicants from academic institutions/universities are required to partner with a local community-based organization.

Ineligible:

- OHSU employees, students, divisions, or departments
- Individuals not associated with a community organization
- Grantees (individuals) with two active grants
- Projects focused or organizations based outside of Oregon

Steps to Apply

1. Develop Project Idea

- Review RFP, FAQ, download the required templates, and utilize applicant resources.
- Contact us if you need assistance with tier selection, project scope, or other questions.

2. Submit an Intent to Apply

- Complete online form by **noon on Friday, Feb. 9, 2024**
- Non-binding
- Receive email with instructions for submitting full proposal by Friday, Feb. 16, 2024

3. Submit Online Proposal

- Complete online form by **noon on Friday, Mar. 8, 2024**
- Supporting documents

All:

- Budget and justification – *required, use template, two-page max.*
- Letters of support – *at least 1 required for Tiers 2 and 3; additional letters are optional but highly recommended.*
- Bibliography (APA style) – *optional*

Tier 1 only:

- Work plan and timeline – *required, use template for evaluation consultation*

Tier 2/3 only:

- Objectives and timeline – *required, use template for evaluation consultation*

Note: Additional supplemental documents are not accepted. If included, they will be removed for the review process.

Example Forms and Templates

Application question guides in RFP:

- Appendix 2: Intent to apply questions
- Appendix 3: Proposal questions
- Appendix 3A: Tier 1 narrative questions and review criteria
- Appendix 3B: Tiers 2 and 3 narrative questions and review criteria
 - *Follow max. word counts for each question*
 - *Answer all questions to ensure a competitive proposal*

Required templates (on website):

- Budget and justification – all
- Project objectives and evaluation timeline – Tiers 2, 3

Intent to apply and proposals are online submissions

Budget

- **Use budget and justification template**
- Only account for expenses required to complete the proposed project
- Do not exceed grant amount

Budget: Allowable

- **Personnel**
 - Includes both salary and fringe benefits (see exception in unallowable)
- **Indirect costs**
 - Facilities and administration and/or overhead
 - Not to exceed 10% of the total budget
- **Consultant fees**
- **Equipment**
 - Defined as any item that has a useful life of over one year
- **Materials and supplies**
- **Travel costs**
 - Excluding travel for CPP required activities (provided)
- **Clinical care costs**

Note: no more than 10% of total budget may be allocated to support an OHSU collaboration

Budget: Unallowable

Funds may not be used for the following purposes:

- Projects activities focused outside of Oregon
- Preparation, distribution, or use of materials to directly support or defeat proposed legislation
- Debt reduction
- Equipment items above \$3,000
 - Justification must be provided
- Applications from academic institutions – funds may not be used to support faculty salary (staff support is allowed)

We highly encourage proposals that:

- We encourage organizations to apply that are led by and/or committed to serving communities facing cancer health disparities
- Aim to address cancer-related health disparities:
 - race
 - ethnicity
 - socioeconomic status
 - gender identity
 - sexual orientation
 - geographic location
 - disability

Cancer-relatedness

- Project's connection to cancer should be clear
- Reviewers look for proposed impact on cancer-related need
 - Changes in cancer-related knowledge, risks, behaviors, etc.
 - Incorporate evidence from other programs/studies (e.g. studies showing relationship between physical activity and lower risks of certain cancers)
- If proposing a prevention project, measures should include short or long term outcomes related to cancer
 - E.g. change in knowledge around connection between nutrition and cancer prevention
- If proposing a screening project, describe options for supporting individuals who screen positive with resources for appropriate follow-up care

Cancer-relatedness: Example

- **Asian Health & Service Center: Asian Diet & Cancer Project**
- **Target population:** Cantonese speaking cancer patients, survivors, caregivers: residents of Tri-county area.
- **Activities:** Conduct 3 cancer-related cooking demonstrations and education events for 10-12 participants.
- **Measures:** Develop and distribute survey to measure knowledge of nutrition and cancer. Record program activity and services outside of ADC utilized by attendees. Host 1 focus group in Cantonese and collect survey for feedback.
- **Connection to cancer:**
 - Deliver nutrition cancer education
 - Surveys included knowledge-based questions about connection between nutrition and cancer

Asian Diet & Cancer Project 2022
Cancer Support Nutrition and Cooking Classes

Review Process

Review criteria categories:

- Significance and impact
- Approach
- Organization and team

Tier 1:

- Administrative review by CPP administrative staff and Steering Committee
- Additional considerations:
 - Does proposal address a unique need or target an underserved community?

Tiers 2 and 3:

- Reviewed by review committee including cancer-related content experts or representatives of community organizations and/or OHSU

Applicant Resources

How to Apply for a Community Grant

Applications are open

Application instructions are outlined below. Please [contact us](#) with questions at any time.

1. Develop your project idea:

- [Review the 2024-1 Request For Proposals](#) and the [frequently asked questions](#).
- [Register for the Request for Proposals information session](#), which will be held at 9 a.m. on Wednesday, January 24, 2024.
- [Watch the Developing and Evaluating a Community Project webinar](#) (18 minutes. Password: KnightCPP1) and [download the slides](#) for notes.

