Creating a Disclosure to Audience for One-time Events – Annual Events – Courses

With the new process in place, the only way to view a disclosure is to create your disclosure to audience list. However, that procedure has been greatly simplified and automated.

Creating the disclosure list will now be at the push of a button. Once all of you planners and speakers have a disclosure status of Active, click on “Create Disclosure list”

This will create the disclosure list for you to copy and paste into a PowerPoint, email, or word document – whichever format you are using to disclose to the audience. The created page will pull in the planning committee and the speakers.

The below is a screenshot of the page that opens up when you press the “Create Disclosure List” button.
