

Program: Adult Gerontology Acute CareNP (DNP-AGAC)

OHSU Graduation Core Competency: Communication

Communicate effectively and equitably with diverse individuals, organizations, and communities to support stakeholder decision-making and promote culturally responsive exchanges of information.

Student Learning Outcome

Use effective communications skills and technologies to provide collaborative care.

OHSU Graduation Core Competency: Community Engagement, Social Justice and Equity

Apply principles of social justice, equity, and/or anti-racism through community-engaged practice, service, or scholarship.

Student Learning Outcome

Demonstrate safe care of adults, including the frail elderly with regard to issues of health promotion as well as unstable chronic, complex acute and critical conditions

Student Learning Outcome

Demonstrate safe care of adults, including the frail elderly with regard to issues of health promotion as well as unstable chronic, complex acute and critical conditions

Student Learning Outcome

Provide individualized, culturally sensitive management using quality improvement strategies where applicable.

OHSU Graduation Core Competency: Information Literacy

Recognize the power of information in educating, influencing, and understanding the world, while seeking and amplifying missing perspectives. With this lens, locate, critically evaluate, and effectively use information to participate in decision-making, quality improvement, and broader scholarly discourse.

Student Learning Outcome

Generate entry level practice scholarship through the completion of a clinical practice improvement project based on the principles of improvement science.

Student Learning Outcome

Evaluate emerging healthcare systems and policy that influence delivery of cost effective patient care.

Student Learning Outcome

Evaluate emerging healthcare systems and policy that influence delivery of cost effective patient care.

Student Learning Outcome

Generate entry level practice scholarship through the completion of a clinical practice improvement project based on the principles of improvement science.

Student Learning Outcome

Synthesize and translate relevant, current and scientific knowledge and evidence-based research finding into practice.

Student Learning Outcome

Generate entry level practice scholarship through the completion of a clinical practice improvement project based on the principles of improvement science.

OHSU Graduation Core Competency: Patient Centered Care

Clinical degree program graduates will collaborate with diverse individuals, families, and communities to provide quality trauma-informed care that is anti-racist and respectful of and responsive to preferences, needs, attitudes, beliefs, and values.

Student Learning Outcome

Demonstrate readiness to enter clinical practice via specialty competencies with the appropriate scientific knowledge, and considerations for its application to practice.

Student Learning Outcome

Demonstrate readiness to enter clinical practice via specialty competencies with the appropriate scientific knowledge, and considerations for its application to practice.

Student Learning Outcome

Demonstrate readiness to enter clinical practice via specialty competencies with the appropriate scientific knowledge, and considerations for its application to practice.

OHSU Graduation Core Competency: Professional Identity and Ethical Behavior

Demonstrate discipline-specific behaviors, norms, and ethics while also recognizing and challenging racist professional expectations which can cause undue burden and/or deny the full humanity of ourselves, our peers, and our patients.

Student Learning Outcome

Apply ethical principles along with the standards of professional conduct to clinical care, research, and education.

Student Learning Outcome

Apply ethical principles along with the standards of professional conduct to clinical care, research, and education.

Student Learning Outcome

Make sound, culturally appropriate and ethically grounded clinical judgments based on critical analysis of best available evidence

OHSU Graduation Core Competency: Professional Knowledge and Skills

Demonstrate core knowledge, skills, and practices as defined by the discipline, professional licensing, or accreditation organization while being open to new perspectives, additional voices, and changes in schools of thought that impact the core knowledge, skills, and practices in the discipline.

Student Learning Outcome

Identify and address gaps in professional knowledge and experience through ongoing reflection to support the principle of life-long learning.

Student Learning Outcome

Identify and address gaps in professional knowledge and experience through ongoing reflection to support the principle of life-long learning.

Student Learning Outcome

Identify and address gaps in professional knowledge and experience through ongoing reflection to support the principle of life-long learning.

Student Learning Outcome

Identify and address gaps in professional knowledge and experience through ongoing reflection to support the principle of life-long learning.

Student Learning Outcome

Identify and address gaps in professional knowledge and experience through ongoing reflection to support the principle of life-long learning.

Student Learning Outcome

Apply advanced knowledge in the science of a specialty area of advanced nursing practice. Use emerging information and health technologies to access current research and health care data to improve patient care.

OHSU Graduation Core Competency: Teamwork

Work effectively within collaborative, team- or teaming-based interprofessional environments while acknowledging positionality and intentionally making space for diverse perspectives.

Student Learning Outcome

Model interprofessional communication and collaboration for improving individual and/or population health outcomes.

Student Learning Outcome

Model interprofessional communication and collaboration for improving individual and/or population health outcomes.

Program: Adult Gerontology Acute CareNP (MN-AGAC)

OHSU Graduation Core Competency: Communication

Communicate effectively and equitably with diverse individuals, organizations, and communities to support stakeholder decision-making and promote culturally responsive exchanges of information.

Student Learning Outcome

Use effective communications skills and technologies to provide collaborative care.

Student Learning Outcome

Use effective communications skills and technologies to provide collaborative care.

Student Learning Outcome

Use effective communications skills and technologies to provide collaborative care.

OHSU Graduation Core Competency: Community Engagement, Social Justice and Equity

Apply principles of social justice, equity, and/or anti-racism through community-engaged practice, service, or scholarship.

Student Learning Outcome

Employ advocacy strategies to influence health care policy.

Student Learning Outcome

Employ advocacy strategies to influence health care policy.

Student Learning Outcome

Employ advocacy strategies to influence health care policy.

OHSU Graduation Core Competency: Information Literacy

Recognize the power of information in educating, influencing, and understanding the world, while seeking and amplifying missing perspectives. With this lens, locate, critically evaluate, and effectively use information to participate in decision-making, quality improvement, and broader scholarly discourse.

Student Learning Outcome

Synthesize and translate relevant, current and scientific knowledge and evidence-based research finding into practice.

Student Learning Outcome

Synthesize and translate relevant, current and scientific knowledge and evidence-based research finding into practice.

OHSU Graduation Core Competency: Patient Centered Care

Clinical degree program graduates will collaborate with diverse individuals, families, and communities to provide quality trauma-informed care that is anti-racist and respectful of and responsive to preferences, needs, attitudes, beliefs, and values.

Student Learning Outcome

Demonstrate safe care of adults, including the frail elderly with regard to issues of health promotion as well as unstable chronic, complex acute and critical conditions.

Student Learning Outcome

Demonstrate safe care of adults, including the frail elderly with regard to issues of health promotion as well as unstable chronic, complex acute and critical conditions.

Student Learning Outcome

Demonstrate safe care of adults, including the frail elderly with regard to issues of health promotion as well as unstable chronic, complex acute and critical conditions.

Student Learning Outcome

Demonstrate safe care of adults, including the frail elderly with regard to issues of health promotion as well as unstable chronic, complex acute and critical conditions.

Student Learning Outcome

Demonstrate safe care of adults, including the frail elderly with regard to issues of health promotion as well as unstable chronic, complex acute and critical conditions.

Student Learning Outcome

Demonstrate safe care of adults, including the frail elderly with regard to issues of health promotion as well as unstable chronic, complex acute and critical conditions.

OHSU Graduation Core Competency: Professional Identity and Ethical Behavior

Demonstrate discipline-specific behaviors, norms, and ethics while also recognizing and challenging racist professional expectations which can cause undue burden and/or deny the full humanity of ourselves, our peers, and our patients.

Student Learning Outcome

Provide individualized, culturally sensitive management using quality improvement strategies where applicable.

Student Learning Outcome

Make sound, culturally appropriate and ethically grounded clinical judgments based on critical analysis of best available evidence.

Student Learning Outcome

Make sound, culturally appropriate and ethically grounded clinical judgments based on critical analysis of best available evidence.

Student Learning Outcome

Make sound, culturally appropriate and ethically grounded clinical judgments based on critical analysis of best available evidence.

Student Learning Outcome

Make sound, culturally appropriate and ethically grounded clinical judgments based on critical analysis of best available evidence.

Student Learning Outcome

Provide individualized, culturally sensitive management using quality improvement strategies where applicable.

Student Learning Outcome

Make sound, culturally appropriate and ethically grounded clinical judgments based on critical analysis of best available evidence.

Student Learning Outcome

Make sound, culturally appropriate and ethically grounded clinical judgments based on critical analysis of best available evidence.

Student Learning Outcome

Make sound, culturally appropriate and ethically grounded clinical judgments based on critical analysis of best available evidence.

OHSU Graduation Core Competency: Professional Knowledge and Skills

Demonstrate core knowledge, skills, and practices as defined by the discipline, professional licensing, or accreditation organization while being open to new perspectives, additional voices, and changes in schools of thought that impact the core knowledge, skills, and practices in the discipline.

Student Learning Outcome

Apply advanced knowledge in the science of a specialty area of advanced nursing practice.

Student Learning Outcome

Demonstrate the leadership skills that are essential for influencing policy and organizational systems for improving patient outcomes.

Student Learning Outcome

Apply advanced knowledge in the science of a specialty area of advanced nursing practice.

Student Learning Outcome

Apply advanced knowledge in the science of a specialty area of advanced nursing practice.

Student Learning Outcome

Demonstrate the leadership skills that are essential for influencing policy and organizational systems for improving patient outcomes.

Student Learning Outcome

Apply advanced knowledge in the science of a specialty area of advanced nursing practice.

Student Learning Outcome

Apply advanced knowledge in the science of a specialty area of advanced nursing practice.

Student Learning Outcome

Demonstrate the leadership skills that are essential for influencing policy and organizational systems for improving patient outcomes.

Student Learning Outcome

Apply advanced knowledge in the science of a specialty area of advanced nursing practice.

Student Learning Outcome

Apply advanced knowledge in the science of a specialty area of advanced nursing practice.

Student Learning Outcome

Apply advanced knowledge in the science of a specialty area of advanced nursing practice.

OHSU Graduation Core Competency: Teamwork

Work effectively within collaborative, team- or teaming-based interprofessional environments while acknowledging positionality and intentionally making space for diverse perspectives.

Student Learning Outcome

Integrate professional leadership skills in the delivery of care.

Student Learning Outcome

Integrate professional leadership skills in the delivery of care.

Program: Family Nurse Practitioner (DNP-FNP)

OHSU Graduation Core Competency: Communication

Communicate effectively and equitably with diverse individuals, organizations, and communities to support stakeholder decision-making and promote culturally responsive exchanges of information.

Student Learning Outcome

Demonstrate professional behaviors in oral and written forms and establish collaborative relationships.

Student Learning Outcome

Demonstrate professional behaviors in oral and written forms and establish collaborative relationships.

Student Learning Outcome

Demonstrate professional behaviors in oral and written forms and establish collaborative relationships.

Student Learning Outcome

Demonstrate professional behaviors in oral and written forms and establish collaborative relationships.

Student Learning Outcome

Demonstrate professional behaviors in oral and written forms and establish collaborative relationships.

Student Learning Outcome

Demonstrate professional behaviors in oral and written forms and establish collaborative relationships.

Student Learning Outcome

Demonstrate professional behaviors in oral and written forms and establish collaborative relationships.

Student Learning Outcome

Demonstrate professional behaviors in oral and written forms and establish collaborative relationships.

Student Learning Outcome

Demonstrate professional behaviors in oral and written forms and establish collaborative relationships.

OHSU Graduation Core Competency: Community Engagement, Social Justice and Equity

Apply principles of social justice, equity, and/or anti-racism through community-engaged practice, service, or scholarship.

Student Learning Outcome

Assess and intervene to promote wellness and prevent disease.

Student Learning Outcome

Assess and intervene to promote wellness and prevent disease.

Student Learning Outcome

Assess and intervene to promote wellness and prevent disease.

Student Learning Outcome

Assess and intervene to promote wellness and prevent disease.

Student Learning Outcome

Assess and intervene to promote wellness and prevent disease.

Student Learning Outcome

Assess and intervene to promote wellness and prevent disease.

Student Learning Outcome

Assess and intervene to promote wellness and prevent disease.

Student Learning Outcome

Assess and intervene to promote wellness and prevent disease.

OHSU Graduation Core Competency: Information Literacy

Recognize the power of information in educating, influencing, and understanding the world, while seeking and amplifying missing perspectives. With this lens, locate, critically evaluate, and effectively use information to participate in decision-making, quality improvement, and broader scholarly discourse.

Student Learning Outcome

Evaluate emerging healthcare systems and policy that influence delivery of cost effective patient care.

Student Learning Outcome

Evaluate emerging healthcare systems and policy that influence delivery of cost effective patient care.

Student Learning Outcome

Generate entry level practice scholarship through the completion of a clinical practice improvement project based on the principles of improvement science.

Student Learning Outcome

Generate entry level practice scholarship through the completion of a clinical practice improvement project based on the principles of improvement science.

Student Learning Outcome

Generate entry level practice scholarship through the completion of a clinical practice improvement project based on the principles of improvement science.

OHSU Graduation Core Competency: Patient Centered Care

Clinical degree program graduates will collaborate with diverse individuals, families, and communities to provide quality trauma-informed care that is anti-racist and respectful of and responsive to preferences, needs, attitudes, beliefs, and values.

Student Learning Outcome

Demonstrate readiness to enter clinical practice via specialty competencies with the appropriate scientific knowledge, and considerations for its application to practice.

Student Learning Outcome

Demonstrate readiness to enter clinical practice via specialty competencies with the appropriate scientific knowledge, and considerations for its application to practice.

Student Learning Outcome

Demonstrate readiness to enter clinical practice via specialty competencies with the appropriate scientific knowledge, and considerations for its application to practice.

OHSU Graduation Core Competency: Professional Identity and Ethical Behavior

Demonstrate discipline-specific behaviors, norms, and ethics while also recognizing and challenging racist professional expectations which can cause undue burden and/or deny the full humanity of ourselves, our peers, and our patients.

Student Learning Outcome

Apply ethical principles along with the standards of professional conduct to clinical care, research, and education.

Student Learning Outcome

Apply ethical principles along with the standards of professional conduct to clinical care, research, and education.

OHSU Graduation Core Competency: Professional Knowledge and Skills

Demonstrate core knowledge, skills, and practices as defined by the discipline, professional licensing, or accreditation organization while being open to new perspectives, additional voices, and changes in schools of thought that impact the core knowledge, skills, and practices in the discipline.

Student Learning Outcome

Demonstrate critical thinking and diagnostic management and reasoning skills in the process of clinical decision-making within the scope of FNP practice.

Student Learning Outcome

Demonstrate critical thinking and diagnostic management and reasoning skills in the process of clinical decision-making within the scope of FNP practice.

Student Learning Outcome

Demonstrate critical thinking and diagnostic management and reasoning skills in the process of clinical decision-making within the scope of FNP practice.

Student Learning Outcome

Demonstrate critical thinking and diagnostic management and reasoning skills in the process of clinical decision-making within the scope of FNP practice.

Student Learning Outcome

Demonstrate critical thinking and diagnostic management and reasoning skills in the process of clinical decision-making within the scope of FNP practice.

Student Learning Outcome

Demonstrate critical thinking and diagnostic management and reasoning skills in the process of clinical decision-making within the scope of FNP practice.

Student Learning Outcome

Identify and address gaps in professional knowledge and experience through ongoing reflection to support the principle of life-long learning.

Student Learning Outcome

Identify and address gaps in professional knowledge and experience through ongoing reflection to support the principle of life-long learning.

Student Learning Outcome

Identify and address gaps in professional knowledge and experience through ongoing reflection to support the principle of life-long learning.

Student Learning Outcome

Identify and address gaps in professional knowledge and experience through ongoing reflection to support the principle of life-long learning.

Student Learning Outcome

Identify and address gaps in professional knowledge and experience through ongoing reflection to support the principle of life-long learning.

OHSU Graduation Core Competency: Teamwork

Work effectively within collaborative, team- or teaming-based interprofessional environments while acknowledging positionality and intentionally making space for diverse perspectives.

Student Learning Outcome

Model interprofessional communication and collaboration for improving individual and/or population health outcomes.

Student Learning Outcome

Model interprofessional communication and collaboration for improving individual and/or population health outcomes.

Student Learning Outcome

Model interprofessional communication and collaboration for improving individual and/or population health outcomes.

Student Learning Outcome

Model interprofessional communication and collaboration for improving individual and/or population health outcomes.

Program: Family Nurse Practitioner (MN-FNP)

OHSU Graduation Core Competency: Communication

Communicate effectively and equitably with diverse individuals, organizations, and communities to support stakeholder decision-making and promote culturally responsive exchanges of information.

Student Learning Outcome

Demonstrate professional behaviors in oral and written forms and establish collaborative relationships.

Student Learning Outcome

Demonstrate professional behaviors in oral and written forms and establish collaborative relationships.

Student Learning Outcome

Demonstrate professional behaviors in oral and written forms and establish collaborative relationships.

Student Learning Outcome

Demonstrate professional behaviors in oral and written forms and establish collaborative relationships.

Student Learning Outcome

Demonstrate professional behaviors in oral and written forms and establish collaborative relationships.

Student Learning Outcome

Demonstrate professional behaviors in oral and written forms and establish collaborative relationships.

Student Learning Outcome

Demonstrate professional behaviors in oral and written forms and establish collaborative relationships.

Student Learning Outcome

Demonstrate professional behaviors in oral and written forms and establish collaborative relationships.

Student Learning Outcome

Demonstrate professional behaviors in oral and written forms and establish collaborative relationships.

OHSU Graduation Core Competency: Community Engagement, Social Justice and Equity

Apply principles of social justice, equity, and/or anti-racism through community-engaged practice, service, or scholarship.

Student Learning Outcome

Assess and intervene to promote wellness and prevent disease.

Student Learning Outcome

Assess and intervene to promote wellness and prevent disease.

Student Learning Outcome

Make sound, culturally appropriate and ethically grounded clinical judgments based on critical analysis of the best available evidence.

Student Learning Outcome

Make sound, culturally appropriate and ethically grounded clinical judgments based on critical analysis of the best available evidence.

OHSU Graduation Core Competency: Professional Knowledge and Skills

Demonstrate core knowledge, skills, and practices as defined by the discipline, professional licensing, or accreditation organization while being open to new perspectives, additional voices, and changes in schools of thought that impact the core knowledge, skills, and practices in the discipline.

Student Learning Outcome

Demonstrate readiness to enter clinical practice via specialty competencies with the appropriate scientific knowledge, and considerations for its application to practice.

Student Learning Outcome

Demonstrate readiness to enter clinical practice via specialty competencies with the appropriate scientific knowledge, and considerations for its application to practice.

Student Learning Outcome

Demonstrate readiness to enter clinical practice via specialty competencies with the appropriate scientific knowledge, and considerations for its application to practice.

Student Learning Outcome

Demonstrate readiness to enter clinical practice via specialty competencies with the appropriate scientific knowledge, and considerations for its application to practice.

Student Learning Outcome

Demonstrate readiness to enter clinical practice via specialty competencies with the appropriate scientific knowledge, and considerations for its application to practice.

Student Learning Outcome

Demonstrate readiness to enter clinical practice via specialty competencies with the appropriate scientific knowledge, and considerations for its application to practice.

Student Learning Outcome

Demonstrate critical thinking with diagnostic, management and reasoning skills in the process of clinical decision-making within the scope of FNP practice.

Student Learning Outcome

Demonstrate readiness to enter clinical practice via specialty competencies with the appropriate scientific knowledge, and considerations for its application to practice.

Student Learning Outcome

Demonstrate readiness to enter clinical practice via specialty competencies with the appropriate scientific knowledge, and considerations for its application to practice.

Student Learning Outcome

Demonstrate critical thinking with diagnostic, management and reasoning skills in the process of clinical decision-making within the scope of FNP practice.

Student Learning Outcome

Demonstrate critical thinking with diagnostic, management and reasoning skills in the process of clinical decision-making within the scope of FNP practice.

Student Learning Outcome

Demonstrate critical thinking with diagnostic, management and reasoning skills in the process of clinical decision-making within the scope of FNP practice.

Student Learning Outcome

Demonstrate critical thinking with diagnostic, management and reasoning skills in the process of clinical decision-making within the scope of FNP practice.

Student Learning Outcome

Demonstrate critical thinking with diagnostic, management and reasoning skills in the process of clinical decision-making within the scope of FNP practice.

Student Learning Outcome

Demonstrate critical thinking with diagnostic, management and reasoning skills in the process of clinical decision-making within the scope of FNP practice.

Student Learning Outcome

Demonstrate critical thinking with diagnostic, management and reasoning skills in the process of clinical decision-making within the scope of FNP practice.

Student Learning Outcome

Demonstrate critical thinking with diagnostic, management and reasoning skills in the process of clinical decision-making within the scope of FNP practice.

Student Learning Outcome

Demonstrate critical thinking with diagnostic, management and reasoning skills in the process of clinical decision-making within the scope of FNP practice.

OHSU Graduation Core Competency: Teamwork

Work effectively within collaborative, team- or teaming-based interprofessional environments while acknowledging positionality and intentionally making space for diverse perspectives.

Student Learning Outcome

Demonstrate the leadership skills that are essential for influencing policy and organizational systems for improving patient outcomes.

Student Learning Outcome

Demonstrate the leadership skills that are essential for influencing policy and organizational systems for improving patient outcomes.

Student Learning Outcome

Demonstrate the leadership skills that are essential for influencing policy and organizational systems for improving patient outcomes.

Program: Health System Org Leadership (MN-HSOL)

OHSU Graduation Core Competency: Communication

Communicate effectively and equitably with diverse individuals, organizations, and communities to support stakeholder decision-making and promote culturally responsive exchanges of information.

Student Learning Outcome

Integrate nursing and health systems knowledge in leading and advocating for the design, implementation, and improvement of sustainable person-center practice models.

Student Learning Outcome

Integrate nursing and health systems knowledge in leading and advocating for the design, implementation, and improvement of sustainable person-center practice models.

OHSU Graduation Core Competency: Information Literacy

Recognize the power of information in educating, influencing, and understanding the world, while seeking and amplifying missing perspectives. With this lens, locate, critically evaluate, and effectively use information to participate in decision-making, quality improvement, and broader scholarly discourse.

Student Learning Outcome

Use emerging information and health technologies to access current research and health care data to improve patient care.

OHSU Graduation Core Competency: Professional Identity and Ethical Behavior

Demonstrate discipline-specific behaviors, norms, and ethics while also recognizing and challenging racist professional expectations which can cause undue burden and/or deny the full humanity of ourselves, our peers, and our patients.

Student Learning Outcome

Make sound, culturally appropriate and ethically grounded clinical judgments based on critical analysis of the best available evidence.

Student Learning Outcome

Use information, quality science, and knowledge management tools to make sound and ethical decisions that advance interprofessional and collaborative health services practice.

Student Learning Outcome

Use information, quality science, and knowledge management tools to make sound and ethical decisions that advance interprofessional and collaborative health services practice.

OHSU Graduation Core Competency: Professional Knowledge and Skills

Demonstrate core knowledge, skills, and practices as defined by the discipline, professional licensing, or accreditation organization while being open to new perspectives, additional voices, and changes in schools of thought that impact the core knowledge, skills, and practices in the discipline.

Student Learning Outcome

Apply advanced knowledge in the science of a specialty area of advanced nursing practice.

Student Learning Outcome

Maximize the use of human capital to impact clinical care, quality outcomes, and evidence-based policies within complex adaptive health systems.

Student Learning Outcome

Maximize the use of human capital to impact clinical care, quality outcomes, and evidence-based policies within complex adaptive health systems.

Student Learning Outcome

Apply advanced knowledge of nursing and health systems theories to positively impact organizational, care delivery and policy outcomes at a population level.

Student Learning Outcome

Apply advanced knowledge in the science of a specialty area of advanced nursing practice.

OHSU Graduation Core Competency: Teamwork

Work effectively within collaborative, team- or teaming-based interprofessional environments while acknowledging positionality and intentionally making space for diverse perspectives.

Student Learning Outcome

Demonstrate the leadership skills that are essential for influencing policy and organizational systems for improving patient outcomes.

Student Learning Outcome

Demonstrate the leadership skills that are essential for influencing policy and organizational systems for improving patient outcomes.

Program: Health System Org Leadership (PMC-HSOL)

OHSU Graduation Core Competency: Communication

Communicate effectively and equitably with diverse individuals, organizations, and communities to support stakeholder decision-making and promote culturally responsive exchanges of information.

Student Learning Outcome

Integrate nursing and health systems knowledge in leading and advocating for the design, implementation, and improvement of sustainable person-center practice models.

Student Learning Outcome

Integrate nursing and health systems knowledge in leading and advocating for the design, implementation, and improvement of sustainable person-center practice models.

OHSU Graduation Core Competency: Information Literacy

Recognize the power of information in educating, influencing, and understanding the world, while seeking and amplifying missing perspectives. With this lens, locate, critically evaluate, and effectively use information to participate in decision-making, quality improvement, and broader scholarly discourse.

Student Learning Outcome

Use information, quality science, and knowledge management tools to make sound and ethical decisions that advance interprofessional and collaborative health services practice.

Student Learning Outcome

Use information, quality science, and knowledge management tools to make sound and ethical decisions that advance interprofessional and collaborative health services practice.

OHSU Graduation Core Competency: Professional Knowledge and Skills

Demonstrate core knowledge, skills, and practices as defined by the discipline, professional licensing, or accreditation organization while being open to new perspectives, additional voices, and changes in schools of thought that impact the core knowledge, skills, and practices in the discipline.

Student Learning Outcome

Apply advanced knowledge of nursing and health systems theories to positively impact organizational, care delivery and policy outcomes at a population level.

Student Learning Outcome

Maximize the use of human capital to impact clinical care, quality outcomes, and evidence-based policies within complex adaptive health systems

Student Learning Outcome

Maximize the use of human capital to impact clinical care, quality outcomes, and evidence-based policies within complex adaptive health systems

Program: Nurse Anesthesia (DNP-NANE)

OHSU Graduation Core Competency: Communication

Communicate effectively and equitably with diverse individuals, organizations, and communities to support stakeholder decision-making and promote culturally responsive exchanges of information.

Student Learning Outcome

Facilitate collaborative relationships with patients, families, healthcare partners, and the community to promote effective communication of information and enhance patient safety.

OHSU Graduation Core Competency: Community Engagement, Social Justice and Equity

Apply principles of social justice, equity, and/or anti-racism through community-engaged practice, service, or scholarship.

Student Learning Outcome

Provide patient-centered, culturally sensitive perianesthetic care based upon performance of a systematic assessment of the patient's condition, and formulation of a comprehensive anesthesia plan.

OHSU Graduation Core Competency: Information Literacy

Recognize the power of information in educating, influencing, and understanding the world, while seeking and amplifying missing perspectives. With this lens, locate, critically evaluate, and effectively use information to participate in decision-making, quality improvement, and broader scholarly discourse.

Student Learning Outcome

Conduct a systematic evaluation of evidence from current scientific literature as a basis for informed nurse anesthesia practice.

Student Learning Outcome

Evaluate emerging healthcare systems and policy that influence delivery of cost effective patient care.

Student Learning Outcome

Evaluate emerging healthcare systems and policy that influence delivery of cost effective patient care.

OHSU Graduation Core Competency: Patient Centered Care

Clinical degree program graduates will collaborate with diverse individuals, families, and communities to provide quality trauma-informed care that is anti-racist and respectful of and responsive to preferences, needs, attitudes, beliefs, and values.

Student Learning Outcome

Exhibit and appraise safe, vigilant care to patients across the lifespan, with an emphasis on continual quality improvement throughout the perianesthetic period.

Student Learning Outcome

Exhibit and appraise safe, vigilant care to patients across the lifespan, with an emphasis on continual quality improvement throughout the perianesthetic period.

OHSU Graduation Core Competency: Professional Identity and Ethical Behavior

Demonstrate discipline-specific behaviors, norms, and ethics while also recognizing and challenging racist professional expectations which can cause undue burden and/or deny the full humanity of ourselves, our peers, and our patients.

Student Learning Outcome

Apply ethical principles along with the standards of professional conduct to clinical care, research, and education.

Student Learning Outcome

Display a commitment to professionalism by exemplifying personal integrity, adherence to ethical standards, humility, accountability and compassion in all professional activities.

Student Learning Outcome

Apply ethical principles along with the standards of professional conduct to clinical care, research, and education.

Student Learning Outcome

Apply ethical principles along with the standards of professional conduct to clinical care, research, and education.

Student Learning Outcome

Apply ethical principles along with the standards of professional conduct to clinical care, research, and education.

Student Learning Outcome

Display a commitment to professionalism by exemplifying personal integrity, adherence to ethical standards, humility, accountability and compassion in all professional activities.

Student Learning Outcome

Display a commitment to professionalism by exemplifying personal integrity, adherence to ethical standards, humility, accountability and compassion in all professional activities.

Student Learning Outcome

Apply ethical principles along with the standards of professional conduct to clinical care, research, and education.

Student Learning Outcome

Display a commitment to professionalism by exemplifying personal integrity, adherence to ethical standards, humility, accountability and compassion in all professional activities.

Student Learning Outcome

Apply ethical principles along with the standards of professional conduct to clinical care, research, and education.

OHSU Graduation Core Competency: Professional Knowledge and Skills

Demonstrate core knowledge, skills, and practices as defined by the discipline, professional licensing, or accreditation organization while being open to new perspectives, additional voices, and changes in schools of thought that impact the core knowledge, skills, and practices in the discipline.

Student Learning Outcome

Demonstrate critical thinking throughout the perianesthetic period, with an emphasis on the anticipation of and response to varying clinical conditions.

Student Learning Outcome

Demonstrate readiness to enter clinical practice via specialty competencies with the appropriate scientific knowledge, and considerations for its application to practice.

Student Learning Outcome

Demonstrate critical thinking throughout the perianesthetic period, with an emphasis on the anticipation of and response to varying clinical conditions.

Student Learning Outcome

Demonstrate readiness to enter clinical practice via specialty competencies with the appropriate scientific knowledge, and considerations for its application to practice.

Student Learning Outcome

Identify and address gaps in professional knowledge and experience through ongoing reflection to support the principle of life-long learning.

Student Learning Outcome

Identify and address gaps in professional knowledge and experience through ongoing reflection to support the principle of life-long learning.

Student Learning Outcome

Identify and address gaps in professional knowledge and experience through ongoing reflection to support the principle of life-long learning.

Student Learning Outcome

Identify and address gaps in professional knowledge and experience through ongoing reflection to support the principle of life-long learning.

Student Learning Outcome

Generate entry level practice scholarship through the completion of a clinical practice improvement project based on the principles of improvement science.

Student Learning Outcome

Generate entry level practice scholarship through the completion of a clinical practice improvement project based on the principles of improvement science.

Student Learning Outcome

Generate entry level practice scholarship through the completion of a clinical practice improvement project based on the principles of improvement science.

Student Learning Outcome

Demonstrate readiness to enter clinical practice via specialty competencies with the appropriate scientific knowledge, and considerations for its application to practice.

Student Learning Outcome

Identify and address gaps in professional knowledge and experience through ongoing reflection to support the principle of life-long learning.

OHSU Graduation Core Competency: Teamwork

Work effectively within collaborative, team- or teaming-based interprofessional environments while acknowledging positionality and intentionally making space for diverse perspectives.

Student Learning Outcome

Model interprofessional communication and collaboration for improving individual and/or population health outcomes.

Student Learning Outcome

Model interprofessional communication and collaboration for improving individual and/or population health outcomes.

Program: Nurse Anesthesia (MN-NANE)

OHSU Graduation Core Competency: Communication

Communicate effectively and equitably with diverse individuals, organizations, and communities to support stakeholder decision-making and promote culturally responsive exchanges of information.

Student Learning Outcome

Interact on a professional level with integrity using appropriate verbal, nonverbal and written communication in the delivery of perianesthetic care.

OHSU Graduation Core Competency: Community Engagement, Social Justice and Equity

Apply principles of social justice, equity, and/or anti-racism through community-engaged practice, service, or scholarship.

Student Learning Outcome

Demonstrate the leadership skills that are essential for influencing policy and organizational systems for improving patient outcomes.

OHSU Graduation Core Competency: Information Literacy

Recognize the power of information in educating, influencing, and understanding the world, while seeking and amplifying missing perspectives. With this lens, locate, critically evaluate, and effectively use information to participate in decision-making, quality improvement, and broader scholarly discourse.

Student Learning Outcome

Use emerging information and health technologies to access current research and health care data to improve patient care.

Student Learning Outcome

Use emerging information and health technologies to access current research and health care data to improve patient care.

Student Learning Outcome

Provide nurse anesthesia care based on sound principles and research evidence.

OHSU Graduation Core Competency: Patient Centered Care

Clinical degree program graduates will collaborate with diverse individuals, families, and communities to provide quality trauma-informed care that is anti-racist and respectful of and responsive to preferences, needs, attitudes, beliefs, and values.

Student Learning Outcome

Deliver safe and culturally competent anesthesia care to patients of all ages and physical conditions.

Student Learning Outcome

Deliver safe and culturally competent anesthesia care to patients of all ages and physical conditions.

OHSU Graduation Core Competency: Professional Identity and Ethical Behavior

Demonstrate discipline-specific behaviors, norms, and ethics while also recognizing and challenging racist professional expectations which can cause undue burden and/or deny the full humanity of ourselves, our peers, and our patients.

Student Learning Outcome

Make sound, culturally appropriate and ethically grounded clinical judgments based on critical analysis of the best available evidence.

Student Learning Outcome

Make sound, culturally appropriate and ethically grounded clinical judgments based on critical analysis of the best available evidence.

OHSU Graduation Core Competency: Professional Knowledge and Skills

Demonstrate core knowledge, skills, and practices as defined by the discipline, professional licensing, or accreditation organization while being open to new perspectives, additional voices, and changes in schools of thought that impact the core knowledge, skills, and practices in the discipline.

Student Learning Outcome

Develop and implement anesthesia management throughout the perianesthetic continuum using a variety of current anesthesia techniques, agents and equipment.

Student Learning Outcome

Apply knowledge to practice in decision-making and problem-solving.

Student Learning Outcome

Apply advanced knowledge in the science of a specialty area of advanced nursing practice.

