

Preparing your child for their test with sedation during COVID-19

Your family's safety is our top priority. In light of the COVID-19 coronavirus, we have had to make some changes. Please follow these guidelines to keep you and your family safe for your child's visit.

2 DAYS BEFORE YOUR CHILD'S TEST WITH SEDATION

Prevent the spread of COVID-19

- Continue to stay **6 feet** away from others and **clean your child's hands often**. You and your child's caregivers should also follow these rules.
- **Avoid close contact** with others and **try not to leave your home**, especially during the 2 days before your child's visit.

Get tested for COVID-19

- We will call you to talk about coronavirus testing.
- Your child will need the test **within 2 days before their test with sedation**.
- If you do not get tested within the required timeframe as defined during the scheduling process, we may need to reschedule your child's **test with sedation**.

OHSU testing site:

OHSU Pre-Op Medicine Clinic (by appointment)

3485 S. Bond Avenue, Portland, OR 97239

7 a.m. – 3 p.m., 7 days a week

Report COVID-19 symptoms

- Check for symptoms every day.
- We will do a symptom check over the phone when we call you 1-2 days before your child's visit.
- Let us know if you or your child have:
 - Fever, sore throat, runny nose, cough, shortness of breath, body aches or other symptoms.
 - Been diagnosed with COVID-19.

- Had close contact with someone who has COVID-19 (suspected or confirmed) within the past 14 days.
- Traveled within the last 14 days to a CDC Level 3 risk country:
www.cdc.gov/coronavirus/2019-ncov/travelers/map-and-travel-notice.
- Traveled on a cruise ship within the last 30 days.

If you have questions or concerns about COVID-19 symptoms, please contact your primary care provider. If you don't have one, please call: OHSU Health COVID-19 Hotline at 833-647-8222, 8 a.m. to 8 p.m., 7 days a week.

THE DAY OF YOUR CHILD'S TEST WITH SEDATION

Coming to the hospital

- Your child must have **1 healthy adult legal guardian** (age 18+) be their support person. Your child's support person is responsible for getting discharge instructions and taking your child home after their **test with sedation**.
- **No additional visitors** are allowed in the hospital at this time.
- **Wear a mask.** You and your child (age 2+) need to wear a mask. Do NOT wear masks with breathing valves. If you do not have a mask, we can give you one. If you refuse to wear a mask without a valve, we may need to cancel your child's **test with sedation**.

Checking in

1. When you enter the Doernbecher building, you and your child will go through a **screening checkpoint** to make sure your child does not have COVID-19 symptoms. You will need to be screened but you do not need a COVID-19 test.
2. Next, take the elevator to the 7th floor and check in at the beaver/bear desk.
3. You will be with your child in the sedation area and will be reunited as soon as possible after the test in the same area.

Parents and caregivers

- During your child's **test with sedation**, you should try NOT to move around the hospital too much. You can wait in your car in a spot with cell service, or in one of these designated waiting spaces.
