All the Stars Denied (2018) by Guadalupe Garcia McCall

In the heart of the Great Depression, Rancho La Moras, like everywhere else in Texas, is gripped by the drought of the Dust Bowl, and resentment is building among white farmers against Mexican Americans. All around town, signs go up proclaiming "No Dogs or Mexicans" and "No Mexicans Allowed".

When Estrella organizes a protest against the treatment of Tejanos in their town of Moneseo, Texas, her whole family becomes a target of "repatriation" efforts to send Mexicans "back to Mexico"—whether they were ever Mexican citizens or not. Dumped across the border and separated from half her family, Estrella must figure out a way to survive and care for her mother and baby brother. How can she reunite with her father and grandparents and convince her country of birth that she deserves to return home? There are no easy answers in the first YA book to tackle this hidden story.

Did you know?

The Book Group is committed to our PNP students being actively involved in childhood literacy as it is one of the key predictors of that child's future health and as equally important, we have fun along the way!

Grand Rounds Announcement

Pediatric Grand Rounds are held Thursdays at 8:00 a.m. in the Doernbecher Children's Hospital, 11th Floor Joseph Vey Conference Center – Marion Miller Auditorium (location subject to change). Light breakfast is available.

Pediatric Grand Rounds are designed to discuss and evaluate evolving diagnostics and therapeutics as they relate to general and sub-specialty pediatrics, and describe community and academic resources relevant to contemporary pediatric practice. At the conclusion of this activity, participants will be able to discuss, assess, and manage care of children with either normal or complex care requirements.

For more information and to watch recordings of past lectures, please visit
