WHAT IS THE BUSINESS CASE FOR YOUR TRANSLATIONAL SCIENCE?

Find out via the I-Corps@NCATS Regional Short Course. Based on the National Science Foundation’s Innovation Corps (I-Corps™) program, the premier federally-funded innovation and commercialization training in the U.S., BIP Corp provides biomedical scientists, clinician scientists, and engineers with a new approach to accelerate the translation of discoveries from lab to clinical practice.

WHO?

- Individuals or teams of clinicians, scientists, postdocs, residents, graduate/medical students or entrepreneurs with an early stage biomedical innovation or idea

WHAT?

- This 5-week course will help you connect with potential customers for your research project, protocol, service, or prototype.

WHY?

- Determine the commercial viability of your innovation
- Develop a successful business case to secure funding and attract collaborators
- Expand your network of innovation partners, mentors, and potential investors
- Further your research idea and gain preliminary data for research and SBIR/STTR proposals

ENROLL A PROJECT

Course structure is flexible for participants, with a blend of synchronous and asynchronous learning. Non-OHSU participants welcome. No cost to participants. Apply by Sept 3, 2021.
