Attendance Policy for DMD Students

Overview
The policy of the School of Dentistry is that attendance for all students enrolled in the DMD Program is mandatory at all scheduled class, pre-clinic, and clinic sessions.

Purpose
This policy establishes the expectations for student attendance while enrolled in the School of Dentistry at OHSU and sets forth notification requirements in the event of absence.

Attendance Expectations
Student attendance at scheduled classes, small group sessions, seminars, presentations, intramural clinics and rotations, extramural clinics and rotations, and official School or University required functions is mandatory. Students are expected to challenge all assessments given as part of the DMD program of study at the times scheduled by the course director. A score of NP will be recorded for assessments that have been missed. At the discretion of Course Directors, attendance may be part of the course grading rubric and in general, there is no make-up for quizzes or assessments that require laboratories, or simulation activities.

Acceptable reasons a student may be allowed to reschedule an assessment are defined by OHSU Policy No. 02-70-045, Change in Scheduled Examination and Other Assessments and include the following:

- Serious Illness
- Hospitalization
- Death in the immediate family
- Approved religious observance
- Approved accommodations for disabilities
- Unique academic or professional opportunities (pre-approved by the Office of Academic Systems)
- SOD Approved Events (pre-approved by the Office of Student Systems)
- Jury Duty
- Other compelling reason (pre-approved by the Office of Academic Systems)

Students who seek to reschedule an examination for medical reasons may be required to provide appropriate documentation.

Students anticipating an absence that conflicts with a scheduled assessment must inform the Office of Academic Systems in writing, OHSU email (sodacademic@ohsu.edu) preferred, at least 30 days prior to the anticipated absence. For absences due to illness or unexpected emergencies, students must call or email the Office of Academic Systems prior to the scheduled exam. Students who miss an assessment for medical reasons will be required to provide appropriate documentation.
Students who will miss a scheduled assessment due to attendance at a SOD approved event, must notify the Director, Student Services no later than 30 days prior to the SOD approved event in which they would like to participate. Student Services will provide the Office of Academic Systems with a list of students approved to participate in each SOD approved event two weeks prior to the scheduled event. Only the students pre-approved will be allowed to reschedule any missed assessments.

The Senior Associate Dean for Academic Systems, in consultation with the course director, has the authority to reschedule assessments for students who have missed a scheduled assessment due to a reasonably excused absence.

Attendance during Final Exam Week
Students should refrain from making any travel plans prior to 5:00 pm on Friday of Final Exam Week. While the exam schedule may not show scheduled exams, remediation exams may be offered on Friday afternoon. Missing a scheduled exam due to travel without an excused absence will result in a NP course grade.

Attendance during Extramural Patient Care Sessions
The student shall notify the Office of Community Dentistry prior to the scheduled session that will be missed due to the absence. The Office of Community Dentistry will notify the appropriate community sites and the Office of Academic Systems. Depending on the length of the absence, students may be required to make-up the missed community rotation absences.

Special Conditions
From time-to-time special situations will arise that need individualized planning and considerations. Among these situations are personal health issues, family obligations, post-graduate interviews, externships, and National Board Dental Examinations.

Personal Health Issues and Family Obligations
The student is advised to meet with the Director, Student Services and/or the Senior Associate Dean for Academic Systems preferably two weeks prior to the expected absence. The School and University have resources available to help address issues. School bylaws permit the granting of leaves of absence to facilitate this process. Accommodating remedial work will be determined by the Student Promotions Committee (SPC). The plan will be communicated to the student and the appropriate Course Directors, Group Leader, Office of Extramural Programs and Student Services.

Post-graduate, GPR, AEGD and Private Practice Interviews
Interviews should be conducted outside of regularly scheduled school hours. If students are unable to arrange interviews outside of school hours and the interview falls on an examination or test date, prior approval must be obtained from the course director and the Office of Academic Systems at least one week in advance. Course instructors are not obligated to provide make-up exams for absences due to interviews.

Externships
Externships should be scheduled during break weeks between terms. All externships must be pre-approved by the Senior Associate Dean of Academic Systems in conjunction with the Group Practice Leader.
National Board Dental Examinations
Students are expected to schedule National Board examinations during term breaks. It is understood that limitations related to testing sites and dates occur. In these circumstances, students must notify the Course Director and the Office of Academic Systems prior to challenging the exam.

Faculty Responsibility
There is no intent in this policy to mandate monitoring of student attendance by faculty. However, Course Directors may choose to include attendance in their course assessment measures and to document the expectation in the course syllabus. In addition, if a faculty is aware of student attendance issues, the faculty may submit a Professional Monitoring Form to the Office of Academic Systems.

Absence Request Policy for DMD Students
DMD students who wish to request an absence must follow the procedure as outlined in the absence request flow chart.
