

BEHN/VOLLUM/NIDA T32 SPONSORED SEMINAR

# "Dopamine Circuits in Reward and Aversion"

by **Stephan Lammel, Ph.D.**

Assistant Professor, Department of Molecular & Cell Biology, UC Berkeley

---

**Wednesday**  
**Sep. 11, 2019**  
**10:00 - 11:00 a.m.**

Vollum Institute  
M1441  
3181 S.W. Sam Jackson  
Park Rd.  
Portland, OR 97239

---

Dr. Stephan Lammel is an Assistant Professor of Neurobiology at the Department of Molecular & Cell Biology at the University of California, Berkeley. His laboratory employs state-of-the-art methods to define contribution of defined neural circuits to behavior. His research focuses on investigating midbrain dopamine receptors and their role in substance abuse as well as neural circuits underlying mood disorders.

Student host: David Jacobs (Moghaddam lab)