Student Learning Outcome

Apply advanced knowledge in the science of a specialty area of advanced nursing practice.

Student Learning Outcome

Develop and implement anesthesia management throughout the perianesthetic continuum using a variety of current anesthesia techniques, agents and equipment.

Student Learning Outcome

Apply knowledge to practice in decision-making and problem-solving.

Program: Nurse Midwifery (DNP-NMID)

OHSU Graduation Core Competency: Communication

Communicate effectively and equitably with diverse individuals, organizations, and communities to support stakeholder decision-making and promote culturally responsive exchanges of information.

Student Learning Outcome

Apply interpersonal and communication skills to care for diverse populations of women and their families.

Student Learning Outcome

5.Model interprofessional communication and collaboration to improve individual and/or population health outcomes

Student Learning Outcome

5.Model interprofessional communication and collaboration to improve individual and/or population health outcomes

Student Learning Outcome

5.Model interprofessional communication and collaboration to improve individual and/or population health outcomes

Student Learning Outcome

5.Model interprofessional communication and collaboration to improve individual and/or population health outcomes

Student Learning Outcome

5.Model interprofessional communication and collaboration to improve individual and/or population health outcomes

OHSU Graduation Core Competency: Community Engagement, Social Justice and Equity

Apply principles of social justice, equity, and/or anti-racism through community-engaged practice, service, or scholarship.

Student Learning Outcome

Generate entry level practice scholarship through the completion of a clinical practice improvement project based on the principles of improvement science.

Student Learning Outcome

Generate entry level practice scholarship through the completion of a clinical practice improvement project based on the principles of improvement science.

OHSU Graduation Core Competency: Information Literacy

Recognize the power of information in educating, influencing, and understanding the world, while seeking and amplifying missing perspectives. With this lens, locate, critically evaluate, and effectively use information to participate in decision-making, quality improvement, and broader scholarly discourse.

Student Learning Outcome

Evaluate emerging healthcare systems and policy that influence delivery of cost effective patient care.

Student Learning Outcome

Evaluate, utilize, interpret, and collaborate in research.

OHSU Graduation Core Competency: Patient Centered Care

Clinical degree program graduates will collaborate with diverse individuals, families, and communities to provide quality trauma-informed care that is anti-racist and respectful of and responsive to preferences, needs, attitudes, beliefs, and values.

Student Learning Outcome

Demonstrate the independent management of the care of the well newborn during the first 28 days of life.

Student Learning Outcome

Demonstrate the independent management of primary health screening and health promotion of women from the perimenarcheal through post-menopausal periods.

Student Learning Outcome

Demonstrate the independent management of women during pregnancy, childbirth, and the post partum period.

Student Learning Outcome

Demonstrate the independent management of women during pregnancy, childbirth, and the post partum period.

Student Learning Outcome

Demonstrate the independent management of the care of the well newborn during the first 28 days of life.

Student Learning Outcome

Demonstrate the independent management of women during pregnancy, childbirth, and the post partum period.

Student Learning Outcome

Demonstrate the independent management of women during pregnancy, childbirth, and the post partum period.

Student Learning Outcome

Demonstrate the independent management of women during pregnancy, childbirth, and the post partum period.

Student Learning Outcome

Demonstrate the independent management of primary health screening and health promotion of women from the perimenarcheal through post-menopausal periods.

Student Learning Outcome

Demonstrate the independent management of primary health screening and health promotion of women from the perimenarcheal through post-menopausal periods.

Student Learning Outcome

Demonstrate the independent management of primary health screening and health promotion of women from the perimenarcheal through post-menopausal periods.

Student Learning Outcome

Demonstrate the independent management of primary health screening and health promotion of women from the perimenarcheal through post-menopausal periods.

Student Learning Outcome

Demonstrate the independent management of women during pregnancy, childbirth, and the post partum period.

Student Learning Outcome

Demonstrate the independent management of the care of the well newborn during the first 28 days of life.

Student Learning Outcome

Demonstrate the independent management of the care of the well newborn during the first 28 days of life.

Student Learning Outcome

Demonstrate the independent management of the care of the well newborn during the first 28 days of life.

OHSU Graduation Core Competency: Professional Identity and Ethical Behavior

Demonstrate discipline-specific behaviors, norms, and ethics while also recognizing and challenging racist professional expectations which can cause undue burden and/or deny the full humanity of ourselves, our peers, and our patients.

Student Learning Outcome

Apply ethical principles along with the standards of professional conduct to clinical care, research, and education.

Student Learning Outcome

Apply ethical principles along with the standards of professional conduct to clinical care, research, and education.

Student Learning Outcome

Apply ethical principles along with the standards of professional conduct to clinical care, research, and education.

Student Learning Outcome

Apply ethical principles along with the standards of professional conduct to clinical care, research, and education.

Student Learning Outcome

Apply ethical principles along with the standards of professional conduct to clinical care, research, and education.

OHSU Graduation Core Competency: Professional Knowledge and Skills

Demonstrate core knowledge, skills, and practices as defined by the discipline, professional licensing, or accreditation organization while being open to new perspectives, additional voices, and changes in schools of thought that impact the core knowledge, skills, and practices in the discipline.

Student Learning Outcome

Identify and address gaps in professional knowledge and experience through ongoing reflection to support the principle of life-long learning.

Student Learning Outcome

Demonstrate readiness to enter clinical practice via specialty competencies with the appropriate scientific knowledge, and considerations for its application to practice.

Student Learning Outcome

Demonstrate readiness to enter clinical practice via specialty competencies with the appropriate scientific knowledge, and considerations for its application to practice.

Student Learning Outcome

Demonstrate readiness to enter clinical practice via specialty competencies with the appropriate scientific knowledge, and considerations for its application to practice.

Student Learning Outcome

Demonstrate an understanding of the concepts of health care principles and a familiarity with the American College of Nurse-Midwives (ACNM) Standards for the Practice of Midwifery and the ACNM Code of Ethics.

Student Learning Outcome

Identify and address gaps in professional knowledge and experience through ongoing reflection to support the principle of life-long learning.

Student Learning Outcome

Identify and address gaps in professional knowledge and experience through ongoing reflection to support the principle of life-long learning.

Student Learning Outcome

Identify and address gaps in professional knowledge and experience through ongoing reflection to support the principle of life-long learning.

Student Learning Outcome

Demonstrate the independent management of primary health screening and health promotion of women from the perimenarcheal through post-menopausal periods.

Student Learning Outcome

Demonstrate critical thinking and clinical judgment in the practice of clinical midwifery.

Student Learning Outcome

Demonstrate development of leadership skills directed toward representation of the midwifery model of care in clinical practice, health policy, education, and scholarship.

Student Learning Outcome

Identify and address gaps in professional knowledge and experience through ongoing reflection to support the principle of life-long learning.

OHSU Graduation Core Competency: Teamwork

Work effectively within collaborative, team- or teaming-based interprofessional environments while acknowledging positionality and intentionally making space for diverse perspectives.

Student Learning Outcome

Demonstrate professional accountability through collaborative communication in the provision of midwifery care to women and their families.

Program: Nurse Midwifery (MN-NMID)

OHSU Graduation Core Competency: Communication

Communicate effectively and equitably with diverse individuals, organizations, and communities to support stakeholder decision-making and promote culturally responsive exchanges of information.

Student Learning Outcome

Apply interpersonal and communication skills to care for diverse populations of women and their families.

OHSU Graduation Core Competency: Community Engagement, Social Justice and Equity

Apply principles of social justice, equity, and/or anti-racism through community-engaged practice, service, or scholarship.

Student Learning Outcome

Demonstrate the leadership skills that are essential for influencing policy and organizational systems for improving patient outcomes.

OHSU Graduation Core Competency: Information Literacy

Recognize the power of information in educating, influencing, and understanding the world, while seeking and amplifying missing perspectives. With this lens, locate, critically evaluate, and effectively use information to participate in decision-making, quality improvement, and broader scholarly discourse.

Student Learning Outcome

Evaluate, utilize, interpret, and collaborate in research.

OHSU Graduation Core Competency: Patient Centered Care

Clinical degree program graduates will collaborate with diverse individuals, families, and communities to provide quality trauma-informed care that is anti-racist and respectful of and responsive to preferences, needs, attitudes, beliefs, and values.

Student Learning Outcome

Use emerging information and health technologies to access current research and health care data to improve patient care.

OHSU Graduation Core Competency: Professional Identity and Ethical Behavior

Demonstrate discipline-specific behaviors, norms, and ethics while also recognizing and challenging racist professional expectations which can cause undue burden and/or deny the full humanity of ourselves, our peers, and our patients.

Student Learning Outcome

Make sound, culturally appropriate and ethically grounded clinical judgments based on critical analysis of the best available evidence.

OHSU Graduation Core Competency: Professional Knowledge and Skills

Demonstrate core knowledge, skills, and practices as defined by the discipline, professional licensing, or accreditation organization while being open to new perspectives, additional voices, and changes in schools of thought that impact the core knowledge, skills, and practices in the discipline.

Student Learning Outcome

Demonstrate critical thinking and clinical judgment in the practice of clinical midwifery.

Student Learning Outcome

Demonstrate the independent management of women during pregnancy, childbirth, and the post partum period.

Student Learning Outcome

Demonstrate the independent management of the care of the well newborn during the first 28 days of life.

Student Learning Outcome

Demonstrate development of leadership skills directed toward representation of the midwifery model of care in clinical practice, health policy, education, and scholarship.

Student Learning Outcome

Demonstrate an understanding of the concepts of health care principles and a familiarity with the American College of Nurse-Midwives (ACNM) Standards for the Practice of Midwifery and the ACNM Code of Ethics.

Student Learning Outcome

Apply advanced knowledge in the science of a specialty area of advanced nursing practice.

Student Learning Outcome

Demonstrate the independent management of primary health screening and health promotion of women from the perimenarcheal through post-menopausal periods.

OHSU Graduation Core Competency: Teamwork

Work effectively within collaborative, team- or teaming-based interprofessional environments while acknowledging positionality and intentionally making space for diverse perspectives.

Student Learning Outcome

Demonstrate professional accountability through collaborative communication in the provision of midwifery care to women and their families.

Program: Nursing (BS-NURS)

OHSU Graduation Core Competency: Communication

Communicate effectively and equitably with diverse individuals, organizations, and communities to support stakeholder decision-making and promote culturally responsive exchanges of information.

Student Learning Outcome

A competent nurse communicates effectively.

Student Learning Outcome

A competent nurse demonstrates leadership in nursing and health care.

Identify and address gaps in professional knowledge through ongoing reflection to support the principle of life-long learning.

Student Learning Outcome

Identify and address gaps in professional knowledge through ongoing reflection to support the principle of life-long learning.

Student Learning Outcome

Identify and address gaps in professional knowledge through ongoing reflection to support the principle of life-long learning.

OHSU Graduation Core Competency: Teamwork

Work effectively within collaborative, team- or teaming-based interprofessional environments while acknowledging positionality and intentionally making space for diverse perspectives.

Student Learning Outcome

Model interprofessional communication and collaboration to improve individual and/or population health outcomes.

Student Learning Outcome

Model interprofessional communication and collaboration to improve individual and/or population health outcomes.

Program: Nursing (PHD-NURS)

OHSU Graduation Core Competency: Communication

Communicate effectively and equitably with diverse individuals, organizations, and communities to support stakeholder decision-making and promote culturally responsive exchanges of information.

Student Learning Outcome

Disseminate research findings to scientific, professional, and lay audiences to influence nursing practice, policy, and profession

Student Learning Outcome

Demonstrate skills to educate and mentor the next generation of nursing scholars

Student Learning Outcome

Demonstrate skills to educate and mentor the next generation of nursing scholars

OHSU Graduation Core Competency: Community Engagement, Social Justice and Equity

Apply principles of social justice, equity, and/or anti-racism through community-engaged practice, service, or scholarship.

Student Learning Outcome

Demonstrate leadership skill to conduct culturally competent scholarship with interprofessional teams

OHSU Graduation Core Competency: Information Literacy

Recognize the power of information in educating, influencing, and understanding the world, while seeking and amplifying missing perspectives. With this lens, locate, critically evaluate, and effectively use information to participate in decision-making, quality improvement, and broader scholarly discourse.

Student Learning Outcome

Design and conduct research to create new knowledge to advance the field of nursing and nursing science

Student Learning Outcome

Design and conduct research to create new knowledge to advance the field of nursing and nursing science

Student Learning Outcome

Design and conduct research to create new knowledge to advance the field of nursing and nursing science

OHSU Graduation Core Competency: Professional Identity and Ethical Behavior

Demonstrate discipline-specific behaviors, norms, and ethics while also recognizing and challenging racist professional expectations which can cause undue burden and/or deny the full humanity of ourselves, our peers, and our patients.

Student Learning Outcome

Apply professional and research ethics in the conduct of research

Student Learning Outcome

Apply professional and research ethics in the conduct of research

Student Learning Outcome

Apply professional and research ethics in the conduct of research

OHSU Graduation Core Competency: Professional Knowledge and Skills

Demonstrate core knowledge, skills, and practices as defined by the discipline, professional licensing, or accreditation organization while being open to new perspectives, additional voices, and changes in schools of thought that impact the core knowledge, skills, and practices in the discipline.

Student Learning Outcome

Appraise the philosophical underpinnings of science

Student Learning Outcome

Appraise the philosophical underpinnings of science

Student Learning Outcome

Examine and synthesize existing knowledge and different scientific perspectives to advance nursing science

Student Learning Outcome

Interpret the components of scholarship to research, teaching, and services to advance nursing discipline

Student Learning Outcome

Demonstrate skills to educate and mentor the next generation of nursing scholars

Student Learning Outcome

Appraise the philosophical underpinnings of science

OHSU Graduation Core Competency: Teamwork

Work effectively within collaborative, team- or teaming-based interprofessional environments while acknowledging positionality and intentionally making space for diverse perspectives.

Student Learning Outcome

Demonstrate leadership skill to conduct culturally competent scholarship with interprofessional teams

Student Learning Outcome

Demonstrate leadership skill to conduct culturally competent scholarship with interprofessional teams

Program: Nursing BS Ashland

OHSU Graduation Core Competency: Communication

Communicate effectively and equitably with diverse individuals, organizations, and communities to support stakeholder decision-making and promote culturally responsive exchanges of information.

Student Learning Outcome

A competent nurse communicates effectively.

Student Learning Outcome

A competent nurse demonstrates leadership in nursing and health care.

OHSU Graduation Core Competency: Community Engagement, Social Justice and Equity

Apply principles of social justice, equity, and/or anti-racism through community-engaged practice, service, or scholarship.

Student Learning Outcome

A competent nurse practices within, utilizes, and contributes to the broader health care system.

Student Learning Outcome

A competent nurse practices within, utilizes, and contributes to the broader health care system.

A competent nurse bases personal and professional actions on a set of shared core nursing values.

Student Learning Outcome

A competent nurse bases personal and professional actions on a set of shared core nursing values.

OHSU Graduation Core Competency: Professional Knowledge and Skills

Demonstrate core knowledge, skills, and practices as defined by the discipline, professional licensing, or accreditation organization while being open to new perspectives, additional voices, and changes in schools of thought that impact the core knowledge, skills, and practices in the discipline.

Student Learning Outcome

A competent nurse makes sound clinical judgments.

Student Learning Outcome

A competent nurse, in making practice decisions, locates, evaluates and uses the best available evidence.

Student Learning Outcome

A competent nurse, in making practice decisions, locates, evaluates and uses the best available evidence.

Student Learning Outcome

A competent nurse makes sound clinical judgments.

OHSU Graduation Core Competency: Teamwork

Work effectively within collaborative, team- or teaming-based interprofessional environments while acknowledging positionality and intentionally making space for diverse perspectives.

Student Learning Outcome

A competent nurse collaborates as part of a health care team.

Student Learning Outcome

A competent nurse collaborates as part of a health care team.

Student Learning Outcome

A competent nurse collaborates as part of a health care team.

Program: Nursing Education (MN-NEDU)

OHSU Graduation Core Competency: Communication

Communicate effectively and equitably with diverse individuals, organizations, and communities to support stakeholder decision-making and promote culturally responsive exchanges of information.

Student Learning Outcome

Use written and observational methods to assess learning and provide feedback to assist learner attainment of competencies

OHSU Graduation Core Competency: Community Engagement, Social Justice and Equity

Apply principles of social justice, equity, and/or anti-racism through community-engaged practice, service, or scholarship.

Student Learning Outcome

Facilitate learning related to central nursing competencies including: evidence-based practice, clinical judgment, cultural humility, ethical reasoning and quality improvement

Student Learning Outcome

Facilitate learning related to central nursing competencies including: evidence-based practice, clinical judgment, cultural humility, ethical reasoning and quality improvement

Student Learning Outcome

Recognize individual variations in learning styles and cultural understandings and incorporate this assessment into instructional planning

Student Learning Outcome

Determine competencies for selected learner groups, written at appropriate level of achievement and relevant for the specialty

OHSU Graduation Core Competency: Information Literacy

Recognize the power of information in educating, influencing, and understanding the world, while seeking and amplifying missing perspectives. With this lens, locate, critically evaluate, and effectively use information to participate in decision-making, quality improvement, and broader scholarly discourse.

