

Oncofertility Saturday Academy

Fertility Specialist – Advice to Cancer Patients Assignment

Please prepare a **one-page (approximately) TYPED** report.

Use Spellcheck and refer to your class notes for words Spellcheck may not recognize.

1. **Answer the question** at the bottom of your patient page.
2. Tell me **why** you chose your answer.
3. Briefly describe the **advantages and disadvantages** of your choices.
4. Indicate whether fertility preservation was important to your patient and why.
5. **Staple a copy of your patient profile to the back of your report.**

In considering your answer, pay attention to the following:

Gender

Age

Type of and/or location of cancer

Pre- or post-treatment

Cancer treatment received or no treatment given yet

Please contact me if you have any questions or get stuck on something. I can arrange a phone call to talk to you or answer in an email. zelinski@ohsu.edu
