

Pay it Forward Mentorship Program

The Pay It Forward Mentorship Program is here to help underserved and underrepresented students interested in medicine connect with a current medical student at OHSU. Each college student will be paired with a medical student who

will serve as a mentor to help answer questions and guide them along their process of applying to medical school. If you are thankful for all the mentors and role models that helped you get here this is your chance to pay it forward and become one!

After you are paired with your mentee, we will contact you with additional information.

Questions? Contact Johanna Wilson at wilsojo@ohsu.edu

Become a mentor of an underserved college student and guide them along their journey to medical school.

Apply today!