Student Learning Outcome

Use emerging information technologies to access current research & health care data.

Student Learning Outcome

Incorporate emerging technologies into educational practice

Student Learning Outcome

Use emerging information technologies to access current research & health care data.

OHSU Graduation Core Competency: Professional Identity and Ethical Behavior

Demonstrate discipline-specific behaviors, norms, and ethics while also recognizing and challenging racist professional expectations which can cause undue burden and/or deny the full humanity of ourselves, our peers, and our patients.

Student Learning Outcome

Participate in curriculum development, program evaluation and quality improvement activities

Student Learning Outcome

Make sound and ethically grounded clinical judgments, drawing on best available evidence.

Student Learning Outcome

Make sound and ethically grounded clinical judgments, drawing on best available evidence.

OHSU Graduation Core Competency: Professional Knowledge and Skills

Demonstrate core knowledge, skills, and practices as defined by the discipline, professional licensing, or accreditation organization while being open to new perspectives, additional voices, and changes in schools of thought that impact the core knowledge, skills, and practices in the discipline.

Student Learning Outcome

Demonstrate competence as a nurse educator based upon National League for Nursing academic educator standards to promote excellence in the advanced specialty role of the academic nurse educator.

Student Learning Outcome

Demonstrate competence as a nurse educator based upon National League for Nursing academic educator standards to promote excellence in the advanced specialty role of the academic nurse educator.

Student Learning Outcome

Demonstrate competence as a nurse educator based upon National League for Nursing academic educator standards to promote excellence in the advanced specialty role of the academic nurse educator.

Student Learning Outcome

Design, implement and evaluate competency-based learning activities for classroom, lab and clinical settings using sound pedagogical and instructional design principles.

Student Learning Outcome

Demonstrate advanced knowledge in a specialty area of nursing practice.

Student Learning Outcome

Demonstrate advanced knowledge in a specialty area of nursing practice.

Student Learning Outcome

Demonstrate competence as a nurse educator based upon National League for Nursing academic educator standards to promote excellence in the advanced specialty role of the academic nurse educator.

OHSU Graduation Core Competency: Teamwork

Work effectively within collaborative, team- or teaming-based interprofessional environments while acknowledging positionality and intentionally making space for diverse perspectives.

Student Learning Outcome

Demonstrate the leadership and communication skills which are essential for advancing scholarship and creating policy within organizations and for improving patient care outcomes.

Student Learning Outcome

Demonstrate the leadership and communication skills which are essential for advancing scholarship and creating policy within organizations and for improving patient care outcomes.

Program: Nursing Education (PMC-NEDU)

OHSU Graduation Core Competency: Community Engagement, Social Justice and Equity

Apply principles of social justice, equity, and/or anti-racism through community-engaged practice, service, or scholarship.

Student Learning Outcome

Recognize individual variations in learning styles and cultural understandings and incorporate this assessment into instructional planning.

Student Learning Outcome

Facilitate learning related to central nursing competencies including: evidence-based practice, clinical judgment, cultural humility, ethical reasoning & quality improvement.

Student Learning Outcome

Use emerging information and health technologies to access current research and health care data to improve patient care.

Student Learning Outcome

Use emerging information and health technologies to access current research and health care data to improve patient care.

Student Learning Outcome

Synthesize and translate relevant, current and scientific knowledge and evidence based research findings into practice.

Student Learning Outcome

Synthesize and translate relevant, current and scientific knowledge and evidence based research findings into practice.

Student Learning Outcome

Synthesize and translate relevant, current and scientific knowledge and evidence based research findings into practice.

Student Learning Outcome

Synthesize and translate relevant, current and scientific knowledge and evidence based research findings into practice.

Student Learning Outcome

Use emerging information and health technologies to access current research and health care data to improve patient care.

Student Learning Outcome

Synthesize and translate relevant, current and scientific knowledge and evidence based research findings into practice.

Student Learning Outcome

Use emerging information and health technologies to access current research and health care data to improve patient care.

Student Learning Outcome

Use emerging information and health technologies to access current research and health care data to improve patient care.

Student Learning Outcome

Use emerging information and health technologies to access current research and health care data to improve patient care.

Student Learning Outcome

Use emerging information and health technologies to access current research and health care data to improve patient care.

Student Learning Outcome

Use emerging information and health technologies to access current research and health care data to improve patient care.

Student Learning Outcome

Use emerging information and health technologies to access current research and health care data to improve patient care.

Student Learning Outcome

Synthesize and translate relevant, current and scientific knowledge and evidence based research findings into practice.

OHSU Graduation Core Competency: Patient Centered Care

Clinical degree program graduates will collaborate with diverse individuals, families, and communities to provide quality trauma-informed care that is anti-racist and respectful of and responsive to preferences, needs, attitudes, beliefs, and values.

Student Learning Outcome

Demonstrate safe care of children and their families in primary and acute care settings.

Student Learning Outcome

Demonstrate safe care of children and their families in primary and acute care settings.

Student Learning Outcome

Demonstrate safe care of children and their families in primary and acute care settings.

Student Learning Outcome

Demonstrate safe care of children and their families in primary and acute care settings.

Student Learning Outcome

Demonstrate safe care of children and their families in primary and acute care settings.

Student Learning Outcome

Demonstrate safe care of children and their families in primary and acute care settings.

Student Learning Outcome

Demonstrate safe care of children and their families in primary and acute care settings.

Student Learning Outcome

Demonstrate safe care of children and their families in primary and acute care settings.

OHSU Graduation Core Competency: Professional Identity and Ethical Behavior

Demonstrate discipline-specific behaviors, norms, and ethics while also recognizing and challenging racist professional expectations which can cause undue burden and/or deny the full humanity of ourselves, our peers, and our patients.

Student Learning Outcome

Make sound, culturally appropriate, and ethically grounded clinical judgments based on critical analysis of the best available evidence.

Student Learning Outcome

Make sound, culturally appropriate, and ethically grounded clinical judgments based on critical analysis of the best available evidence.

Student Learning Outcome

Make sound, culturally appropriate, and ethically grounded clinical judgments based on critical analysis of the best available evidence.

Student Learning Outcome

Make sound, culturally appropriate, and ethically grounded clinical judgments based on critical analysis of the best available evidence.

Student Learning Outcome

Make sound, culturally appropriate, and ethically grounded clinical judgments based on critical analysis of the best available evidence.

Student Learning Outcome

Make sound, culturally appropriate, and ethically grounded clinical judgments based on critical analysis of the best available evidence.

Student Learning Outcome

Make sound, culturally appropriate, and ethically grounded clinical judgments based on critical analysis of the best available evidence.

Student Learning Outcome

Make sound, culturally appropriate, and ethically grounded clinical judgments based on critical analysis of the best available evidence.

Student Learning Outcome

Make sound, culturally appropriate, and ethically grounded clinical judgments based on critical analysis of the best available evidence.

OHSU Graduation Core Competency: Professional Knowledge and Skills

Demonstrate core knowledge, skills, and practices as defined by the discipline, professional licensing, or accreditation organization while being open to new perspectives, additional voices, and changes in schools of thought that impact the core knowledge, skills, and practices in the discipline.

Student Learning Outcome

Integrate professional leadership skills in delivery of care.

Student Learning Outcome

Apply advanced knowledge in the science of a specialty area of advanced nursing practice.

Student Learning Outcome

Integrate professional leadership skills in delivery of care.

Student Learning Outcome

Integrate professional leadership skills in delivery of care.

Student Learning Outcome

Integrate professional leadership skills in delivery of care.

Student Learning Outcome

Integrate professional leadership skills in delivery of care.

Student Learning Outcome

Employ advocacy strategies to influence health care policy

Student Learning Outcome

Integrate professional leadership skills in delivery of care.

Student Learning Outcome

Integrate professional leadership skills in delivery of care.

Student Learning Outcome

Apply advanced knowledge in the science of a specialty area of advanced nursing practice.

Student Learning Outcome

Apply advanced knowledge in the science of a specialty area of advanced nursing practice.

Student Learning Outcome

Apply advanced knowledge in the science of a specialty area of advanced nursing practice.

Student Learning Outcome

Apply advanced knowledge in the science of a specialty area of advanced nursing practice.

Student Learning Outcome

Apply advanced knowledge in the science of a specialty area of advanced nursing practice.

Student Learning Outcome

Employ advocacy strategies to influence health care policy

Student Learning Outcome

Integrate professional leadership skills in delivery of care.

Student Learning Outcome

Apply advanced knowledge in the science of a specialty area of advanced nursing practice.

Student Learning Outcome

Integrate professional leadership skills in delivery of care.

