If using this order form to request antibiotics from a home health agency, be sure to specify frequency and duration of therapy at the bottom of the order. Examples of frequency include Q8H, Q12H or once daily. Examples of duration include 7 days, 14 days, or 1 month.
3. May use ambulatory pump for antibiotic administration if needed (excluding Medicare patients).
4. Concomitant use is contraindicated with the following:

6. Hepatic dysfunction:

    b. Severe hepatic dysfunction: Use only if benefit outweighs potential risk; monitor closely for toxicity
