
COMPASSION *and* SOLIDARITY

ENHANCING ETHICAL MEDICAL CARE IN OREGON AND BEYOND

From May - November 2021, this Oregon Health and Science University Center for Ethics in Health Care virtual lecture series will examine various health care practices through the shared lenses of compassion and solidarity.

The goal of this lecture series is to illuminate complex medical topics including: ethics in the end-of-life context, justice and equity in the Pacific Northwest, how to improve health literacy and become a more compassionate communicator, why storytelling can help prevent burnout and make clinical practice more humane, and ways in which grief and trauma can be diminished through friendship and solidarity. We hope you will join us!
