ABOUT OUR SPEAKER

Hughes Evans, MD, PhD is Marcus Professor of General Pediatrics at Emory University and division director of General Pediatrics and Adolescent Medicine. She is heavily engaged in medical education, having served as dean for medical education at the University of Alabama at Birmingham before moving to Emory. At Emory she is a small group advisor in their curriculum.

She has a PhD in History of Science from Harvard University and does research in the history of pediatrics. Her historical research has explored aspects of child sexual abuse, Down syndrome and children orphaned by pandemics.

OBHC IS HOSTED BY THE OHSU CENTER FOR ETHICS IN HEALTH CARE.
