

The Case for Gender-Affirming Health Care

PRESENTED BY

Christina E. Milano, M.D.
and Jens U. Berli, M.D.

Transgender people face infinite choices and challenges as they transition to their affirmed gender identity. Access to gender-affirming health care, medications and surgeries can be critical to their wellbeing. Learn how research is informing our understanding of gender identity from

two OHSU Transgender Health Program physicians. Drs. Milano and Berli share hurdles, available services and why living authentically is foundational to good health.

A public service honoring the memory of Elizabeth N. Gray, founder of the Marquam Hill Steering Committee
