

# RESEARCH FELLOWSHIP

The two-year fellowship program in Emergency Medicine Research with the OHSU Center for Policy and Research in Emergency Medicine (CPR-EM) combines practical research experiences, didactic training in research methods and biostatistics, and clinical emergency medicine.

OHSU Emergency Medicine ranks nationally (#4 among academic ED programs for NIH funding 2019) and boasts a robust research training environment. Fellows select research projects tailored to their individual interests within the broad range of health services and clinical research. Depending on interests and previous background, fellows will have the option of completing a Master of Clinical Research (MCR) or Master of Public Health (MPH) degree. Applicants who already hold a research credential may take other courses to expand on their research skills and content expertise.

## Upon completion of the research fellowship, the fellows will be able to:

- ◆ Design, conduct, and manage an independent research project
- ◆ Successfully compete for extramural research funding
- ◆ Integrate knowledge of clinical emergency medicine with health services, clinical, and epidemiologic research methods
- ◆ Serve as a clinician-educator in an academic emergency department

## QUALIFICATIONS:

- ◆ Board certified or board eligible in EM or Pediatrics (residency trained)
- ◆ Demonstrated interest in health services research
- ◆ Commitment to a career in academic emergency medicine
- ◆ Interest in obtaining an MCR or MPH degree

## LIVE IN PORTLAND, OREGON:

Beautiful, vibrant, progressive city, skiing, hiking, mountain biking, cycling, rock climbing, and surfing less than an hour and a half away.
