2009 ACADEMIC FACT BOOK

March 2010

This publication was prepared by OHSU's Office of Academic and Student Affairs using a variety of data sources maintained by other offices in the University. An electronic version of this document can be found at: www.ohsu.edu/factbook/

The purpose of this document is to provide data about academic programs, students, faculty and staff, and other basic information in a user-friendly format for the OHSU community.

Information requests should be directed to:

Nancy P. Goldschmidt, PhD
Associate Vice Provost
Office of Academic and Student Affairs

Acknowledgements

Our goal is to make information about Oregon Health & Science University available to students, faculty, staff, and citizens of Oregon, and to do so in an easy-to-use format. This first edition of the Academic Fact Book contains a wide variety of data on OHSU's students, faculty and staff, budget and finances, research productivity and development activities. The data source, date and explanatory notes are provided for each table.

The production of this Academic Fact Book would not be possible without the support and contributions of persons and units across the university community. We are grateful to Robert Vieira, E.D., Interim Vice Provost, who was a champion of the idea from the project's beginning. The Assessment Council was gracious in its review of multiple drafts and generous with their recommendations.

As the proverb goes, "Many hands make light work." This Academic Fact Book is the result of people working together "to move the furniture." The production would not be possible without the contributions of Danielle Aanenson, Jennifer Anderson, Gina Aquipel, Phyllis Beemsterboer, David Brennan, Fiona Brinkley, Dana Director, Darin Fabrick, Patrick Frengle, Allison Fryer, Leslie Garcia, Donald Gerard, Tana Grady-Weliky, George Hamilton, Angela Austin Haney, Cherie Honnell, Mariann Hyland, Lisa Kendig, Harry Lenhart, Van Mai, Mark Mitchell, Adrienne Ochs, Susan Olson, Jayne Pelling, Tanya Ostrogorsky, Ted Ruback, Cate Soulages, Linda Strahm, Malia Wallace, and Robert Woods. We are also grateful for the model provided by the OUS Fact Book and wisdom shared by Bob Kieran, Jonathan Jacobs, and Anji Duchi as we nudged along in the process.

OREGON
HEALTH
& SCIENCE
UNIVERSITY

OHSU Organization

OHSU Mission

Oregon Health & Science University is the state's only comprehensive public academic health center. Its fundamental purpose is to improve the health and well-being of people in Oregon and beyond. A ten-member Board of Directors nominated by the Governor and confirmed by the Oregon Senate governs the university.

As part of its multifaceted mission, OHSU strives for excellence in education, research and scholarship, clinical practice and community service. Through its dynamic interdisciplinary environment, OHSU stimulates the spirit of inquiry, initiative, and cooperation among students, faculty and staff.

Setting the example for integrity, compassion and leadership, OHSU strives to:

- Educate tomorrow's health professionals, scientists, engineers and managers in top-tier programs that prepare them for a lifetime of learning, leadership and contribution.
- Explore new basic, clinical and applied research frontiers in health and biomedical sciences, environmental and biomedical engineering and information sciences and translate these discoveries, wherever possible, into applications in the health and commercial sectors.
- Deliver excellence in healthcare, emphasizing the creation and implementation of new knowledge and cutting-edge technologies.
- Lead and advocate for programs that improve health for all Oregonians, and extend OHSU's education, research and health care missions through community service, partnerships and outreach.

OHSU Goals

OHSU will partner to make Oregon a national leader in health and science innovation for the purpose of improving the health and well-being of all Oregonians. OHSU Vision 2020 identifies six strategic goals.

- Be a great organization, diverse in people and ideas.
- Develop and retain a faculty that will collaborate to drive excellence and innovation across OHSU.
- Join others in developing policy and care delivery solutions that improve access to high-quality healthcare for all, especially Oregonians.
- Help meet Oregon's workforce needs in the health and science professions through innovative strategies such as regionalization, academic partnerships, distance learning and interdisciplinary approaches.
- Align OHSU enterprises to support sustainable innovation.
- Build financial wherewithal for the long-term advancement of all our missions.

