

Collaborative Problem Solving Learning Community for Outpatient Providers

The CPS Learning Community is for Outpatient Mental Health Professionals who have attended a Tier 1 Training in Collaborative Problem Solving and are now attempting to use CPS in their work with children and families. As mental health professionals, therapists, social workers, and nurse practitioners, using the model, we may sometimes find ourselves stuck.

The intention of this learning community is to pull together like-minded professionals, to brainstorm, discuss, & troubleshoot areas that tend to get messy, when using the model. We are hoping to create a format for learning and offer support to one another, while also ensuring that we practice the model to fidelity.

We meet the 2nd Wednesday of each month
8:00am-9:00am

Please join us online at the following link: <https://zoom.us/j/232688434>

No access to a computer?

Phone: 1-720- 707-2699 & enter Meeting ID: 232 688 434

You are also welcome to join us in person at the OHSU CPS Project Office 3355 SE Powell Blvd, Portland, Oregon (We are co-located with the Trillium Family Service Business & Admin Office)

If you have any questions, please contact the OHSU CPS Oregon Project
