DETAILS
♦ Registration is not required to attend; CME is not available.
♦ Coffee and tea will be served.

OUR SPEAKER

Dr. Siegel received his M.D. from Dartmouth Medical School and completed his Surgery Residency at Strong Memorial Hospital at the University of Rochester. Early in his career as a General Surgeon, Tim developed an interest and expertise in Palliative Care, helping patients and their families with complicated medical decision making, treating challenging symptoms and offering support during illness. He now limits his surgical practice and mainly provides care on the Inpatient Palliative Care Service. He focuses on establishing relationships with patients and their families during what can be a confusing, stressful and isolating time.

PLEASE NOTE
This is the final All-City lecture of the 2018-2019 series. The series will resume in October 2019 for the 2019-2020 series.

Thank you for joining us, we hope you were able to connect with other palliative care professionals across the greater Portland metro area. Have a great summer!