Statutory Mission

The Legislative Assembly declares that the mission of all higher education in Oregon is to:

1. Enable students to extend prior educational experiences in order to reach their full potential as participating and contributing citizens by helping them develop scientific, professional, and technological expertise, together with heightened intellectual, cultural and humane sensitivities and a sense of purpose.

2. Create, collect, evaluate, store and pass on the body of knowledge necessary to educate future generations.
3. Provide appropriate instructional, research and public service programs to enrich the cultural life of Oregon and to support and maintain a health state economy.

ORS 351.009 [1993 c. 240§]

Oregon Health and Science University is established as a public corporation and shall exercise and carry out all powers, rights and privileges that are expressly conferred upon it, are implied by law or are incident to such powers. The university shall be a governmental entity performing government functions and exercising governmental powers. The university shall be an independent corporation with statewide purposes and missions and without territorial boundaries. The university shall be a governmental entity but shall not be considered a unit of local or municipal government or state agency for purposes of state statutes or constitutional provisions.

ORS 353.020 [1995 c. 162 §2; 1999 c.291 §2; 2001 c. 123 §]

Note: *Projected, until final 09-10 counts are made. "Applicant" is an individual who has fulfilled the institution's requirements to be considered for admission and who has been notified of one of the following actions: admission, nonadmission, placement on waiting list, or application withdrawn by applicant or institution. "Admitted" is used for applicants that have been granted an official offer to enroll in an OHSU program. "Enrolled" applies to those admitted applicants that choose to enroll or matriculate into an OHSU program. IPEDS Glossary October 29, 2009

New Student Qualifications Fall 2000 through Fall 2009

Dental Students

Average undergraduate GPA of DMD students enrolling for the first time

	2000	2001	2002	2003	2004	2005	2006	2007	2008	2009
GPA	3.5	3.6	3.6	3.6	3.6	3.6	3.6	3.7	3.6	

Note: "GPA" refers to undergraduate grade point average for all classes.

Average DAT scores of matriculates compared to the national average

	2000	2001	2002	2003	2004	2005	2006	2007	2008	2009
Actual	19.9	19.3	19.5	19.3	19.4	19.2	19.6	19.6	18.6	
National Average	17.6	17.6	17.2	17.3	17.3	17.4	17.9	17.1	17.5	
% Difference	+2.3	+1.7	+2.3	+2.0	+2.1	+1.8	+1.7	+2.5	+1.1	

Note: "DAT" is the Dental Admission Test required of all applicants to US dental schools.

Source: Annual SOD reports on entering cohorts.

Medical Students

Average undergraduate GPA of MD students enrolling for the first time

	2000	2001	2002	2003	2004	2005	2006	2007	2008	2009
GPA	3.6	3.6	3.7	3.7	3.6	3.7	3.6	3.6	3.6	

Note: "GPA" refers to undergraduate grade point average for all classes.

Average MCAT scores of matriculates compared to the national average

	2000	2001	2002	2003	2004	2005	2006	2007	2008	2009
Actual	30.0	29.9	30.4	30.7	31.0	30.9	30.9	30.7	30.7	
National Average	29.7	29.6	29.7	29.6	29.9	30.2	30.4	30.8	30.9	
% Difference	+0.3	+0.3	+0.7	+1.1	+1.1	+0.7	+0.5	-0.1	-0.2	

Note: "MCAT" is the Medical College Admission Test required of all applicants to US medical schools.

Source: Annual SOM reports on entering cohorts.

Undergraduate Nursing Students

Average GPA of undergraduate nursing students enrolling for the first time

	2000	2001	2002	2003	2004	2005	2006	2007	2008	2009
GPA	3.6	3.6	3.7	3.7	3.6	3.6	3.6	3.8	3.7	

Note: "GPA" refers to undergraduate grade point average for all classes.

