

**MOLECULAR & MEDICAL GENETICS
DEPARTMENTAL SEMINARS**

<u>DATE</u>	<u>SPEAKER</u>	<u>TITLE</u>
11/1/17	Daelyn Richards, Graduate Student, Cary Harding Lab, Molecular and Medical Genetics, OHSU	“Updates on PKU Gene Therapy”
11/29/17	Zhenghe John Wang, Ph.D., Professor and Vice Chair for Faculty Development, Department of Genetics and Genome Sciences, Case Western Reserve University	“Targeting glutamine addiction of PIK3CA mutant colorectal cancer”
1/31/18	Jimi Rosenkrantz, Graduate Student, Lucia Carbone Lab, Molecular and Medical Genetics, OHSU	“Elucidating the expression and function of endogenous retrovirus-K (ERV-K) during primate placentation”
2/28/18	Kristof Torkenczy, Graduate Student, Andrew Adey Lab, Molecular and Medical Genetics, OHSU	“Profiling Heterogeneity at the Single-cell Level”
4/25/18	Shawn Chavez, Ph.D., Assistant Professor, ONPRC	“Aneuploidy and Mechanisms of Chromosomal Loss in Pre-Implantation Embryos”
5/2/18	Michael Heskett, Graduate Student, Paul Spellman Lab, Molecular and Medical Genetics, OHSU	“Genetic analysis of human ovarian teratomas with exome sequencing”
5/30/18	Ryan Mulqueen, Graduate Student, Brian O’Roak/Andrew Adey Lab, Molecular and Medical Genetics, OHSU	“Developing High-Throughput Single-Cell Epigenomic Technologies”
