Learn to lead through choosing a project that reflects the meaningful difference you want to make and setting the wheels into motion, all while practicing core leadership skills that will serve you in future projects.

*Paths to Leadership* invites OHSU School of Medicine faculty to reconnect with your professional purpose and clearly articulate the meaningful difference you wish to make, whether caring for patients, influencing the next generation of learners and/or generating new knowledge about human health and health care.

Participants learn to exercise leadership within your current role by partnering with key stakeholders whose support is needed to move your vision forward, while appreciating senior leaders' priorities in a new light.

Past participants report a sense of increased personal meaning and joy as well as deeper engagement with OHSU and its important missions.

How does OHSU benefit?
- Improving our leadership and management capacity
- Leveraging participants’ experience and passion in order to improve OHSU’s mission areas.
- Promoting a learning organization culture
- Developing and sustaining champions for change

**An OHSU School of Medicine Leadership Development Offering**

*Paths to Leadership* weaves together curated readings and videos, in-class conversations with both guest leaders from across OHSU and fellow participants, and structured weekly practice sessions both in and outside of class to build the following leadership mindsets:
