Sunny Leuchten, M.D., Ph.D.
Professor and Chair, Department of Dermatology
Director, Melanoma Research Program, Knight Cancer Institute
Division of Dermatology

Xiang Liu, M.D.
Associate Professor, Obstetrics and Gynecology, Pediatrics
Division of Gynecologic Oncology

Michele Magriples, C.N.M., M.S.
Assistant Professor of Obstetrics and Gynecology
Division of Gynecologic Oncology

Christine Nicholas, M.D., M.P.H.
Professor and Chair, School of Social Determinants of Health
School of Public Health, Portland State University
Alliant Missionary Foundation of Physicians of General Internal Medicine and Geriatrics, OHSU School of Medicine

Joslene Perkins, M.D., M.S.
Assistant Professor, Obstetrics and Gynecology
Division of Gynecologic Oncology and Urogynecology

Leonardo Pires, M.D.
Associate Professor, Obstetrics and Gynecology
Division of Reproductive Endocrinology and Infertility

Rachel Poblenz, M.D.
Associate Professor of Obstetrics and Gynecology

Catherine Politeo-Drazin, M.A., L.P.N.
Instructor, OHSU Center for Women’s Health

Jessica Reid, M.D.
Instructor, OHSU Center for Women’s Health

Sally Stott, Ph.D.
Professor, Department of Social Work, Portland State University
Assistant Professor of Medicine, Division of General Internal Medicine

Melissa Swain, M.D.
Assistant Professor of Medicine and Geriatrics
Division of General Internal Medicine

Katie Xu, M.D.
Associate Professor, Obstetrics and Gynecology
Division of Reproductive Endocrinology and Infertility

Maureen Babbitt, M.D., M.P.H.
Assistant Professor, Obstetrics and Gynecology

Amanda Braun, M.D., M.S.
Assistant Professor, Obstetrics and Gynecology

Arun Cagley, M.D., M.P.H.
Professor, Obstetrics and Gynecology

Wendy Davis, Ph.D., R.N.M.C.
Instructor, OHSU Center for Perinatal Support International

Tari Drexler, M.D.
Assistant Professor, Psychology

Daisy Duhme, M.D., M.P.H.
Associate Professor, Obstetrics and Gynecology, Department of Neurology and Neurological Sciences

Elise Erickson, Ph.D., C.N.M.
Assistant Professor, School of Nursing

Joan Farhi, M.D.
Fellow, Penn State PennMedicine and Reconstruction Surgery

Karen Gebbie, M.D., M.S.
Assistant Professor, Obstetrics and Gynecology

Amy Hennessy, M.D., Ph.D.
Assistant Professor, Obstetrics and Gynecology

Division of Maternal-Fetal Medicine

Ben Hersh, M.D., F.A.C.S., F.A.C.R.
Division of Surgery, Institute for Environmental and General Surgery

Cheryl Iughias, M.D.
Resident of Obstetric and Gynecology, Oregon Health and Science University School of Medicine

Sasha King, M.D., Ph.D.
Assistant Professor, Obstetrics and Gynecology
Division of Reproductive Endocrinology and Infertility

All faculty are from OHSU School of Medicine, unless otherwise noted.
At the conclusion of the course, participants will be able to:

- Apply current guidelines concerning the physiology, timing and management of inducing labor.
- Guide patients through the decision-making options related to fertility and reproductive health.
- Explain the changes to current recommendations for screening for cervical cancer.
- Discuss the implications of new developments and emerging concepts in approaches to perinatal substance use disorder.
- Engage in point-counterpoint discussion on new developments and emerging concepts.

The course will be held at the Sentinel Hotel, 614 SW 11th Ave., Portland, OR. A block of rooms has been reserved at The Sentinel Hotel. To make reservations, call 503-494-8700, or email cme@ohsu.edu as early as possible, but no later than October 21, 2019.

Please note that admission to the program is restricted to registered attendees. If you have a disability and require assistance to participate in this activity, please contact the Office of Professional Development at 503-494-8700, or email cme@ohsu.edu, or visit our website at www.ohsu.edu/cme.

Learning objectives

- For the convenience of the course, participants will be able to:
  - Apply guidelines concerning the physiologic, timing and management of labor and delivery.
  - Incorporate established and published guidelines to the management of neonates who experience recurrent pregnancy loss or fetal demise.
  - Apply relevant strategies to care for women who experience pregnancy loss.
  - Outline strategies for the decision-making options related to fertility preservation.

Topics may include: General Ob-Gyn, maternal fetal medicine, fertility/reproductive endocrinology, oncology, gynecologic oncology, nurse midwifery, primary care, mental health, family planning, complementary and alternative medicine, menopause, family medicine and women's primary care, including family practice, psychiatry, obstetrics and gynecology, family health, oncology, family planning, and cancer risk reduction.

Course description

OHIO-the tip faculty will share their expertise as clinically-investigators through multidisciplinary perspectives, innovative clinical sessions, and panel-cutting-edge discussions on emerging trends and evolving concepts to transform your practice.

This session is intended for providers of obstetrics, gynecology, family medicine and women's health, including family medicine providers, nurse midwives, and other professionals in the women's health field.

The course will allow interaction between participants and faculty through group exercises and active sessions during which participants are invited to bring their questions to a smaller group forum.

This course is designed to provide a forum for the exchange of current and novel ideas and information in the field of medicine and women's health. This update is intended for providers of obstetrics, gynecology, family medicine and women's health.

Learning outcomes

- To be able to discuss the implications of new developments and emerging concepts in approaches to perinatal substance use disorder.
- To engage in point-counterpoint discussion on new developments and emerging concepts.
- To outline strategies for the decision-making options related to fertility preservation.
- To utilize the tips that the faculty will share their expertise as clinically-investigators through multidisciplinary perspectives, innovative clinical sessions, and panel-cutting-edge discussions on emerging trends and evolving concepts to transform your practice.
General information

Please note that admission to the program is restricted to registered attendees. Please bring a photo ID or Current Registration Card to ensure that you are able to enter the conference venue. Nursing mothers should use our staff on-site should you need a place to pump during the conference.

If you have a disability and require assistance to participate in this conference, please contact the Division of CPD at 503 494-8700 or email cme@ohsu.edu.

To help meet administrative costs, a $35.00 service charge will be assessed on this program with a full tuition refund.

The course will be held at the Sentinel Hotel, 614 SW 11th Ave., Portland, OR. A block of rooms has been reserved at The Sentinel Hotel. To make reservations call 888-246-5631 and mention your participation in the OHSU OBGYN conference. Please make your reservation early as the room block will be released on October 14, 2019 and is subject to sell-out prior to that date.

Nursing mothers: please see staff on-site should you need a place to pump during the conference. Should conditions warrant, the sponsors reserve the right to cancel this program with a full tuition refund.

The course will be limited to the first 200, 11:30 A.M., Portland, OR. A block of rooms has been reserved at the Sentinel Hotel. To make reservations call 888-246-5631 and mention your participation in the OHSU OBGYN conference. Please make your reservation early as the room block will be released on October 14, 2019 and is subject to sell-out prior to that date.

Course description

OHSU OBGYN faculty will share their expertise on clinically relevant topics through multi-disciplinary perspectives, informative plenary sessions, and hands-on case-based learning. The course will allow interaction between participants and faculty through multi-disciplinary perspectives, informative plenary sessions, and hands-on case-based learning. The course will allow interaction between participants and faculty through multi-disciplinary perspectives, informative plenary sessions, and hands-on case-based learning. Participants are invited to bring their questions to a smaller group forum. Luncheon roundtables with faculty will allow opportunity for discussion.

Health in science terminology historically referred to medicine as accredited by the Accreditation Council for Continuing Medical Education to provide continuing education credit. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

- Implement the guidelines for screening for cervical pre-cancer and cancer in their patients.
At the conclusion of the course, participants will be able to:

1. Describe evidence-based approaches to cancer prevention.

2. Explain the changes to current recommendations for screening for cervical pre-cancer and cancer to their patients.

3. Incorporate evidence-based guidelines into the management of women who experience recurrent pregnancy loss or fetal demise.

4. Provide patients through the decision-making options related to fertility preservation.

5. Apply current guidelines concerning the physiology, timing and management of labor.

6. Apply relevant strategies to care for women who experience pregnancy loss.

7. Guide patients through the decision-making options related to fertility preservation.

8. Explain the process of inducing labor.

9. Incorporate evidence-based guidelines into the management of women who experience recurrent pregnancy loss or fetal demise.

10. Provide patients through the decision-making options related to fertility preservation.

11. Describe evidence-based approaches to cancer prevention.

12. Explain the changes to current recommendations for screening for cervical pre-cancer and cancer to their patients.

13. Incorporate evidence-based guidelines into the management of women who experience recurrent pregnancy loss or fetal demise.

14. Provide patients through the decision-making options related to fertility preservation.

15. Describe evidence-based approaches to cancer prevention.

16. Explain the changes to current recommendations for screening for cervical pre-cancer and cancer to their patients.

17. Incorporate evidence-based guidelines into the management of women who experience recurrent pregnancy loss or fetal demise.

18. Provide patients through the decision-making options related to fertility preservation.

19. Describe evidence-based approaches to cancer prevention.

20. Explain the changes to current recommendations for screening for cervical pre-cancer and cancer to their patients.

For more information, contact the Division of Continuing Professional Development at 503-494-8700 or visit our website at www.ohsu.edu/cme.

