

# Heat Stroke Safety

## Top Tips:

- Create a calendar reminder for your electronic devices to make sure you dropped your child off at daycare
- Develop a plan with your daycare so that if your child is late, you'll be called within a few minutes
- Teach kids not to play in cars
- Make sure to lock your vehicle, including doors and trunk, when you're not using it. Keep keys and remote entry fobs out of children's sight and reach
- Teach kids that trunks are for transporting cargo and are not safe places to play

**A:** avoid heatstroke-related injury and death by never leaving a child alone in a car, not even for a minute

**C:** create reminders by putting something in the back of your car next to your child such as a briefcase, a purse or cell phone that is needed at your final destination

**T:** take action if you see a child alone in a car, call 911. Emergency personnel want you to call. They are trained to respond to these situations. One call could save a life