Notes: Data represent degrees and certificates awarded in the Summer through Spring of each academic year. These totals may differ from data included in IPEDS reporting, as IPEDS requires pre-determined academic years (July 1 through June 30) which does not correspond to the academic year based on program needs. Includes Joint Degrees awarded with Oregon Institute of Technology and Oregon State University. OGI School of Science & Engineering merged with the School of Medicine in 2008, and engineering degrees awarded have been included in the School of Medicine count beginning in 2008-09.

Undergraduate Degrees Awarded by Discipline 2000-01 Compared to 2008-09

Discipline	2000-01		2008-09		Change	
	#	%	#	%	#	%
Nursing	200	67.3%	211	79.0%	11	5.5%
Physician Assistant (BS)	19	6.4%	-	-	-19	-
Radiation Therapy	5	1.7%	10	3.7%	5	100.0%
Advanced Paramedic	25	8.4%	22	8.2%	-3	-12.0%
Clinical Laboratory Science	18	6.1%	24	9.0%	6	33.3%
Dental Hygiene	30	10.1%	-	-	-30	-
Total	297	100.0%	267	100.0%	-30	-10.1%

Notes: In 2002, OHSU implemented strategy to focus on graduate and professional degrees. This resulted in several changes in program offerings and degrees awarded including the elimination of Dental Hygiene, the transfer of two programs to Oregon Institute of Technology (Clinical Laboratory Science and Emergency Medical Technology) and the redesign of the Physician Assistant program as a master's degree program in 2002. The Clinical Laboratory Science and Advanced Paramedic are awarded jointly by OIT and OHSU.

Note: ¹Prior to 2006/07, the baccalaureate nursing program was a 2-year upper division program, beginning in Summer term. A new curriculum was implemented in 2006/07, with nursing courses offered over a 3-year timeframe, beginning each year in Fall term. The lower total first-year tuition in 2006/07 for the 3-year curriculum reflects a smaller number of credits in that curriculum's first year in comparison to the 2-year curriculum's first year. The tuition rate per credit was the same for both curricula in 2006/07. ²The tuition amounts shown here are based on a one-year full-time program of study (33 credits) for students entering the program from a partner OCNE institution. Registered nurses educated at a non-OCNE institution who come to OHSU to complete a BS in the nursing major are required to complete 12 additional credits at a cost of \$5,016 (in addition to the tuition amount shown in the table). ³The tuition amounts shown here are based on the number of credits in the first year of the FNP specialty in the masters degree curriculum. The full-time curriculum consists of 6 terms, beginning in Fall and ending in Spring. Other advanced practice specialties in the masters program have slightly different numbers of credits in the first year, e.g., 33 credits in the PMHNP specialty, 40 credits in the Nurse Midwifery specialty. ⁴The tuition amounts shown here for the PhD program are based on 9 credits per term for 3 terms.

2008-09	156	\$1,847	\$288,062

Note: Enrollment based on fall term of the academic year in baccalaureate programs all locations. The Oregon Opportunity Grant is a state-funded, need-based grant available to undergraduates that attend an eligible Oregon postsecondary institution and meet the income eligibility requirements. OHSU's undergraduate nursing and radiation technology programs are eligible programs. Includes all OHSU nursing students who are receiving grant by virtue of meeting income eligibility, regardless of location. Beginning in 2007-08, the OOG expanded eligibility and moved from a flat to a variable grant. Data represent average awarded amounts, not actual dollar disbursements.

Investments Under Foundation Management

OHSU Foundation - Private Fundraising Campaigns

Fiscal Year 2000 through Fiscal Year 2012

2009-2012 (Current): Faculty Support Initiative

In July of 2009 OHSU launched a targeted three-year fundraising initiative to support exceptional faculty. The \$100 million initiative was designed around a university-wide needs assessment. OHSU's executive leadership team selected 13 areas of priority, which fall into three broad categories:

Retention and Recruitment (\$50-\$60 million)

Support in this category will help secure endowed positions, recruitment packages, student stipends and special equipment required to attract and retain outstanding faculty.