Learning objectives:

1. Identify the goals of the course, participants will be able to:

a. Apply current guidelines concerning the physiology, timing and management of labor.

b. Incorporate evidence-based guidelines into the management of women who experience recurrent pregnancy loss or fetal demise.

c. Apply relevant strategies to care for women who experience pregnancy loss.

d. Guide patients through the decision-making options related to fertility preservation.

e. Explain the process of inducing labor.

f. Incorporate evidence-based guidelines into the management of women who experience recurrent pregnancy loss or fetal demise.

g. Provide patients through the decision-making options related to fertility preservation.

h. Describe evidence-based approaches to cancer prevention.

i. Explain the changes to current recommendations for screening for cervical pre-cancer and cancer to their patients.

j. Incorporate evidence-based guidelines into the management of women who experience recurrent pregnancy loss or fetal demise.

k. Provide patients through the decision-making options related to fertility preservation.

l. Describe evidence-based approaches to cancer prevention.

m. Explain the changes to current recommendations for screening for cervical pre-cancer and cancer to their patients.

n. Incorporate evidence-based guidelines into the management of women who experience recurrent pregnancy loss or fetal demise.

o. Provide patients through the decision-making options related to fertility preservation.

p. Describe evidence-based approaches to cancer prevention.

q. Explain the changes to current recommendations for screening for cervical pre-cancer and cancer to their patients.

r. Incorporate evidence-based guidelines into the management of women who experience recurrent pregnancy loss or fetal demise.

s. Provide patients through the decision-making options related to fertility preservation.

t. Describe evidence-based approaches to cancer prevention.

u. Explain the changes to current recommendations for screening for cervical pre-cancer and cancer to their patients.

v. Incorporate evidence-based guidelines into the management of women who experience recurrent pregnancy loss or fetal demise.

w. Provide patients through the decision-making options related to fertility preservation.

x. Describe evidence-based approaches to cancer prevention.

y. Explain the changes to current recommendations for screening for cervical pre-cancer and cancer to their patients.

z. Incorporate evidence-based guidelines into the management of women who experience recurrent pregnancy loss or fetal demise.

a. Provide patients through the decision-making options related to fertility preservation.

b. Describe evidence-based approaches to cancer prevention.

Learning objectives:

1. Identify the goals of the course, participants will be able to:

a. Apply current guidelines concerning the physiology, timing and management of labor.

43rd Annual Pacific Northwest Update in Ob-Gyn and Women's Health

Accreditation
Oregon Health & Science University, School of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

Credit
Oregon Health & Science University Designates this live activity for a maximum of 27.50 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

For more information, contact the Division of Continuing Professional Development (CPD) at 503-494-8700 or via email at cme@ohsu.edu, or visit our website at www.ohsu.edu/cme.

Learning objectives
At the conclusion of the course, participants will be able to:
•Apply current guidelines concerning postpartum depression, timing and management of labor
•Incorporate evidence-based problems into the management of women who experience recurrent pregnancy loss or fetal demise
•Apply relevant strategies to care for women who experience pregnancy loss
•Incorporate best practices into decision-making options related to fertility preservation
•Develop disease-specific, risk-based, patient-centered surveillance screening for cervical pre-cancer and cancer in their patients.

Course description
OHSU OB-GYN faculty will share their expertise as clinicians and researchers trained in multidisciplinary perspectives, inform plenary sessions, and provide up-to-date discussions on current developments and evolving concepts to enhance breast health. This summit is intended for providers of gynecology, family medicine and women’s healthcare, including family physicians, nurse practitioners, nurse midwives and other professionals in the women's health field.

The course will allow interaction between participants and faculty through plenary sessions and interactive sessions during which participants are invited to bring their questions to a smaller group forum. Live audience participation with faculty will allow for discovery of topics. Topics may include: postpartum care, recurrent pregnancy loss, primary care, family planning, surgical and endoscopic evaluation, management, intervention, and reproductive health, cancer, sexual health, STI, updates, shared decision-making.

The course will be held at the Sentinel Hotel, 614 SW 11th Ave., Portland, OR. A block of rooms has been reserved at The Sentinel Hotel. To make reservations call 888-246-5631 and mention your participation in the OHSU CPD course. Please make your reservations early as blocks will be released on October 14, 2019. Participants will be asked to arrive prior to the arrival date to avoid a $15.00 per night surcharge.

General information
Please note that admission to the program is restricted to registered attendees. Please bring a light sweater or jacket to ensure your comfort in the session area. Parking authorities may charge for use of the parking area.

Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

OHSU OB-GYN faculty will share their expertise as clinicians and researchers trained in multidisciplinary perspectives, inform plenary sessions, and provide up-to-date discussions on current developments and evolving concepts to enhance breast health. This summit is intended for providers of gynecology, family medicine and women’s healthcare, including family physicians, nurse practitioners, nurse midwives and other professionals in the women's health field.

The course will allow interaction between participants and faculty through plenary sessions and interactive sessions during which participants are invited to bring their questions to a smaller group forum. Live audience participation with faculty will allow for discovery of topics. Topics may include: postpartum care, recurrent pregnancy loss, primary care, family planning, surgical and endoscopic evaluation, management, intervention, and reproductive health, cancer, sexual health, STI, updates, shared decision-making.

The course will be held at the Sentinel Hotel, 614 SW 11th Ave., Portland, OR. A block of rooms has been reserved at The Sentinel Hotel. To make reservations call 888-246-5631 and mention your participation in the OHSU CPD course. Please make your reservations early as blocks will be released on October 14, 2019. Participants will be asked to arrive prior to the arrival date to avoid a $15.00 per night surcharge.

General information
Please note that admission to the program is restricted to registered attendees. Please bring a light sweater or jacket to ensure your comfort in the session area. Parking authorities may charge for use of the parking area.
