

School of Medicine - Graduate Studies Program
Request for PhD Dissertation
Advisory Committee

Dissertation Advisory Committees are appointed by Graduate Program Directors to guide and advise student research and dissertation preparation. The committee must be appointed within six months after Advancement to Candidacy or upon commencement of dissertation research, whichever is earlier. Program Directors may include members that are not graduate faculty, or are outside the university; but these must be accompanied by a letter to the Associate Dean with a rationale for this choice and a short NIH-style biosketch for the proposed member(s). The Program Director should forward the completed form to SOMgrad@ohsu.edu for approval by the **Associate Dean for Graduate Studies**. **Detailed Instructions can be found here:** <http://www.ohsu.edu/xd/education/schools/school-of-medicine/academic-programs/graduate-studies/admin-resources.cfm>

Student _____ Student ID **U**

The Program in _____ ORCID _____

requests approval of the following faculty members to serve as the PhD Dissertation Advisory Committee for the above named student with the proposed dissertation project title:
