THANK YOU FOR YOUR RESPONSIVENESS!

Thank you to all sites for your quick responses to the BOOST III and ICECAP survey requests; and your prompt attention to the Chest Pain LOS. We are excited to report that ALL sites in our network plan on participating in the Chest Pain trial! And a special kudos to OSU and Wake who also gathered LOS from their own spoke sites – great work!

Pardon our dust: OHSU is currently undergoing a website platform change which is currently preventing us from updating our SIREN network site. We will let you know when we have resolved our technical difficulties!
