

## A safety net for thousands of people in Oregon

OHSU's IDS supports 54,000+ Medicaid members

During Medicaid Awareness month, we shine a spotlight on OHSU's Integrated Delivery System (IDS). Our [OHSU Health Services IDS](#) is part of Health Share of Oregon's coordinated care organization (CCO). Our focus is on prevention and helping people manage chronic conditions. We work with all types of health care providers (oral, physical, addiction and behavioral health) to support more than 54,000 people living in Multnomah, Washington and Clackamas counties.

OHSU Health Services administrative staff support our provider network of referral specialists. The network includes OHSU, Adventist Health Portland and Hillsboro Medical Center providers and clinics as well as community-based providers contracted with our IDS. Support for the network includes:

- Medical case management
- Care coordination
- Health-related services
- Pharmacy
- Compliance oversight
- Delegated credentialing
- Quality improvement services

Beginning in 2022, our IDS will administer a housing project to improve living conditions for some Health Share Medicaid members. The project will initially support members transitioning out of foster care, corrections or inpatient substance use disorder programs.

### BY THE NUMBERS

54,000+ lives supported by OHSU Health Services IDS

- 15,125 children ages 0-17
- 2,511 adults over age 65
- 41 different languages spoken
- 535 members who are blind
- 425 members who are deaf

Quadruple aim:

- Improve health equity.
- Improve the members' experience of care.
- Improve the health of populations
- Reduce the per capita cost of care.