Priorities:

- Support for School of Medicine Faculty
- Support for School of Nursing Faculty
- Support for School of Dentistry Faculty
- Support for Graduate Research Partners
- Medical Research Foundation Endowment

Enhanced Core Facilities (\$5-\$15 million)

Support in this category will help expand and unify key technology resources that promote collaboration across professions and disciplines.

Priorities:

- Imaging Core
- Core Simulation Services
- OHSU Genomics Shared Resource

Multidisciplinary Collaborations (\$20-\$25 million)

Support in this category will expand and enhance key multidisciplinary collaborative ventures that OHSU is uniquely able to pursue.

Priorities:

- Basic and Clinical Aging Research
- Cancer Research and Outreach
- Community-based Health Improvement
- Stroke Research and Treatment
- Translational Diabetes and Metabolism Research

The Faculty Support Initiative is not a comprehensive campaign. It is a targeted effort around faculty support. Private gifts supporting other areas of OHSU endeavor are both accepted and encouraged.

2000-2006: Oregon Opportunity

The Oregon Opportunity campaign, OHSU's first comprehensive private fundraising campaign, was launched in 2000 to match a public investment of \$200 million from the state of Oregon. The campaign ended in July 2006.

Total private fundraising goal:	\$300 million
Total private support committed:	\$377.7 million* (26% above goal)
Total # donors:	77,939
Average outright campaign gift:	\$1,883
Median outright campaign gift:	\$50

**excludes value of \$33.9 million one-time gift of land donated in FY04*

Note: *Tracked separately starting in 2008. Two allied health programs--Clinical Laboratory Science and Advanced Paramedic Education --transferred enrollment to the Oregon Institute of Technology, but degrees are awarded jointly by OIT and OHSU. Enrollment in programs within the OGI School of Science & Engineering are counted in the School of Medicine. Physician Assistant program began as a bachelors degree program, but was redesigned as a masters degree program in 2000. [†]Unknown due to lack of access to OGI records during this period.

Note: Percentages adjusted to exclude undeclared and international students. "URM" includes students declaring themselves American Indian, Black, Hawaiian/Pacific Islander, Hispanic, and Two or More Races; Prior changes made in Fall 2009, Hawaiian/ Pacific Islander students were classified as Asian, and are thus not included in the URM student counts for years prior. School of Medicine data includes students enrolled in the School of Science and Engineering (formerly OGI/West Campus). All numbers calculated excluding foreign and unknown students. *Program ended in 2002; ‡Data for 1999-2000 are for students enrolled in Bachelor's level PA studies; in 2001, enrollment represents both Bachelor and Master's level PA students; beginning in 2002, all PA students are at the Master's level.

Glossary

A

Academic health center

Provides the classification of OHSU as an accredited, degree-granting institution of higher education that educates a wide variety of health care professionals, offers comprehensive basic and advanced patient care, and conducts a broad spectrum of biomedical and health services research. AHCs must include: an allopathic or osteopathic school of medicine; at least one other health professions school or program (such as allied health, dentistry, graduate studies, nursing, pharmacy, public health, and veterinary medicine); and, one or more owned or affiliated teaching hospitals, health systems or other organized health care services.

Academic year

The year beginning with summer term and ending with spring term. For example, academic year 2008-09 begins with summer term 2008 and ends with spring term 2009.

Adjunct faculty

Generally staff members within the University or professionals in the local community whose areas of expertise are insufficiently represented on the faculty; they ordinarily hold the terminal degree in the field. Adjunct faculty appointments add the experience of professionals to enhance academic instruction.

Admitted student

Student admitted to a degree or certificate program who has committed to enroll. The School of Nursing refers to this as an “offer”.

Applied/application

Student applied for admission into an OHSU program of study.

C

Certificate

A formal award, distinct from a degree, certifying the satisfactory completion of an instructional program or course of study. OHSU awards post-baccalaureate certificates, post-master’s certificates, first professional certificates, and post-doctoral certificates

Completer

Student who completed a course of study and received a degree or certificate from OHSU.

