

2020 Forum on Aging in Rural Oregon

May 27-29 | The Riverhouse on the Deschutes | Bend

2020 Forum on Aging in Rural Oregon - Request for Presentations

The Oregon Office of Rural Health (ORH) seeks proposals for presentations at the 4th Annual Forum on Aging in Rural Oregon, May 27-29, 2020, in Bend, Oregon. Interested presenters are encouraged to submit a proposal to the Oregon Office of Rural Health **by October 4, 2019**.

Background

Rural Oregon communities can be ideal places to age. This event provides a forum where people talk about their experiences, learn from one another and bring forth new ideas to move forward solutions that improve care and services for elders. It is an opportunity for Critical Access Hospitals, private and rural health clinics, coordinated care organizations and local public health departments to connect with one another, state/local aging-related stakeholders and community members. Attendees include health care providers and administrators, policy makers, community members, family caregivers, elder care professionals, philanthropists and anyone interested in making it easier for older adults to age in place in rural and frontier Oregon.

Presentation Topics

Proposed presentations should provide actionable information and best practices for attendees that optimize elder's ability to age in rural and frontier Oregon communities. Presentations that utilize interaction between presenters and audience or among audience members are particularly encouraged. **Presentations are NOT an opportunity to sell a product or service.** Click [here](#) to see presentations from the 2019 Forum on Aging in Rural Oregon.

We welcome proposals on any relevant topic. However, the planning committee has expressed interest in the topics listed on the next page. These are merely suggestions; successful proposals are not limited to the topics on this list.

Proposal Requirements

The proposal should be a maximum of one page and **must** include the following information:

- Name, contact information, and brief bio of presenter(s).
 - **Note: the ORH will reimburse for one speaker's registration, lodging and travel expenses.**
- Name and contact information of person submitting the proposal, if different than above
- Title of presentation
- Summary description of presentation to be used for agenda
- Two learning objectives
- Presentation style (e.g., PowerPoint, facilitated discussion, panel, etc.)

**Please submit proposals and/or questions to Rose Locklear at: locklear@ohsu.edu
no later than 5:00 PM, Friday October 4, 2019.**

Possible presentation topics include, but are not limited to:
