Q2: OVER THE LAST 4 WEEKS, have COVID-19 related changes and pressures in your practice put unusual strain on your practice?

	# Responses	% Sample	% National sample
1 – no impact	3	6.7%	4.1%
2	4	8.9%	14.9%
3	14	31.1%	32.0%
4	20	44.4%	35.9%
5 – severe impact	4	8.9%	13.1%

Q3: STRESSORS. Over the last 4 weeks, which of these things are true for your practice?

	# Responses	% Sample	% National sample
We have permanently lost practice members because of COVID-19 (e.g., quit, sick, early retirement)	16	35.6%	27.0%
Our patients with chronic conditions are in noticeably worse health resulting from the pandemic	19	42.2%	36.8%
We have seen an increase in negative health burden due to delayed or inaccessible care	23	51.1%	56.4%
The mental health of our patients has decreased during the pandemic	42	93.3%	85.2%
We have seen an increase in patients suffering with addiction	17	37.8%	30.8%
We have added capacity to help patients with mental or behavioral health	4	8.9%	16.2%
We have increased our connections to community organizations	11	24.4%	21.6%
We are more involved helping patients with poor access to food, housing, or employment	16	35.6%	27.3%
I cannot get patients tested for COVID-19 as often as I feel I should	14	31.1%	25.6%
I am able to get patients tested for COVID-19 but results take more than 2 days to receive	21	46.7%	44.3%
We have seen a rise of COVID-19 illness in our community	27	60.0%	60.0%
We lack PPE	4	8.9%	13.6%
Low amounts of PPE and/or reuse of PPE makes me feel unsafe at work	11	24.4%	23.0%
We have no flu vaccine	5	11.1%	10.0%
We are unable to pay some of our bills	1	2.2%	6.2%
We are having trouble hiring new staff	20	44.4%	34.7%
Other	11	24.4%	20.6%

Q4: TELEHEALTH. Over the past 4 weeks, how would you describe your use of video and phone based care?

	# Responses	% Sample	% National sample
I use video-based care for at least 20% of my patients	24	53.3%	38.1%
I use phone-based care for at least 20% of my patients	12	26.7%	34.7%
I would like to use video-based care more but can't because of low reimbursement	4	8.9%	7.0%

I would like to use phone-based care more but can't because of low reimbursement	11	24.4%	15.3%
Telehealth has been important for my capacity to see patients	37	82.2%	63.6%
Use of telehealth has made access harder for some of my patients	16	35.6%	23.0%
We use telehealth to screen sick patients to prevent unnecessary exposure within the practice	33	73.3%	59.6%
We use telehealth for visits with patients who have stable chronic conditions	41	91.1%	68.7%
We use telehealth for mental health visits with our patients	36	80.0%	60.5%
We have started to increase use of telehealth as part of our plan for flu season	8	17.8%	23.5%
Increased use of telehealth will now always be part of our practice	34	75.6%	60.3%
None of these	1	2.2%	6.0%

Q6: Is your practice...

	# Responses	% Sample	% National sample
Owned by you	12	26.7%	26.3%
Independent and part of a larger group	7	15.6%	10.5%
Owned by a hospital or health system	15	33.3%	38.3%
Government owned	4	8.9%	4.0%
None of the above	7	15.6%	21.0%

Q7: Is the size of your practice...

	# Responses	% Sample	% National sample
1-3 clinicians	12	26.7%	30.4%
4-9 clinicians	16	35.6%	29.9%
10+ clinicians	17	37.8%	39.7%

Q8: Is your practice setting...

	# Responses	% Sample	% National sample
Primary care setting	45	100.0%	98.8%
Primary care and convenience care setting	3	6.7%	6.2%
DPC or membership	0	0.0%	3.6%
Primary care and an academic or residency practice	4	8.9%	11.3%
Other	3	6.7%	10.8%

Q9: Which of these describes your practice?

	# Responses	% Sample	% National sample
Rural	18	40.0%	19.8%
Community health center	6	13.3%	8.9%
FQHC or FQHC look-alike	7	15.6%	9.5%
Free or charitable clinic	0	0.0%	7.9%
Designated patient-centered primary care home	25	55.6%	30.1%
Located in office, school, or college	4	8.9%	7.4%

None of the above	9	20.0%	36.1%
-------------------	---	-------	-------