Consumer Price Index (CPI)

The Consumer Price Index (CPI) is a measure of the average change over time in the prices paid by urban consumers for a market basket of consumer goods and services. The CPI and its components are used to adjust other economic series for price changes and to translate these series into inflation-free dollars. Examples of financial series adjusted by the CPI in the OHSU Fact Book include Sponsored Research Awards, Student Tuition and State Appropriations. The Portland Consumer Price Index is used to adjust financial data. Effective in 1998, the geographic area covered by the Portland-Vancouver CPI was expanded to include the Salem Metropolitan Statistical Area (MSA).

D

DAT score

Average score of admitted students in a given year on the admission test for dental school, the Dental Admission Test administered by the American Dental Association (ADA).

Degree

One of the status levels conferred by universities as the result of successfully completing a program of study. OHSU has three undergraduate programs: Nursing, Radiation Therapy and Clinical Laboratory Science (a joint degree with Oregon Institute of Technology). The degree for all of these programs is a Bachelor of Science (BS). OHSU also awards several one- to three -year master's degree programs that lead either to a Master of Science (MS) or a Master in several specific disciplines. In addition, OHSU awards several doctoral professional practice degrees including the MD, DMD, PhD, DNP and PharmD (a joint degree with Oregon State University). Each program requires an appropriate culminating project depending on the focus of the program of study as research-oriented or professional practice. The research doctoral degree (the PhD) requires a comprehensive examination in one or more fields, an original research project, perhaps some teaching experience, and then the writing of a dissertation.

Discipline (CIP)

The academic discipline or program as reflected in the Classification of Instructional Programs published by the National Center for Educational Statistics, for which a "CIP" code is defined.

E

Education and General Funds

The portion of the OHSU budget that is devoted to instructional and support services for students and faculty, including managerial and administrative functions needed to provide the services.

Educational source

The college or university last attended prior to entering OHSU.

Ethnic or Racial group

Students

Ethnic or racial category with which a person most identifies. The ethnic or racial group categories reported for OHSU students are defined by the United States Census Bureau and the Federal Office of Management and Budget (OMB). Those racial categories reported for students are listed on the federal IPEDS reports (effective Fall 2009) as: American Indian/ Alaska Native; Asian; Black/African American; Native Hawaiian or Other Pacific Islander ; Two or more races; and White (including people of European and Middle Eastern origins). In addition, student ethnicity is categorized as either Hispanic/Latino or Not Hispanic/Latino. Students who decline to respond are listed in the “unknown” category. These ethnic and racial categories do not include foreign students, who are reported separately under “international” or “nonresident alien.”

Employees

The ethnic or racial group categories reported for OHSU employees are defined by the United States Department of Education, Census Bureau and the Federal Office of Management and Budget (OMB): The Equal Employment Opportunity Commission of the US Department of Labor (EEO) requires employers to report various information about their employees, in particular, their racial/ethnic categories to prevent discrimination based on race/ethnicity. The 2009 racial categories include: American Indian/ Alaska Native; Asian; Black or African American; Native Hawaiian or Other Pacific Islander; Two or more; and White. The 2009 ethnic categories are Hispanic/Latino or Not Hispanic/Latino. These racial and ethnic categories are self-identification data items in which employees choose the category with which they most closely identify. These categories include employees who are not citizens of the United States, but have permanent residency status or a temporary work permit or visa.

Enrollment

The Oregon Health & Science University (OHSU), like all other higher education institutions, uses several different definitions in counting enrollment. The various definitions serve different purposes: budget preparation, workload evaluation, federal reporting, single-point snapshots, and description of OHSU’s provision of educational services.

Headcount enrollment

Headcount enrollment represents the number of individual students enrolled in credit courses, regardless of course load. However, the majority of OHSU’s students tend to be enrolled full-time and working towards a degree or certificate. Only a small proportion of students are enrolled part-time in a degree program or in non-degree programs designed for working professionals.

Historical enrollment has generally been expressed in terms of fall headcount. National comparisons of enrollment are most often made on the basis of fall headcount.

