

# Home Infusion Therapy (HIT) Benefit for Medicare Beneficiaries

Patients receiving the following therapies may qualify for the HIT Benefit if they meet medical-necessity criteria as outlined by the Centers for Medicare and Medicaid Services (CMS):

- Certain antiviral and antifungal medications
- Deferoxamine
- Certain pain therapies
- Inotropes for heart failure
- Subcutaneous Immune Globulin therapy
- Certain chemotherapy medications

The Home Infusion staff will work with your physician and you to develop a plan of care that fits your unique medical needs. If you have questions about the Home Infusion Therapy Benefit or services offered, please call us at 844-362-0228. While Medicare may cover other therapies in the home, these may not include payment for nursing services. Our highly-qualified team will review your specific benefits with you.

## The HIT Benefit Includes:

- Infusion nursing services
- Infusion training and education
- 24/7 infusion support
- Medication and disease-state management

---

OHSU Home Infusion Pharmacy is licensed to provide Home Infusion Therapy Services to qualified Medicare Beneficiaries receiving Medicare Part B covered therapies through the OHSU Home Infusion Pharmacy.
