

School of NURSING

OHSU School of Nursing – Graduate Programs Statistics 5-Year Time Limit Waiver Request Form

Completing a statistics course within 5 years of matriculation is an application requirement for many of our graduate nursing programs, as well as for our Accelerated BS to DNP/PhD programs. You may use this form to request a waiver for the 5-year time limit on the statistics requirement.

You may request a waiver for the statistics requirement based on one of the following three criteria:

1. If you took statistics 5.5 years ago;
2. You have already earned an M.S. in another field, used statistics to support thesis work, and can talk about statistics with the faculty of record; or
3. You can show that you use statistics in your work environment and can discuss statistics comfortably with the faculty of record.

Note: this waiver does not guarantee that your statistics course will be waived. After review, you will be notified of whether or not it was approved or denied. If your waiver is denied, you will need to come up with a plan to take a basic statistics course by the time the program starts, if admitted.

Full name: _____

Program to which you are applying: _____

Prospective Program Start Date (Term and Year): _____

College/University	Course Number/Name	Year Completed and Grade Received
<p>Please type or attach a written request for a waiver explicitly explaining your reason for requesting the waiver along with this form. You may email this form along with explanation materials to proginfo@ohsu.edu. Waivers for the 2020-2021 application season will be reviewed starting September 1st.</p>
