More Detailed Explanation of Rights under FERPA

(1) The right to inspect and review the student's education records.

Students should submit to the Office of the Registrar written requests that identify the record(s) they wish to inspect. The Office of the Registrar will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the Office of the Registrar, that office shall advise the student of the correct official to whom the request should be addressed.

(2) The right to request the amendment of the student's education records to ensure that they are not inaccurate, misleading or otherwise in violation of the student's privacy or other rights.

Students may ask the university to amend a record that they believe is inaccurate, misleading or in violation of the student's right to privacy. They should write the university official responsible for the record, clearly identify the part of the record they want changed, and specify why it is inaccurate or misleading.

If the university decides not to amend the record as requested by the student, the university will notify the student of the decision and advise the student of his or her right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.

(3) Consent to disclosures of personally identifiable information contained in the student's educational records, except to the extent that FERPA and the regulations under it authorize disclosure without consent.

One exception, which permits disclosure without consent, is disclosure to school officials with legitimate education interests. A school official includes a person employed by the university in an administrative, supervisory, academic, research, student staff or support staff position (including law enforcement unit personnel and health staff); a person, company, or entity with whom the university has contracted (such as an attorney, auditor, collection agent, software vendor or service provider); a person serving on the Board of Directors; or a student or volunteer community member serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her duties.

A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her responsibilities.

Upon request, the university may disclose education records without consent to officials of another school in which a student seeks or intends to enroll. No further notice need be given to students of transfer of records to such other school.

(4) Designate Directory Information, as defined in OHSU's Education Records Policy, as not being subject to disclosure without the student's prior consent, except as otherwise permitted by FERPA or other applicable law.

Students may elect to designate that Directory Information not be disclosed without their prior consent, except as permitted by FERPA or other applicable law. Student are annually sent a Request to Restrict Directory Information form through which a student can request the restriction of the release of Directory Information.

(5) Information not required to be provided by students.

Students are not required to provide information such as race, religion, sexual orientation, gender identity, political affiliation or preferences, or personal values, except as required by state statute, federal law, or valid federal regulations or orders.

(6) The right to file with the U.S. Department of Education a complaint under 34 CFR Sec.99.63 concerning alleged failures by the institution to comply with the requirements of the FERPA.

The name and address of the office that administers FERPA is:

Family Policy Compliance Office
U.S. Department of Education
400 Maryland Avenue, S.W.
Washington, D.C. 20202

(7) Obtain a copy of the OHSU Education Records Policy

OHSU policies elaborate upon or qualify rights in education records to the extent the institution is authorized to do so under law. Copies of the OHSU policies may be obtained from the Office of the Registrar or online on OHSU's [Academic Policies website](#).

In accordance with state and federal law, the university has adopted a policy to govern the gathering, use and disclosure of education records. Under the OHSU Education Records Policy, most of the records that the university maintains with regard to a student can be disclosed without a student's written consent only to the student, to school officials, to sponsors of financial aid (when the student has applied for or received aid), to some government agencies, and to persons issuing lawful subpoenas.
