

## Oregon Summary

Sample  
64

National Sample  
624

### Q1: YOU SAID - ASK US THIS!

	# Responses	% Sample	% National sample
Our practice uses non-approved treatments for COVID-19 (such as ivermectin)	2	3.1%	5.3%
Wait times for new patients and/or preventive care visits are at record highs in our practice	30	46.9%	42.5%
Access to specialty care for diagnostic testing, such as colonoscopies, is severely delayed	39	60.9%	50.0%
Burnout/mental exhaustion in my practice is at an all time high	48	75.0%	62.0%
Our practice offers monoclonal antibody infusions	16	25.0%	20.4%
I receive calls weekly from health care colleagues in the midst of their own mental health crisis	14	21.9%	12.8%
I have been approached by someone wanting to buy my practice within the last 60 days	2	3.1%	3.7%
None of the above	10	15.6%	15.4%

### Q2: OVER THE LAST 4 WEEKS, have COVID-19 related changes and pressures in your practice put unusual strain on your practice?

	# Responses	% Sample	% National sample
1 – no impact	2	3.1%	3.8%
2	3	4.7%	10.6%
3	12	18.8%	31.9%
4	29	45.3%	38.3%
5 – severe impact	18	28.1%	15.4%

### Q3: MORE SPECIFICALLY, over the last 4 weeks, health issues among non-COVID-19 vaccinated have put unusual strain on my practice?

	# Responses	% Sample	% National sample
1 – no impact	8	12.5%	10.7%
2	7	10.9%	20.4%
3	18	28.1%	30.1%
4	18	28.1%	27.1%
5 – severe impact	13	20.3%	11.7%

### Q4: PANDEMIC STATUS. Please tell us about the status of the pandemic in your area.

	# Responses	% Sample	% National sample
We are experiencing a COVID surge in our area	45	70.3%	55.9%
Local hospitals are running out of resources	32	50.0%	37.7%
Access to specialty care is limited in our area	38	59.4%	44.7%
We provide COVID-19 vaccine BUT supply is not adequate to our needs	2	3.1%	2.9%
We regularly provide COVID-19 testing in our practice	47	73.4%	65.2%
Our COVID-19 testing supplies are not adequate to our needs	13	20.3%	14.1%
We are fully staffed	6	9.4%	21.6%
We are flooded to overwhelmed by patient needs	41	64.1%	43.9%
Our practice is financially stable	25	39.1%	42.6%
None of the above	2	3.1%	2.9%

**Q5: PRACTICE CHANGE during the pandemic. How has the pandemic affected your practice?**

	# Responses	% Sample	% National sample
We have created new positions and roles in the practice to enable use of video and phone based care	22	34.4%	25.3%
Clinicians have taken on more administrative tasks due to low staffing	34	53.1%	47.6%
Video and phone based care have become essential to maintaining our practice capacity	44	68.8%	54.3%
I have seen a rise in medical errors due to use of video and/or phone based care	8	12.5%	10.1%
Since the start of the pandemic, we have added more mental/behavioral health support for our patients	15	23.4%	26.4%
Because of the pandemic, we now work more closely with public health and/or community organizations	22	34.4%	31.3%
None of the above	2	3.1%	12.7%

**Q6: FLASH QUESTION – VISIT TYPES. Please let us know if you've seen more of these visit types, less of these, or about the same number when compared to pre-pandemic times.**
