

Molecular and Medical Genetics Grand Rounds

2013 - 2014 Grand Rounds Schedule

Thursdays, 9:00 to 10:00 A.M., Mac Hall 3198

September 26	Case Presentations – Molecular lab (non-cancer) Yasmine Akkari – “Improving Molecular Diagnostic Testing of the Trinucleotide Repeat Disorders”
October 3	Canceled
October 10	Kory Keller CGC – “Coffin-Siris Syndrome: Clues the Pinkies Offer”
October 17	Jonathan Zonana, M.D. - “Mosaicism – Jumbled Genetics”
October 24	NO GRAND ROUNDS – ASHG MEETING, BOSTON, MA (OCT 22-26)
October 31	Dana Kostiner Simpson, M.D. – Chief of Clinical Genetics, Kaiser Permanente, NW “My Best Cases of 2013”
November 7	Caleb Rogers, M.D. – Genetics Resident “Tuberous Sclerosis Complex: Case Presentations and Current Therapy Options”
November 14	David Koeller, M.D. – “Macrocephaly, Leukodystrophy, and Water in the Brain”
November 21	Case presentations – Neurogenetics – Karen Kovak, MS, CGC
November 28	NO GRAND ROUNDS - THANKSGIVING
December 5	Canceled
December 12	Case Presentations – Cytogenetics – Stephen Moore, Ph.D., FACMG, Assistant Professor
December 19	Cary Harding, M.D. “Fishing with WES: Recent metabolic clinic diagnostic conundrums”
January 9	Penny Hogarth, M.D. – “The Neurofibromatoses: a complete review based on one family”
January 16	Michael D. Sussman, M.D., Clinical Professor, Division of Orthopedics & Rehabilitation; Staff Orthopedic Surgeon, Shriners Hospitals for Children - “ <i>Duchenne Muscular Dystrophy: from description to molecular treatment</i> ”
January 23	Case Presentations – Molecular Cancer – Yasmine Akkari, Ph.D., FACMG “Familial Adenomatous Polyposis: The APC gene and Mechanism of Disease”
January 30	Shari Brown, M.D., Fellow, Molecular and Genetic Pathology; “ <i>The Next Big Thing: Next Generation Sequencing</i> ”
February 6	Dr. Wojciech Wiszniewski, M.D., Ph.D., FACMG, Assistant Professor, Department of Molecular and Human Genetics, Baylor College of Medicine – “Genomic studies of peripheral nerve disorders: new disease genes reveal new biology”
February 13	Sue Richards, Ph.D.
February 20	Case Presentations – Pediatrics – Anna Dennis CGC/Jessica Kushner CGC
February 27	Anne Tsai, MD
March 6	Matthew Oetjens – Post-Doc Candidate,
March 13	Sumit Punj, Ph.D. - “Pharmacogenetics of Cytochrome P450”
March 20	Jone Sampson, M.D. – “Sarcomeric HCM: Focusing on the Positives”
March 27	NO GRAND ROUNDS – ACMG MEETING, NASHVILLE, TN (MAR 25-29) also spring break

April 3	Chung Lee, MD, Biochemical Genetics Fellow, UCSF Medical Center, “Arginase Deficiency: Treatment Considerations – The Past, Present, and Future”
April 10	Dan Doherty, MD, PhD, Associate Professor of Pediatrics; Divisions of Developmental Medicine and Genetic Medicine; University of Washington, Seattle Children's Hospital, “What’s up under the tentorium? Genetic of human hindbrain malformations”
April 17	Cori Feist, MS, CGC & Gwen Fraley, MS, CGC Case Presentations – Prenatal
April 24	Cori Feist, MS, CGC - "Genetic carrier screening: what's old, what's new and what's about to rock your world."
May 1	CANCELED
May 8	Summer Lee Cox, MPH, Rani George, MPH, and Alicia Parkman, MA “Oregon Genetics Program: The BRCA Testing Study”
May 15	Kelly Hamman, MS, CGC & Jone Sampson, M.D. Case presentations – Cancer
May 22	Maureen Hoatlin, Ph.D., “Helping Zebras Also Helps Horses: How OHSU Rare Disease Research Can Stimulate New Drug Discovery”
May 29	Amiee Potter, Ph.D., Senior Research Assistant, “The Molecular Mechanisms of Non-Syndromic Craniosynostosis”
June 5	Melissa Haendel, Ph.D., Assistant Professor, “Expanding the Clinical Phenotype Space Using Model Systems Data”
June 12	Caleb Rogers, M.D. – Genetics Resident, “Jacobsen Syndrome: A case presentation and review of the literature”
June 19	Preti Jain- Clinical Molecular Genetics Fellow, “Carrier Screening: Past, Present and Future”