Student Learning Outcome

Apply advanced knowledge in the science of a specialty area of advanced nursing practice.

Student Learning Outcome

Apply advanced knowledge in the science of a specialty area of advanced nursing practice.

OHSU Graduation Core Competency: Teamwork

Work effectively within collaborative, team- or teaming-based interprofessional environments while acknowledging positionality and intentionally making space for diverse perspectives.

Student Learning Outcome

Demonstrate the leadership skills that are essential for influencing policy and organizational systems for improving patient outcomes.

Student Learning Outcome

Demonstrate the leadership skills that are essential for influencing policy and organizational systems for improving patient outcomes.

Program: Pediatric Primary Acute NP (DNP-PPAC)

OHSU Graduation Core Competency: Communication

Communicate effectively and equitably with diverse individuals, organizations, and communities to support stakeholder decision-making and promote culturally responsive exchanges of information.

Student Learning Outcome

Use effective communication skills and technologies to provide collaborative care

Student Learning Outcome

Use effective communication skills and technologies to provide collaborative care

Student Learning Outcome

Use effective communication skills and technologies to provide collaborative care

Student Learning Outcome

Use effective communication skills and technologies to provide collaborative care

OHSU Graduation Core Competency: Community Engagement, Social Justice and Equity

Apply principles of social justice, equity, and/or anti-racism through community-engaged practice, service, or scholarship.

Student Learning Outcome

Employ advocacy strategies to influence health care policy

Student Learning Outcome

Provide individualized, culturally sensitive management using quality improvement strategies where applicable.

Demonstrate safe care of children and their families in primary and acute care settings.

Student Learning Outcome

Demonstrate safe care of children and their families in primary and acute care settings.

Student Learning Outcome

Demonstrate safe care of children and their families in primary and acute care settings.

OHSU Graduation Core Competency: Professional Identity and Ethical Behavior

Demonstrate discipline-specific behaviors, norms, and ethics while also recognizing and challenging racist professional expectations which can cause undue burden and/or deny the full humanity of ourselves, our peers, and our patients.

Student Learning Outcome

Apply ethical principles along with the standards of professional conduct to clinical care, research, and education.

Student Learning Outcome

Apply ethical principles along with the standards of professional conduct to clinical care, research, and education.

OHSU Graduation Core Competency: Professional Knowledge and Skills

Demonstrate core knowledge, skills, and practices as defined by the discipline, professional licensing, or accreditation organization while being open to new perspectives, additional voices, and changes in schools of thought that impact the core knowledge, skills, and practices in the discipline.

Student Learning Outcome

Generate entry level practice scholarship through the completion of a clinical practice improvement project based on the principles of improvement science.

Student Learning Outcome

Identify and address gaps in professional knowledge and experience through ongoing reflection to support the principle of life-long learning.

Student Learning Outcome

Integrate professional leadership skills in delivery of care.

Student Learning Outcome

Integrate professional leadership skills in delivery of care.

Student Learning Outcome

Generate entry level practice scholarship through the completion of a clinical practice improvement project based on the principles of improvement science.

Student Learning Outcome

Identify and address gaps in professional knowledge and experience through ongoing reflection to support the principle of life-long learning.

Student Learning Outcome

Demonstrate readiness to enter clinical practice via specialty competencies with the appropriate scientific knowledge, and considerations for its application to practice.

Student Learning Outcome

Demonstrate readiness to enter clinical practice via specialty competencies with the appropriate scientific knowledge, and considerations for its application to practice.

Student Learning Outcome

Demonstrate readiness to enter clinical practice via specialty competencies with the appropriate scientific knowledge, and considerations for its application to practice.

Student Learning Outcome

Generate entry level practice scholarship through the completion of a clinical practice improvement project based on the principles of improvement science.

OHSU Graduation Core Competency: Teamwork

Work effectively within collaborative, team- or teaming-based interprofessional environments while acknowledging positionality and intentionally making space for diverse perspectives.

Student Learning Outcome

Model interprofessional communication and collaboration for improving individual and/or population health outcomes.

Student Learning Outcome

Model interprofessional communication and collaboration for improving individual and/or population health outcomes.

Program: Psy Mntl Hlth Nrs Practitioner (DNP-PMHN)

OHSU Graduation Core Competency: Communication

Communicate effectively and equitably with diverse individuals, organizations, and communities to support stakeholder decision-making and promote culturally responsive exchanges of information.

Student Learning Outcome

Use effective communication skills technologies to provide collaborative care for diverse communities

Student Learning Outcome

Use effective communication skills technologies to provide collaborative care for diverse communities

Student Learning Outcome

Use effective communication skills technologies to provide collaborative care for diverse communities

OHSU Graduation Core Competency: Community Engagement, Social Justice and Equity

Apply principles of social justice, equity, and/or anti-racism through community-engaged practice, service, or scholarship.

Student Learning Outcome

Advocate for quality outcomes in mental health systems through policy change and quality improvement

Student Learning Outcome

Advocate for quality outcomes in mental health systems through policy change and quality improvement

OHSU Graduation Core Competency: Information Literacy

Recognize the power of information in educating, influencing, and understanding the world, while seeking and amplifying missing perspectives. With this lens, locate, critically evaluate, and effectively use information to participate in decision-making, quality improvement, and broader scholarly discourse.

Student Learning Outcome

Evaluate emerging healthcare systems and policy that influence delivery of cost effective patient care.

Student Learning Outcome

Manage the treatment of psychiatric disorders and mental health problems for safe and effective care across the lifespan including evaluation for quality outcomes

Student Learning Outcome

Manage the treatment of psychiatric disorders and mental health problems for safe and effective care across the lifespan including evaluation for quality outcomes

Student Learning Outcome

Evaluate emerging healthcare systems and policy that influence delivery of cost effective patient care.

Student Learning Outcome

Manage the treatment of psychiatric disorders and mental health problems for safe and effective care across the lifespan including evaluation for quality outcomes

OHSU Graduation Core Competency: Patient Centered Care

Clinical degree program graduates will collaborate with diverse individuals, families, and communities to provide quality trauma-informed care that is anti-racist and respectful of and responsive to preferences, needs, attitudes, beliefs, and values.

Student Learning Outcome

Develop therapeutic relationships as a basis for provision mental health across lifespan

Student Learning Outcome

Develop therapeutic relationships as a basis for provision mental health across lifespan

OHSU Graduation Core Competency: Professional Identity and Ethical Behavior

Demonstrate discipline-specific behaviors, norms, and ethics while also recognizing and challenging racist professional expectations which can cause undue burden and/or deny the full humanity of ourselves, our peers, and our patients.

Student Learning Outcome

Demonstrate standards of professional conduct including, integrity, honesty, self-reflection, ethical principles and legal responsibilities in professional activities

Student Learning Outcome

Demonstrate standards of professional conduct including, integrity, honesty, self-reflection, ethical principles and legal responsibilities in professional activities

Student Learning Outcome

Apply ethical principles along with the standards of professional conduct to clinical care, research, and education.

OHSU Graduation Core Competency: Professional Knowledge and Skills

Demonstrate core knowledge, skills, and practices as defined by the discipline, professional licensing, or accreditation organization while being open to new perspectives, additional voices, and changes in schools of thought that impact the core knowledge, skills, and practices in the discipline.

Student Learning Outcome

Identify and address gaps in professional knowledge and experience through ongoing reflection to support the principle of life-long learning.

Student Learning Outcome

Identify and address gaps in professional knowledge and experience through ongoing reflection to support the principle of life-long learning.

Student Learning Outcome

Identify and address gaps in professional knowledge and experience through ongoing reflection to support the principle of life-long learning.

Student Learning Outcome

Generate entry level practice scholarship through the completion of a clinical practice improvement project based on the principles of improvement science.

Student Learning Outcome

Independently conduct a comprehensive psychiatric evaluation and a diagnostic and biopsychosocial formulation for mental and psychiatric problems across the lifespan

Student Learning Outcome

Generate entry level practice scholarship through the completion of a clinical practice improvement project based on the principles of improvement science.

Student Learning Outcome

Generate entry level practice scholarship through the completion of a clinical practice improvement project based on the principles of improvement science.

Student Learning Outcome

Demonstrate readiness to enter clinical practice via specialty competencies with the appropriate scientific knowledge, and considerations for its application to practice.

Student Learning Outcome

Identify and address gaps in professional knowledge and experience through ongoing reflection to support the principle of life-long learning.

Student Learning Outcome

Demonstrate readiness to enter clinical practice via specialty competencies with the appropriate scientific knowledge, and considerations for its application to practice.

Student Learning Outcome

Independently conduct a comprehensive psychiatric evaluation and a diagnostic and biopsychosocial formulation for mental and psychiatric problems across the lifespan

Student Learning Outcome