2. Submit an intent to apply form by noon on Friday, February 9, 2024. *Note: Submitted information is not binding and may be updated at the full proposal stage.*

- All tiers: [Download the required budget template, v. Jan 2021](#)
- Tier 1: [Download the optional Tier 1 Work plan and timeline template](#) (required for evaluation consultations)
- Tiers 2 and 3: [Download the required Objectives and timeline template](#) (required for evaluation consultations and at full proposal stage)
- Applicants will receive emailed instructions by Feb. 16 for submitting the full proposal. Note: Program emails will come from knightcancercro@ohsu.edu, no-reply@email.zenginehq.com and no-reply@webportalapp.com. Please add these email addresses to your safe senders list. If you do not receive the instructional email, check your spam folder then contact us.
- [Download the 2024-1 proposal questions in a Word document](#) to help you prepare answers before the online portal becomes available.

Tip: Hover on a county to see its rate (and 95% C.I.).

Incidence Rates[†] for Oregon by County Colon & Rectum, 2016 - 2020 All Races (includes Hispanic), Both Sexes, Ages 50+

Notes:

[State Cancer Registries](#) may provide more current or more local data.

Data presented on the State Cancer Profiles Web Site may differ from statistics reported by the State Cancer Registries ([for more information](#)).

[†] Incidence rates (cases per 100,000 population per year) are age-adjusted to the [2000 US standard population](#) (19 age groups: <1, 1-4, 5-9, ... , 80-84, 85+). Rates are for invasive cancer only (except for bladder which is invasive and in situ) or unless otherwise specified. Rates calculated using SEER*Stat. Population counts for denominators are based on Census populations as modified by NCI.

The [US Population Data](#) File is used for SEER and NPCR incidence rates.

Rates are computed using cancers classified as malignant based on ICD-O-3. For more information see [malignant.html](#)

* Data have been [suppressed](#) to ensure confidentiality and stability of rate estimates. Data is currently being suppressed if there are fewer than 16 counts for the time period.

Data for the United States does not include data from Puerto Rico.

Tier 2/3: What is Evidence-based?

Some evidence is stronger than others and more evidence is stronger than a single study/project.

- **Degree of scientific evidence** – published randomized controlled trials (high) to testimonials/anecdotal information (low)
- **Amount of evidence** – many studies showing consistently positive results (high) to a single study with insufficient findings (low)
- **Degree of match to target community** – evidence from studies in same/similar population as target population, i.e., urban kids to rural kids (high) to evidence from a study in a different population, i.e., urban adults to rural kids (low)

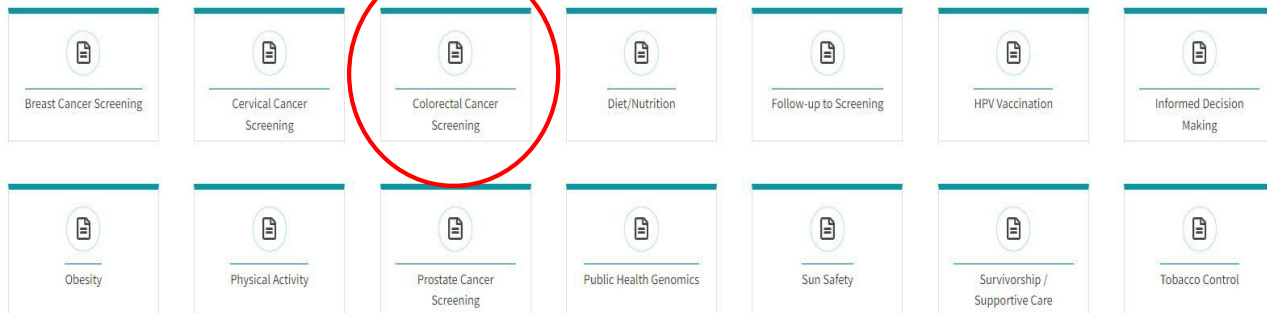

Evidence-Based Cancer Control Programs (EBCCP)

Transforming Research into Community and Clinical Practice

The EBCCP (formerly RTIPs) website is a searchable database of evidence-based cancer control programs and is designed to provide program planners and public health practitioners easy and immediate access to program materials.

Review the intervention

Against Colorectal Cancer in Our Neighborhoods (ACCION)

PROGRAM SYNOPSIS

Designed to increase colorectal cancer screening among uninsured Hispanic adults, this community-based intervention delivered by promotoras consists of an educational program with a presentation and/or video, access to no-cost screening, and navigation services. The study showed increased colorectal cancer screening rates.

PROGRAM HIGHLIGHTS

Purpose: Designed to promote colorectal cancer (CRC) screening among uninsured Hispanic adults. (2016)

Age: 40-65 years (Adults), 65+ years (Older Adults)

Sex: Female, Male

Race/Ethnicity: Hispanic or Latino

Program Focus: Awareness building and Behavior Modification

Population Focus: Medically Underserved

Program Area: Colorectal Cancer Screening

Delivery Location: Clinical, Other Settings, Religious establishments, Workplace

Community Type: Rural, Urban/Inner City
