

CTRC Laboratory Assays & Analyses

The OCTRI Core Laboratory can complete the following assays and analyses. The Core Laboratory can also conduct new analyses based on a protocol's unique needs. To inquire about an assay that does not appear on this list, please contact the OCTRI Core Laboratory.

LABORATORY ASSAYS

ACTH	IL-6
Adiponectin	IL-8
Adiponectin (HMW)	IL-10
Aldosterone	Insulin
Anti-factor Xa	Leptin
BSAP	LH
CD40 ligand	Melatonin
Cortisol	Metanephrine
Cotinine	Myeloperoxidase
C-peptide	Normetanephrine
C-reactive protein	Nitrate/nitrite
D-Dimer	N-teleopeptide
Estradiol	Protein S
Estrone	Osteocalcin
Ferritin	PAI-1
Folate	Progesterone
FSH	Prolactin
Ghrelin	PSA
GLP-1	PTH
Glucose	Pyrilinks-D
HGH	PYY
Homocysteine	Salivary cortisol
Ibuprofen	Salivary estradiol
IGF-1	Salivary melatonin
IGFBP-1	Salivary progesterone
IGFBP-3	Salivary testosterone
IL-1b	

CONTACT OCTRI CORE LABORATORY

To learn more or schedule a consult, please contact:

Clive Woffendin, Ph.D.

Laboratory Director

woffendi@ohsu.edu

Aaron Clemons, B.S.c.

Laboratory Associate Supervisor

clemonsa@ohsu.edu

LABORATORY HOURS

Monday to Friday

7:30 a.m. – 5:30 p.m.

Or by prior arrangement

LABORATORY ASSAYS (CONTINUED)

Serotonin

SHBG

6-Sulfatoxymelatonin

TAT

tPA

T3 & T4 total/free

Testosterone

TNF-a

TSH

Vitamin B12

Vitamin B6

1,25-Dihydroxyvitamin D

25-Dihydroxyvitamin D
