

# INVENT!

OHSU INNOVATION AND ENTREPRENEURSHIP EDUCATION IN  
THE HEALTH SCIENCES

The Invent Seminar Series hosts experts from the life science community to introduce fundamental principles of commercialization and entrepreneurship. The Invent Series aims to inspire and guide innovations from the university

to market, offer skill-building opportunities, develop a broad awareness of the commercialization pathway, and create robust networking opportunities.

## WHO SHOULD ATTEND?

- Medical and Graduate Students
- Postdoc Fellows
- Faculty and staff
- Members of the bioscience community

## WHY SHOULD YOU ATTEND?

- Attendance is free
- Learn basic principles of innovation, commercialization, and entrepreneurship as it relates to your research interests
- Networking with bioscience industry and academic communities

## UPCOMING TOPICS

Sessions typically occur quarterly from 12-1 p.m., locations vary. Please visit our website for future dates/topics.
