Historical Image Collection

(up-dated to July 5, 2017)

OHSU Historical Image Collection

The historical images are divided into three main categories: people, places, and subjects. If an individual category has only slides or negatives, there will be a note to that effect under the general photograph listing. Please see the separate lists for all the negatives, slides, and albums.

See also the Vertical Files and the Portraits card index (located in the card catalog drawers, east wall, Room 440) for more images.

Please note that the Schools of Nursing and Dentistry also have their own historical photograph collections.
