

WHAT DOES IT MEAN TO BE HUMAN?

DO WE CONTROL OUR MEDICAL TECHNOLOGY? OR DOES
OUR TECHNOLOGY CONTROL US?

IS AMERICAN HEALTH CARE JUST? IF SO, FOR WHOM?

JOIN US AT THE
OREGON BIOETHICS AND HUMANITIES COLLOQUIUM
AS WE EXPLORE THESE QUESTIONS AND MANY MORE.

The **Oregon Bioethics and Humanities Colloquium (OBHC)** is an eight-part academic lecture series beginning in October 2021. The goal of the OBHC is to foster substantive inquiry, conversation, and education in biomedical ethics and medical humanism by bringing together scholars and students from diverse disciplines including medicine, philosophy, literature, sociology, religion, anthropology, health policy, and more. The OBHC aims to create an environment where critical examination of the human experience is the norm, and seeks to provide innovative perspectives on medicine and health— perspectives that will both challenge and edify all who attend.
