

2-3 days before your procedure (continued)

Report COVID-19 symptoms

- Check for symptoms every day.
- Let us know if you have:
 - Fever, sore throat, runny nose, cough, shortness of breath, body aches or other symptoms.
 - Been diagnosed with COVID-19.
 - Had close contact with someone who has COVID-19 (suspected or confirmed) within the past 14 days.
 - Traveled within the last 14 days to a CDC Level 3 risk country: www.cdc.gov/coronavirus/2019-ncov/travelers/map-and-travel-notice.
 - Traveled on a cruise ship within the last 30 days.

If you have questions or concerns about COVID-19 symptoms, please contact your primary care provider. If you don't have one, please call:
OHSU Health COVID-19 Hotline at **833-647-8222**, 8 a.m. to 8 p.m., 7 days a week.

The day of your procedure

Coming to the hospital

- You must have **1 healthy adult** (age 18+) be your support person. They are responsible for getting your discharge instructions and taking you home after your procedure.
- **No additional visitors** are allowed in the hospital at this time.
- **Wear a mask** (age 2+). You and your support person need to wear a face covering. Do NOT wear masks with breathing valves. These do not provide the protection we need. If you do not have a mask, we can give you one. If you or your support person refuse to wear the right kind of face covering, we may need to reschedule your procedure to another day.

The day of your procedure (continued)

Checking in

1. When you enter the building, you and your support person will go through a **screening checkpoint** to make sure you do not have COVID-19 symptoms. Your support person needs to be screened but does not need a COVID-19 test.
 2. Next, check in at the **admitting desk** and sign paperwork.
 3. Go to the **pre-procedure location** or waiting area. Your support person can come with you to the waiting area. They are NOT allowed in the pre-/post-procedure area, except:
 - To learn discharge instructions for when you leave the hospital
- If you have a disability (physical, intellectual, behavioral, cognitive, deafness, hard of hearing, communication barrier, blindness, autism, dementia, etc.), your support person can be with you if:
- You need their help to answer questions and make health care decisions
 - You need them to help with your care.

Support person

- Bring your support person's contact information so we can let them know when to pick you up and can share discharge instructions.
- During your procedure, your support person should try NOT to move around the hospital too much. They can wait:
 - At home if they live within 50 miles of OHSU, or
 - In their car in a spot with cell service, or
 - In one of these designated waiting spaces:
 - Main Hospital
 - Multnomah Pavilion 4th floor waiting area, including seating in hallway
 - Sam Jackson Hall lobby
 - Center for Health & Healing
 - Building 2, 2nd floor MSPU waiting area
 - Building 2, 3rd floor waiting area
- If you get moved to your own patient room, your support person can be there with you.
