

Stephanie Dukhovny, M.D., assistant professor of obstetrics and gynecology
OHSU School of Medicine

Leadership role: Director of wellness in the Division of Perinatology, Maternal and Fetal Medicine.

Using the grant funding for: The AAMC Early Career Women Faculty Leadership Development Seminar.

Goals: Further develop a leadership role in resident teaching and wellness/burnout, and take more leadership roles within the Fetal Therapy Clinic setting.

Megan Furnari, M.D., M.S., assistant professor of pediatrics
OHSU School of Medicine

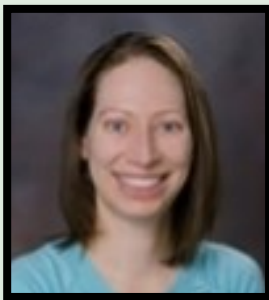

Leadership role: Director of medical student wellness and leadership development.

Using the grant funding for: Stanford Graduate School of Business Executive Program in Women's Leadership.

Goals: Continue to improve leadership education for all medical students; continue to raise up young women leaders in the OHSU School of Medicine through the Women's Leadership Development Pro-

Avital O'Glasser, M.D., associate professor of medicine
OHSU School of Medicine

Leadership role: Recently became medical director of the Pre-operative Medicine Clinic, after serving for six years as assistant medical director and three months as interim medical director. Dr. O'Glasser is also assistant program director for scholarship and social media in the OHSU Internal Medicine Residency Program.

Using the grant funding for: The American College of Physicians' Certificate in Physician Leadership Program.

Goals: Build a culture and climate of professional satisfaction in the PMC clinic where providers feel their work matters and adds value, plus work with the many external stakeholders, including colleagues in anesthesia and sur-

Mandy VanSandt, D.O., assistant professor of pathology
OHSU School of Medicine

Leadership role: Director of the Hemostasis and Thrombosis Laboratory, and director of the medical student pathologic elective course.

Using the grant funding for: The College of American Pathology's Laboratory Medical Director Advanced Practical Pathology Program.

Goals: Develop leadership skills to contribute to growth and development within the laboratory at OHSU and prepare for expanding roles over the next five years.
