Help us test a program for family caregivers for adults with frontotemporal degeneration

DO YOU CARE FOR A FAMILY MEMBER WITH FTD?

Researchers want to test an education and support program that addresses the specific needs of family caregivers for those with FTD.

YOU MAY BE ELIGIBLE IF:
- You care for a family member with frontotemporal degeneration, including FTD, primary progressive aphasia, and progressive supranuclear palsy.
- You have a computer and can participate in videoconference-based meetings

STUDY PARTICIPATION INCLUDES:
- Attend 8 one-hour sessions for 8 weeks with other FTD family caregivers
- Complete brief weekly surveys
- Complete two comprehensive surveys

ADDITIONAL INFORMATION:
- All study activities are done from your home, no travel is needed
- Gift cards up to $50 may be provided for completing all study activities