In 2002 through 2004, OHSU eliminated several programs offered at the undergraduate level to focus its mission on graduate and professional academic programs. In 2002, OHSU eliminated the Dental Hygiene undergraduate program and in 2003-04 transferred two undergraduate programs in Clinical Laboratory Science and Paramedic Education to become joint degree programs with the Oregon Institute of

Technology (OIT). OHSU does not include enrollment in these programs, but does count the undergraduate degrees awarded jointly by OIT and OHSU.

Student Full-time Equivalent (FTE)

The student full-time equivalent (FTE) translates credit into enrollment, showing how many students it would take to produce the total credit-bearing activity of OHSU if each student took exactly a fulltime load. Calculation of the student full-time equivalent varies depending on the level and program of the student. At OHSU, undergraduate FTE is calculated as follows: total term credit hours divided by 15. Graduate (masters level) FTE is calculated as follows: total term credit hours divided by 12. PhD FTE is calculated as follows: total term credit hours divided by 9. The OHSU FTE for professional students is the actual professional student headcount.

F

Faculty

Appointment to the University faculty is comprised of a title that includes a series, rank and modifier.

Series reflects the primary assignment, focus and expectations of the faculty member and unit: professor, research professor, clinical professor, affiliate professor, scientist, staff scientist, and research assistant scientist.

Rank conferred on faculty in the academic, research, clinical and affiliate professor series includes Lecturer, Instructor, Senior Instructor, Assistant Professor, Associate Professor, and Professor (for most junior to senior ranks).

Faculty rank modifiers Include the prefix “adjunct” or “visiting,” the suffix “provisional or “emeritus.” “Adjunct” designates a faculty with less than 0.5 FTE or a temporary appointment. “Visiting” designates a temporary appointment to the faculty, usually a faculty at another university for a designated time period. “Provisional” reflects a new faculty appointment with senior rank (professor or associate professor) pending approval by the school’s Promotion and Tenure Committee. “Emeritus Professor” is an honorary title for a retired faculty member recognizing distinguished past service to OHSU. “Affiliate Professor” designates volunteer or community faculty who are not compensated by OHSU. OHSU faculty data on gender, race/ethnicity and tenure exclude Affiliate Faculty and Emeritus Faculty.

Fee category

Enrollment category reflecting the type of fee assessed (e.g., resident, nonresident).

G

Grade point average (GPA)

Average grade based on a pre-defined scale (for example 0 to 4 points, where A=4, B=3, C=2, D=1, F=0). The undergraduate GPA is one factor used in student application and admissions processes. The

undergraduate GPA may be reported as an overall GPA or a GPA for science courses, depending on program requirements.

Graduation rate

Reflects the percentage of an entering cohort of students who complete a degree within a specified length of time. The common national practice used for baccalaureate completion is to report the percentage of the entering freshmen who complete a bachelor's degree within six years, or 150% of the published time.

All nursing students transfer from another four-year university or community college into OHSU's baccalaureate-level program. Therefore, the pathways affect what is considered to be 150% of the published time. For OHSU medical and dental students, the published time is 4 years and 150% of the published time is 6 years.

I

IPEDS

Integrated Postsecondary Education Data System, part of a series of reports collected annually by the National Center for Educational Statistics (NCES). IPEDS collects data on postsecondary education in the United States in seven areas: institutional characteristics, institutional prices, enrollment, student financial aid, degrees and certificates conferred, student persistence and success, and institutional human and fiscal resources.

N

Nonresident

The fee status category of students who are assessed nonresident tuition.

Nonresident alien

A student who is neither a U.S. citizen nor a resident alien (i.e., permanent resident) and holds a student visa. International student is often used interchangeably.

R

Resident

The fee status category of students who are assessed resident tuition.

S

Sponsored research dollars

Includes sponsored research, teaching/training grants, library grants and similar support.

T

Tuition

The mandatory charge for instruction assessed students for enrolling in OHSU. Factors taken into account in setting tuition include program cost, enrollment, market and residency status. In addition to tuition, various fees are assessed to all students (i.e. health service fee) but others are program specific (i.e. hospital pagers).
