

Reducing resident falls with utilization of sensory stimulation activities

PROJECT PLAN OVERVIEW:

After educating staff and residents to the evidence behind sensory stimulating activities and the impact on fall occurrence:

- Daily monitoring of resident participation and attendance in
 - Exercise program
 - Sensory stimulation activities
- After one month:
 - Assess attendance records and add them to a LiveWell Trend Chart
 - Compare falls for the month using the LiveWell tools
 - Fall Clock
 - Fall Care Calendar
 - Fall Trend Chart
 - Assess data for correlations or signs of improvement
- Re-evaluate in six months.
