Position Opening: Research Associate

OHSU jobs site position number: 2020-4643
Worksite: telework from a remote location, or OHSU South Waterfront campus in Portland, OR

Position Description

The Research Associate provides high-level professional support in analytic activities at the Center for Health Systems Effectiveness (CHSE). Key responsibilities include:

1) Collaboration with CHSE Investigators and staff to design, implement and interpret analyses for a variety of health services research projects focused on healthcare expenditures, utilization and quality
2) Creation and management of large and complex administrative claims datasets, using R
3) Documentation of methods, and other practices that ensure reproducibility of results
4) Coordination and management of a diverse set of research activities on multiple projects
5) Contribution to dissemination of findings through manuscripts or reports, via interpretation of results, creation of compelling data visualizations, writing and editing

Required Qualifications

- Bachelor’s or Master’s degree with major courses in statistics, biostatistics, epidemiology or economics
- Strong coding skills using R, Stata or SAS
- Experience with managing, analyzing, and summarizing data
- Exemplary written and verbal communication skills

Preferred Qualifications

- Experience with medical claims data
- Knowledge of Medicaid and healthcare payment reform

About CHSE

Our mission is to provide the analyses, evidence and economic expertise to build a better and more sustainable health care system. To achieve our mission, we combine state-of-the-art analytic methods, a variety of data sources, and innovative approaches to data visualization and communication.

We continuously strive to do great work, and to be a great place to work. Our dynamic team includes faculty and research staff with varied academic backgrounds and experience. We are committed to continuing education and professional growth, as well as to diversity and providing a welcoming, inclusive work environment.
