Welcome to the Student Health & Wellness Center. We are a multidisciplinary integrated care team consisting of a primary care clinic and a behavioral health clinic. We work collaboratively to promote the health and wellness of students and postdoctoral scholars at Oregon Health & Science University (OHSU).

During your first appointment, you will talk confidentially with a provider about your immediate concerns including the reasons you scheduled the appointment. Your provider will evaluate what services or resources may be most helpful for you. Some students and postdoctoral scholars find that talking with a provider once is sufficient to resolve their immediate concern. If further services would be beneficial, these will be discussed and the provider will make a recommendation. These additional services may include resources offered by Student Health & Wellness Center, and/or referrals to other OHSU or community offerings.
