Inspection
Type: ROUTINE INSPECTION
Date: AUG-17-2006

**3.80 (b) (2) (iii) REPEAT NCI
PRIMARY ENCLOSURES.**

"(iii) In the case of research facilities, any exemption from these standards must be required by a research proposal or in the judgment of the attending veterinarian and must be approved by the Committee."

Five group 4 sized animals were housed in group 3 sized cages in order to maintain compatible pairs, not out of scientific necessity.

A sufficient number of appropriately-sized cages were located during the course of inspection, and the animals will be placed in the larger cages by the end of the day, 8-18-2006.

This report was conducted on August 17, 2006.

One item identified:
The USDA requested that OHSU move two animals living in paired housing to cages one size larger. The move was made the same day.
